Hi There
I am after 2 FT-101ZD Knobs, one is for the plate and one for the Mode.
If anyone knows of a source for the knobs or has a scrap 101ZD I would

appreciate a quick e-mail.
Thanks
Martyn

Hi All,

Now that I've completely decommissioned my station, I am offering my gorgeous N2DAN MERCURY KEYER for sale. Arguably the finest keyer ever built.

Not for everyone, of course, as these are very rare and collectible.
Currently up for auction on ebay at:

http://cgi.ebay.com/ws/eBayISAPI.dll?ViewItem&item=1373042784

Auction ends Sunday nite (8/18/02).

Take a peek, have fun!

Thanks/73 de Jeff K2KV

Must be ENIAC era "computer grade" caps.
Even then, I doubt that there was 3600 vdc
running around anywhere.

I have a working Heathkit C-3 that I don't need, and want to sell. It is gray in color, in good shape with the usual use/storage wear, but a couple of the knobs have hairline cracks that could probably be fixed with cement (or just replaced). It is also missing the 1629 eye tube, although if an offer was good, I might be convinced to part with one of mine. I pulled a 1629 from another radio and tested it with the tube installed, and it correctly read all the capacitors and resistors I tested. I've also got a non-orignal manual (printed off of the BAMA) that goes with it.

I don't really know what this is worth, so I'll entertain all genuine offers. If interested, please e-mail me directly.

I didn't know the asking price of $300 was too high. So, down to $275

have my Uniden BC780XLT for sale. I am going on a trip and need to sell it ASAP
. Paypal preferred. my ebay feedback can vouch for my reputation (over 250) The unit is in 9/10 cosmetic shape, some very small paint drops on it from remodel (they will be gone upon shipping) 10/10 electronic condition. I will include manual, power supply, 2 antennas and original box. I leave wednesday late, so today is the last day available. I will sacrifice for $275 shipped conus (lower 48). Photos upon request.

Picked this up at a hamfest several years ago but never used it. The previous owner claimed he'd just had it tuned up. Handsome looking rig but with a few dings, marks and scratches from being about 40 years old. Comes with matching power supply and instruction manual (operation, alignment, schematics, parts list). Pics availabe on request.

Original specs: 80/40/20 coverage, 200W CW/SSB - 100W AM, VOX

$100 plus shipping. With the power supply, the whole affair is about 50# so I figure between $25 and $35 to ship to either US coast. I take PayPal or money orders only. If you need to check my rep, I can provide my eBay ID.

Paul KB0LUR

FOR SALE:

Crystal sockets for HC-6/U crystals.
If anyone would like some, I have about 10 or 20 of these available
for $2.00
each plus shipping

These are new parts. They are teflon and anodized metal.
They have two hole side mounting, with a clip that nicely holds the
crystal in place.

Great for repairing older rigs, or for homebrewing tube transmitters &
receivers.

These are NOT the same as FT243. These are for the similar sized
crystals that have thinner pins.

re: Convertacom HT to mobile vehicle adapter (Motorola)

Hello there,

I'm pulling my MT-1000, HT-600 & P-200 Portable Covertacom out of service today. It's the drop in power supply, battery charger (dual rate... fast and slow), external amplified speaker (high power version) included and the mounting brackets.

I bought and have been using this unit for some time now for both UHF & VHF Motorola Portables... works very well with all the above models. We are going to trunking...

Paid almost $400 for it some years back... I'm asking $65 or best offer now. Drop me a direct Email if your interested... Please no spam or junk Email...

I'll also be listing a number of used HT-600, P-200 and one or two MT-1000 radios here in the next week. Watch for my listing...   check my all positive Ebay feedback (my Ebay ID is my Email address you see here) for references.

thanks
73's
skipp

skipp@pilotNOSPAMPLEASE.ucdavis.edu

please take the NOSPAMPLEASE out of the above Email address to reply to me. thanks...

For sale 3x brand new Motorola MTS2000 II for 800 MHz. Radio type is
H01UCF6PW1BN. Do any offer I cannot resist. The radio are complet with
battery and antenna. I can optionel sale chargers, but we use 220 volts in
stead of the 110 volts in USA.

Let me know,

Mike
The Netherlands

I'm trying to build the 144 MHz amplifier based on the 3cx800a7 in the ARRL
handbook. There are several references to Eimac parts that I cannot find
at the Richardson Distributing web page. Does anyone have any info

```
(specifications, etc.) or any idea on finding the following parts?

Eimac 720362 (Tuning Boss)
Eimac 720361 (Support assembly)
Eimac 720407 (Sliding probe)
Eimac 720359 (Grid Collet)

Please respond via email.

Thanks

I have an absolutely mint Alinco DJ-X2000E handheld receiver for sale. I am the original owner and have only used this radio approximately 1 hour total. I am including 2 extra Alinco EPB-37N Ni-Cd battery packs. There is a total of 3 with the one that was included with the radio, Alinco EDH-16 AA dry cell battery case, Alinco ESC-39 soft case. I have the boxes and manuals. This radio comes from a non smoking environment. The frequency coverage is 0.1 MHz to 2149.999950 MHz no gaps. This radio is all mode WFM, NFM, AM, USB, LSB and CW. There are no dents, scratches or scuffs. I am asking $575.00 plus shipping from 48026.

I have (2) Model # AN/UGC-74B(V)3 brand new military communications keyboard/terminals. Very heavy duty (100 lbs. each). Rubber booted keys and switched. These come with the (2) handle military style aluminum cases with pressure locks. Designed for use with most Harris military radio's for Baudot applications. One unit has an unopened roll of teletype paper and new ribbon included. I would suggest that these be pickup only here in RI.

$70 each

Thanks and 73.

I am too cheap to buy an Ameritron QSK-5 self-contained pin diode QSK TR switch. I would like to replicate one (that means home brew), but Ameritron/MFJ does not publish the schematic on their web site. Would someone be kind enough to scan the schematic for me? I would prefer a scanned image file that you could e-mail. I am willing to pay postage if you don't have that ability.

Thanks for you help - Jeff - KA9S

I have three MV11C's for sale. These are the motorola spirit small VHF handhelds. Each one is new in box...all have been opened and tested/used for approx 1 hour. C/W rech. batt, belt clip, ante, and wall charger. All are on the Low Power Industrial freq's for BC (canada). Prgramable to one of two low power industrial VHF freq's. Asking 100$ each or best offer...shipping extra. Prefer to sell to someone in BC Canada as they are setup for freq's in that province...

email: jmckay@interlog.com

Hi..

I have a McMurdo Silver receiver / transmitter combo made in 1947, these are the VHF receiver and VHF transmitter pair.

Does anyone know how I can determine what the fair market value of this equipment is?

regards

Peter

FOR SALE:

Gap Eagle DX HF Vertical Antenna - Mounts on 1.25" Pole
Covers 40, 20, 17, 15, 12 and 10 Meters - 21 ft. tall
No tuning to set it up.
All aluminum, Weighs only 11 pounds.
Three 80" Rigid counterpoises (supplied)
Supplied with the instructions.
It has no traps, transformers or matching coils to rob transmitted or received power.

Manufactured locally by GAP in Florida.

Eagle DX - 6 Band Multiband DX Antenna

The Eagle is the smallest antenna in the GAP product line. Its development was the result of your requests for a low profile, high efficiency GAP antenna.

The Eagle DX-VI weighs just 11 pounds and can be installed almost anywhere - at ground level, on a pole, on your roof or atop a tower. It is essentially a set of vertical dipoles - the optimum singular DX antenna. No traps, coils or transformers are used to achieve multiband operation in this antenna either.
Why is that significanat? Traps are the "weak link in the chain" of a multiband antenna.
Critical to the design of the GAP Eagle was the requirement to permit operation anywhere on all of its designed frequencies.
The Eagle provides full coverage with a VSWR less than 2:1 on 40m, 20m, 17m, 15m and 12m, and approximately 500 KHz on 10m without readjusting. 10m operation is further optimized with a supplied extender. Compare that performance to any other low profile vertical. With the Eagle, as with all GAP antennas, you will not need to buy a tuner.

If a rare DX station appears on 7.050, but, you normally work the SSB nets around 7.250, just slide the VFO and key the rig!

If the band is wide open, you might work a LU6 with a coat hanger, but when conditions are less than perfect you want the highest S meter reading an antenna can provide. Efficiency is critical.
The efficiency of the GAP Eagle is without equal.
It has no traps, transformers or matching coils to rob transmitted or received power.
For the highest S meter, choose a GAP Eagle.

TUNING - Tuning can be a nasty task particularly if you mounted the antenna on your roof. In fact, it can become dangerous as trip after trip to readjust the antenna raises your frustration level and you lose your "cool". A GAP Eagle , like all GAP antennas, comes completely electronically pretuned from the factory.
There is absolutely nothing for you to tune.
If you're looking for a reliable, efficient, broad band low profile antenna that will serve you well and dig out the DX, the GAP Eagle is for you.

Antenna is in my garage - no disassembly needed!
Clean condition.

New cost $299.00 - will sell for $125.00

I have a OptElectronics FC-50 counter that has 7 of 8 bad ones

This counter'd be a $11 hamfest treat as-is.

Does anyone have a bag or these diaplays that'd part with a half-handfull for a couple of bux & postage?

Thanks

Marty

I didn't miss it.

Drove over Friday night, spent the night about 20 miles away, got to the boneyard just after 0600 and started setting up in a light mist. Had a stack of old Heath gear for sale. Set up my table, started unloading boxes, and had most of it sold before 0630. Sat around under my umbrella with plastic covering the rest of the stuff until around 0930 when a guy came up and bought the rest of it.

Is this a great place or what? Went there with a stack of boat anchors and junk, came home with a wad of $20.00 bills and a couple of hundreds. Closet is cleaned out, wife is happy.

Someone said it rained all day.

--

Regards,
Joe S.

Yes It did, it rained all day, didnt have any luck selling my junk.
 Guess it wasnt to bad, I had my yearly N.C. B.B.Q fix at Bridges
B.B.Q. whew! it was good. Will try to sell my tower and junk at Rock
Hill, S.C. on October 5th

If I was trying to fix this, assuming this is just a 7-segment readout and not one of those readouts with decoder+latch+counter, would be to find out what it is. Find out the size, whether it's common cathode or common anode, what side the decimal point is on, and perhaps even current consumption. Find the data sheet, and you'll get this information.

Then, find some available readout that matches the necessary requirements, and buy those. Buy a full set, and replace them all, to avoid differences between types.

I just checked my ECG replacement guide, and it wasn't listed in there. That would have made it really easy to check.

It seems a tad odd that 7 out of 8 have gone bad. If the one that still works is the right most readout (ie the least significant digit), you might look elsewhere assuming you have verified bad readouts. The circuit might have blanking on unused readouts, and the LSD is on simply to show that things are working; when you apply a signal, the needed digits will light up. Or, the circuit may multiplex, and the portion that does the multiplexing isn't working properly.

> Someone said it rained all day.

And they were right!
We got there Friday morning about 10:30 and it was already
rocking.
Ralph W4ZO and I spent most of the day walking around looking
for goodies while he wife Jen watched our stuff in the tent.
Made my best sales Firday.
Went home Friday afternoon and got back about 06:05 Saturday AM.
It's only about 1 1/2 hours from Wesley Chapel to Shelby.
Mostly misty in the early morning, then about 10:30 it started
really raining. I sold my Heath SB-110A station about 11:30
and decided to pack up.
It rained all the way home, we had almost 3 inches in the
rain gauge at the house.

Does anyone know who it was that was set up in the over flow
flea market area just outside the back gate, that was selling
a bunch of military gear? He had several PRC-6's that I was
interested in, but the guy that was watching the stuff didn't
know how much anything priced for.
I checked back several time and he was still there without the
owner. Must not have wanted to sell it very bad... huh?

I've been going to Shelby since 1970 and this was my frist
Friday. I will be there on Friday every year from now on.

73,

Ron KC4YOY

Those are MUCH smaller ones. I don't even sell those tiny ones.

Mine are for men with REAL radios, hi hi!

If you don't like my prices that is OK with me.

Well, since the text tag bug has nothing to do with trunking, you're
resorting to gibberish.

Next time try a henweigh.

I recently got a pro-93 ver 1.00.  Never noticed the text tag bug until
recently.  Apparently, in my experience, it only happens when cloning from
another scanner or uploading from a computer.  If you never do this, you
won't see the bug.

>I recently got a pro-93 ver 1.00. Never noticed the text tag bug until recently. Apparently, in my experience, it only happens when cloning from another scanner or uploading from a computer. If you never do this, you won't see the bug.

It happens when you've entered text tags in both the first and last 44 channels. The pointer to the text memory wraps after it gets past 255. You can work out which channels overlay each other.

There are two memories for the text tags. One is fixed ROM, where the default bank#, channel# tags are stored. That's fine. The second is programmable memory, where tags you enter are stored. There are 300 locations for those, but the 8 bit pointer can only access 256 of them before it wraps.

If you never change the factory default in one channel, then the ROM is referenced for that tag and there will not be a conflict between that channel and its conterpart. If you enter a tag with text identical to the default, then the radio references that instead of the ROM and there will be a conflict.

Since manually entering text tags is a real chore, you're not likely to get to the last couple of banks unless you're using software. Interestingly enough, the tags in the overlapping channels are in the scanner and do not conflict internally: it's just the ability of the 1.00 radio to display them. Clone a 1.00 to a later model and they work as expected.

There is a huge discussion of this at the Yahoo! PRO-93 group. Probably the second biggest topic. I think the biggest topic is the subsequent discussion correlating date codes with version 1.00 vs the later fixed ones.

FWIW, whether or not this bug is a problem depends very much on how
you use the radio.

Ken Plotkin

Wanted: manual for Kantronics UTU terminal unit. Purchased one used
some time ago but no manual included. Kantronics doesn't have any
available either. Copies are fine, will reimburse postage and copying
cost. Please reply to kb6ojs@arrl.net with info. Thanks in advance!

I purchased a hand help 2 meter ham radio awhile back (maybe 2 1/2 to 3 years ago). I had intentions of taking the Tech. test but I don't think it will be happening as I don't have the time left. It is a Radio Shack HTX 202 (I think that is the correct model # as it is packed away and I can't get to it right now). If you are interested I will verify the model #. Obviously it is brand new and has never been used and I would guess the rechargable battery pack is no good anymore. I am selling the radio along with the latest study book and also the one before that. if anyone is interested. I will have to find out what it's value is. I believe I paid a bit over $200 for it. Thank you, Teddy in central Vermont.

There is a new Ham Radio Portal online at

http://www.hamradio-portal.com

This Portal contains news, Information and=20

special topics like Echolink software and many more.

It has a Weblink and download database.

A new Webboard to discuss topics is also there.

You can also submit news and topics what

comes available on the top of the page!

It should not to be in compete with other Portals.

Just a new one with a new look and nice features.

We hope to see you there!

Andre

I have (2) Model # AN/UGC-74B(V)3 brand new military communications keyboard/terminals. Very heavy duty (100 lbs. each). Rubber booted keys and switches. These come with the (2) handle military style aluminum cases with pressure locks. Designed for use with most Harris military radio's for Baudot applications. One unit has an unopened roll of teletype paper and new ribbon included. I would suggest that these be pickup only here in RI.

$50 each

Thanks and 73.

I'm going to bid on it!!
Must have taken you forever to click on it.
Yes, it would have been nice to have "FA" in the front
BUT, I think you're being over critical and down right nasty.
Save it for the bastards trying to blow up our country!!!!!!!!

Anyone have a 500pf air cap with air gap 1/2" or more between plates
5kw or higher rated? it would be around 12-15" in length.
Thanks for looking.

Allot of different parts for the builder. Turns counter, Verinier

Dial, National RF 175A plate choke, 3 blowers, several potentiometers,
several PJ-068B mic plugs for collins and drake, dow key relay,
several other relays for your amp or radio project. 2 coil forms, 8 HV
caps, ! filament transformer 5v@20 amps, a HV diode board, 2 pill
transistor amp with a 13.8 volt power supply built in to run a mobile
in the house unit runs off 110 volts. A nice collection of different
sized coils. A couple more small transformers. More items you will get
everything in the pic

I am looking for a good condition cabinet for my Racal 6790 receiver;
5.25" front panel, 18.5" deep. I have a fair-good condition black steel
cabinet that will fit an R-390-/51J size radio for trade.   Anyone???

Here is K2VI in action...his reply to me..
please do post our e mail messages.so everyone will see how much of a petty scumbag you really are.i can sell this scope for 225.00 no problem.your getting a great deal and you want to be a hardnose about shipping.go suck an egg loser.and please post this all over the internet.do you think your spiting me ass wipe?you have a long way to go.now crawl back to your hole or where ever you hatched from.

yours very truely

anthony k2vi

I have for sale a Drake R-4B receiver in very nice condition with
good condition copper. This receiver is sensitive and works well
with no modifications.
Asking $200.00 plus shipping from Zip 76001. Shipment to continental
USA only.

I'm selling my FT-8100R WITH the separation kit. The radio was rarely used.
It was installed in the vehicle I'm selling, so I obviously have no more
need for the unit.

The radio is in great shape. I've never had any problems with it and loved
using it on road trips.

I'm looking to get $500, but try making me a reasonable offer!

73,
Jeremy
N6MOT

```

I have for sale a Drake R-4B receiver in very nice condition with good condition copper. This receiver is sensitive and works well with no modifications.
Asking $180.00 plus shipping from Zip 76001. Shipment to continental USA only.

I also have for sale crystals for the following frequencies for the Drake R-4
line. Each is $15.00, postage paid to continental US.

3.0 - 3.5 MHz
4.5 - 5.0 MHz
9.5 - 10.0 MHz
11.5 - 12.0 Mhz
15.0 - 15.5 Mhz
15.5 - 16.0 MHz
29.0 - 29.5 MHz
29.5 - 30.0 MHz

```

re: wtb: Zetron DAPT 1000b manual please

Hi there,

Pretty much says it all... I'm looking for the Zetron (paging terminal), model 1000b manual. If you have or know of a source for said animal, please drop me an Email to the address below.

Please no spam, sincere on topic replies only please reply to my listed Email address (remove the NOSPAMPLEASE).

I'm willing to pay any fair price...

thanks

skipp@pilotNOSPAMPLEASE.ucdavis.edu

remember to take the NOSPAMPLEASE out to reply to me.
skipp

Hi there,

I've got a nice working Motorola GP-300 two channel UHF hand held for sale. Basic radio with a battery and antenna... sell for $85 or best offer after one week.

This unit works well, you will need to buy a charger as I never received one when I bought the HT a year ago. I've been using my GTX charger on it with great results.

Currently on a 461.xxx repeater with talk around, does PL and DPL, very good working condition and the cosmetics are good.

All positive Ebay feedback (over 500) for references and you can pick up in person, should you be around the greater Sacramento, CA area. if your close by. Buyer pays actual shipping. Repeater service available in the Greater Sacramento - Northern SF Bay Area should you want to use this unit on one of my machines.

Please remove the NOSPAMPLEASE from my Email address to contact me.
Serious inquiries only and please.. no spam.

thanks

skipp

FOR SALE:

Transmitting variable capacitors, HF, VHF etc.

E.F Johnson, Hammarlund, Cardwell, National and other brands.
All sizes, including split stator types, loading caps,
neutralizing caps, trimmers etc. etc.20 pF to 1000pF

Examples:
Large E.F. Johnson split stator varable, 300 pF + 300 pF at 3.5 KV
Type MPE 300DD35
```

Dimensions 9.5" deep X 4.5" X 4.25"
Has standard 1/4" shaft 1.5" long.
Will sell for $26.00

Hammarlund NOS Dual 50 pF split-stator variable capacitor
in original box.
Type MICD-50C with dimensions: 2-1/2" X 2-1/2" X 3" deep
Has standard 1/4" shaft that is 1-1/2" long
Will sell for $12.00

National Co. EMC-1000 variable capacitor 0-1000 pF QRO type,
suitable for HF linear amplifier or large RF final.
Dimensions 3-5/8" wide X 3-1/4" tall X 5" deep plus 1-1/2" long
shaft X 1/4"
This one is NEW in original box. QTY 1 available for $24.00

See full list and pictures at:

What crisis? I don't see no stinkin' crisis. Or do you mean the one
conjured up by the current Republican regime to scare hell out of the
citizens and take away our constitutional freedoms?

And if I'm not mistaken, he was using that SIG long before 9/11/01.

Believe it. Many enjoy a ham & cheese on rye, even (also un-kosher).
Many young people have "the other white meat" for their bar-mitzvah
dinners, even in Israel. Only so-called "orthodox" Jews don't consume
pig products.

BTW, did you know that Muslims don't eat pork, either? Maybe they're
closer than they like to think?

And for the record, with the advances in refridgeration there's no
reason to avoid pork anymore.

They did have the "pork riots" in Isreal during the 80's.
The othodox tried and almost did pass a law banning the sale of pork in
Isreal.
The merchants(many reformed and arab) started giving away free ham
sandwiches pork chops etc. Of course the ulta othodox went beserk and riots
ensued.
Must have been fun:)
Sincerely
Ken

Ermmm... "FCC law?" You truly exaggerate. They're called "Rules and
Regulations" and they are not "law", Aanal Aaron.

And I doubt the veracity of your closing statement; there's no reason for Yahoo to follow eBay's lead. eBay exclusively makes money from auctions; Yahoo does not.

Again, it's not "law". And buying or selling is not a violation of anything. Only certain *use* may be a violation.

no no no, voobner is the banana on this group and other groups.
He thinks he is the rules and Regulations man for the FCCl. He complains
about selling not legal items.
Example, HR-2510 10 meter radios. Nothing illegal about this but Golly,
that can be modified for CB, that's illegal, you can't sell that, etc.
 Your scanner can receive cell so it's not legal. It is however since
it was built and sold before that law was passed. However, he will
argue the point and cause more wasted bandwidth here. If you look at
this group under the subject "Aaron's trolling ILLEGAL LIST", well,
that's him.
good luck with the 2004

"My kind"? There was advance warning of an attack on Pearl Harbor;
even the Admiral in charge of the Harbor warned about it. He was
replaced for his efforts. Maybe you should read up on history before
you make dumb comments?

Hey folks,

I found one more and posted it as a 3 day sale.

Good luck!

I am in need of a mobile mounting system for mounting 3 radios.. A
Kenwood dualbander, an Icom 2 Meter, and a Kenwood commercial radio..

If anyone has any ideas or supplier names, I would SURE appreciate it! I
have looked at RAM products already.. Anything else?

THANKS and 73!!

Martin

I have a used, but great condition uniden BC780XLT with RS232 and software.
I have all original packing and manual, antennas. I need to sell and will
buy another in a few months.. Photos upon request, asking $325 plus
shipping.

Was thinking of listing on ebay, but I'll give the NG a chance

Also: pardon the OT, but:

1 - 60GB external USB2.0 hard drive, 7200 spin AND, brand new PCMCIA USB 2.0
Adapter (new), need to use firewire for my laptop. Asking $190 shipped
conus.

HF 160-10 meter ham bands plus general coverage (100KHz-30 MHz). Solid
state, multimode. The transmitter power has 10-100 watts output, 16

memories, dual VFO and operates from 12 VDC. Great radio for this vintage, great starter rig. I purchased this used 2 years ago, and had it officially checked out by ICOM service last summer. I recently bought a new ICOM and that is why I would like to sell.

I need ONE page from IFR FM/AM-1000S manual:

I need one page from the service manual for the IFR FM/AM-1000S Radio

Test Set (also known as the AN/GRM-114, with manual TM 11-6625-3016-14, which is the manual that I have.):

I have a scan of the military version of the manual. But page 5-114 is missing, with a copy of page 5-113 in its place.

The missing page should contain steps 11 through 14 of the "VCO Tuner A1A11 Alignment" procedure.

I also have a page, containing Fig 5-45, the "MM-100 Assembly A2A1A1", that has only the left half of the circuit board pictured. Assuming that it should show the whole board, I need that page, or at least the right-half of the diagram.

If anyone has this material, I will very-gladly pay for it. (Or, maybe we can work out a trade for something on my website, at http://www.fullnet.com/u/tomg/gooteesu.htm .)

If it can be scanned and converted to a jpg file and emailed to me, that would be really wonderful, as would a copy sent by mail (or even fax).

If you have it, PLEASE email me, at tomg@fullnet.com !

Thanks!

Tom Gootee

I have forsale a Kenwood TH-G71A dualband handheld. The radio is about
3 or so years old. I have a speaker mic for and a bnc/sma connector
and speaker mic and the aa batery pack for it. The battery that comes
with the radio is broken due to someone bumping into it, but it still
ok, just cant carry the on the belt with the clip, if you have a pouch
it's fine.  I am asking $175.00 , but I am willing to listen to
offers. Thanks

FOR SALE:

Crystal sockets for HC-6/U crystals.
If anyone would like some, I have about 10 or 20 of these available for $2.00 each plus shipping

These are new parts. They are teflon and anodized metal.
They have two hole side mounting, with a clip that nicely holds the crystal in place.

Great for repairing older rigs, or for homebrewing tube transmitters & receivers.

This is NOT the same as FT243. These are for the similar sized crystals that have thinner pins.

E-mail me if you would like some.

This is one new case of never used ferrite split beads with snap sleeves.
Made by the FAIR-RITE PRODUCTS, CORP. Part number 0443164151. Total of 126
in individual sealed plastic bags. These ferrite beads are used to suppress
RFI, EMI, and unwanted signals. They have an approx. inner diameter of 1/2",
an outer 1 1/4" square and 1 1/4" long.

on eBay:

http://cgi.ebay.com/ws/eBayISAPI.dll?ViewItem&item=1755441827

Very clean, with manual. 50 kHz to 52 MHz in 6 bands. Stable, AC or 9-volt internal battery for portable. Good bandspread and dial markings. Great for service work on boatanchors or vintage radios. Rarely seen or offered. Buy It Now option on eBay.

Selling because I have three of these units, and I am keeping two. Need the room.

Pete

Not really. I'm pretty easy going.

I am just tired of all the linking one is asked to do (I refuse). It's like a bait-and-switch.

If someone wants me to read something about what they have to sell, they should put it in that original e-mail notice and not linked to some other entity.

Basic law of sales: make as easy as possible for the potential customer to hand over his money.

73,
dale

You and all Canadians are VERY WELCOME down here in my book!!!

Ebay is just anal (and paranoid) about things, just like some of the folks on this board and in this country. That's why I bought my Yupi scanner in Canada, it's not sold here due to the restrictive stupid, now very irrelevant scanner laws.

I for one, am very happy to have such a fine country next to us as Canada. You are great friends and I for one am glad to have you "up north".

Note: The planes did take off from US airports, fooled our so called security systems, the terrorists were trained in the required flying skills in our schools, they lived here for several months in our cities and used our banking system. Canada was just one of the many stops on the way for them. I see no blame on your part...

Terrorism is a world problem and it takes INTERNATIONAL teamwork to minimize it and it's effects. Pointing fingers at one another isn't gonna help anything.

Geez, after all you gave us John Candy, Shania Twain, Neil Young, Bob / Doug McKenzie, Kids in the Hall and SCTV. (also North of 60, a favorite of mine) Even one of my favorite guitars is Canadian made (Seagull). Just for that I'm forever indebted.

OK, I'll overlook Anne Murray for now...

TNX,
-bc
Your neighbor down south from the "real" city of Vancouver in Washington... :)

P.S. Sorry for the acid rain guys... Blame the greedy ones down here...

OFF TOPIC, but a thorn in my ass. I couldn't help but reply.

Why blame Canada????

On a house, locks on windows and doors keep the "honest" out. A REAL thief will get in. Same with terrorists. If the sneaky bastards want in the US or any other country, they'll get here/there by hook or by crook. BUT, some of you may not be so ready to admit, welcomed by our own government.......government sponsored programs with their own hidden agendas. And their crimes if committed? Covered by Diplomatic Immunity.....

I was in the Air Force many years ago. An AMERICAN service woman was raped by a foreigner - ON BASE. The guys wanted to go kick this guy's ass and make him pay.The Commander simply told them, he had diplomatic immunity and if they touched him, THEY would be the ones to end up in prison. Now if that were US, we would be in prison in hours OR worse, especially in another country.

No, don't blame Canada............ BLAME THE TRUE culprits. OUR ELECTED OFFICIALS......The same ones who keep dolling out millions and billions in aid to those who wish us harm when our own people can't even afford health care. SCREW THEM.... Take care of our own who have paid into this system for how many years... CHARITY begins at home. Further more, start treating the criminals and terrorists as such instead of this they have more rights than we do CRAP, and we'll all be better off.

I'm sick of this Civil Rights CRAP of they have "rights". Yeah, what about all the people these scum bags killed innocently? What happened to theirs? I say wipe em all out like the disease they are........The terrorists who are in "jail" are getting a free meal, medical and a roof over their heads. More than a lot of our HARD WORKING citizens can afford in a lot of cases. Especially the seniors who have paid into our system and have to choose between medicine to live and food or housing. They keep saying how BROKE our Social Security system is.. WELL GEE!!!!!!!!!!! Instead of a few billion TO Afghanistan or some other God forbidden country, how about INTO SOCIAL SECURITY!!!!!!!!!

No people, don't go blaming Canada..Instead focus the energy where it is really needed.... STRENGTHENING OUR USA against all the CRAP......Starting in WASHINGTON.

This country started with a struggle, basically with nothing more than the clothes these people had on their backs. IF this country can do it, so can they. THEY are the worst case scenarios when it comes to WELFARE! The leaders get it, the people are lucky to see it. Let those countries struggle like we did. IF we did it - so can they. You have to let the lazy bastards get up off their asses to do some thing first!

You know, it amazes me.......THINK ABOUT IT. When a Earthquake hits anywhere or hurricane, whatever....we are so quick to send food, money (BILLIONS) to them. And NOT one word is said about "LOANS" OR PAY BACK. When WE get hit, we get shit for asking for it from our own, let alone others. AND to rebuild "our" homes and businesses? LOW INTEREST LOANS!!!!!!!!!! How fair is that?

Want to fight terrorism????????

STOP THE FOREIGN AID AND OPEN INVITATIONS! START LOOKING OUT FOR U.S. {US}.

The point is... It's easier to say you are doing something good by searching well behaved people and stealing their right to self-defense than it is to catch terrorists bent on the destruction of your freedom.

I don't want to even get into America vs. Canada. The policy of killing freedoms is bad-wrong no matter where you go. Also, it seems you get our news (propaganda) but all we ever hear is hockey scores. Is censorship at the top of the list? If so, then we understand that you may be under duress as a policy spokesman. You have our sympathy.

Jim.

There is nothing illegal or invalid about a Uniden HR2510 offered for
sale (or auction) in an amateur radio group. Too bad you don't have
any sense, Anal Aaron.

> ILLEGAL CB TRANSCEIVER LIST
>
> The FCC's Office of Engineer and Technology (OET) has evaluated the devices listed below and has concluded that these devices are not only amateur transceivers but can easily be altered for use as Citizens Band (CB) transceivers as well. As such, OET has further concluded that these devices cannot legally be imported or marketed within the United States for the reasons discussed below. Further, the FCC General Council has issued a decision in a specific case involving one manufacturer and has concluded that dual use CB and amateur radios of the kind at issue may not be approved under the Commission's rules and are in violation of several rules including the RF power level limits of 47 CFR 95.639. (letter from Christopher J. Wright, FCC-OGC to John F. Atwood, US Customs Service, dated May 17, 1999).
>
> Transceivers used in the Amateur Radio Service below 30 MHz do not require FCC authorization prior to being imported into or marketed within the United States, but transceivers for other services, including the CB Radio Service (CB), do require Commission approval. The transceivers listed herein and other similar models operate in the amateur "10-meter band" and are often referred to as "10-meter" radios or "export" radios. The amateur 10-meter band uses frequencies that are very close to the channels set aside for use in the CB service. Some of the transceivers that manufacturers call "10-meter" radios either operate on CB frequencies as manufactured and imported or are designed such that internal circuits can readily be activated by a user, a service technician or a dealer to operate on CB frequencies. According to Section 95.603(c) of the Commission's rules, a CB transmitter is a transmitter that operates or is intended to operate at a station authorized for the CB service. 47C.F.R. � 95.603(c). The Commission's equipment authorization experts in the FCC Laboratory have determined that the transceivers listed herein and other similar models at issue here are intended for use on the CB frequencies as well as those in the amateur service because they have built-in capability to operate on CB frequencies. This capability can be readily activated by moving or removing a jumper plug, cutting or splicing a wire, plugging in a connector, or other simple means. Thus, all the transceivers listed herein and similar models fall within the definition of a CB transmitter. See 47C.F.R. � 95.603(c). A CB transmitter must be certificated by the FCC prior to marketing or importation. 47 C.F.R. �� 95.603(c); 2.803.
>
> Moreover, the dual use CB and amateur radios of the kind at issue here may not be certified under the Commission's rules. Section 95.655(a) states: "�.([CB] Transmitters with frequency capability for the Amateur Radio Services � will not be certificated.)" See also Amendment of Part 95, Subpart E, Technical Regulations in the Personal

> Radio Services Rules, FCC 88-256, 1888 WL 488084 (August 17, 1988). This clarification was added to explicitly foreclose the possibility of certification of dual use CB and amateur radios, see id, and thereby deter use by CB operators of frequencies allocated for amateur radio use.
>
> In addition, the Commission's equipment authorization experts have determined that these devices violate or appear to violate a number of the rules governing CB devices. For example, they may use emission types not permitted, or emit RF power at a level in excess of the levels permitted in the CB radio service. See 47 C.F.R. � 95.639.
>
> In view of the foregoing, the following "10-meter" transceivers are not acceptable for importation or marketing into/within the United States. Importation and marketing of these units is illegal pursuant to Section 302(b) of the Communications Act and Section 2.803 of the rules. Willful violations of the Rules and the Act may subject the violator to a monetary forfeiture of not more than $11,000 for each violation or each day of a continuing violation. The Commission continues to review this type of equipment, and additional makes and models may be added to this list in the future.

Glad to hear this and read this information. Need to get this junk off the air and those using the junk off the air too. They cause to many problems to legal operations. I'll be looking out for this stuff trying to be sold and reporting such info to the FCC.

My Uniden HR-2510 is not junk. With the keyer, filters, chipswitch mod it's one of the most affordable and versatile portable mobile rigs I own

(10/12/15). 43 countries, and 32 states on 10 meters alone during the last sunspot cycle. It's been on many a backpacking and canoe trip with a gel cell, solar panel and a dipole. When my dad was alive he used his HR-2600 for our daily NC - TX sched. Sure wish I hadn't sold his. Its also a great rig for local AM/FM use simplex and repeater use too. I've used it for a downlink on RS satellites with much success also.

Sure I could use my "big" HF rigs (Collins, TS-520, Drake "C" line and TS-2000) but my baby is my modified (filters, keyer, tuner, etc.) Uniden. Until I get one of those Yaesu QRP HF rigs that is.

Take your so called FCC policing BS somewhere else and get a life. Bet you look for folks with "illegal" scanners too? I have 3 myself...

-b

Must be voobs son.
My HR-2510 served me very well in the mobile.
NOTHING wrong with it as a 10 METER RADIO as it was sold for when new.
Completely legal as it was designed for.  Many if not all HF ham rigs might be
able to go
on 11 meters.  It's up to the operator of the equipment to keep his own station
legal.
Wish I had not sold my old 2510  3 years ago, it was a great 10 METER radio.
Hey, ya know, how come nobody's bitching about converting a 11meter CB rig to 10
meters??

Must be voobs son.
My HR-2510 served me very well in the mobile.
NOTHING wrong with it as a 10 METER RADIO as it was sold for when new.
Completely legal as it was designed for. Many if not all HF ham rigs
might be able to go
on 11 meters. It's up to the operator of the equipment to keep his own
station legal.
Wish I had not sold my old 2510 3 years ago, it was a great 10 METER
radio.
Hey, ya know, how come nobody's bitching about converting a 11meter CB
rig to 10 meters??

1 Sinclair model Q202GC 132/174 mhz.
1 Sinclair model Q301GC 406-512 Mhz.

Read spec. here http://www.wiscointl.com/sinclair/BaseStation/q201-202g.htm

Price $550 Ea. Unit ,both are NEW units in their cabinet.
This units weight about 135 lbs. so i will prefer kinda local buyer
in the Baltimore,MD area,or can deliver within 50 miles of Silver
Spring for $25 extra.

Thank you for reading.

Sure is interesting to read what upsets some of the ham radio ops on this list.

I have had several HF rigs that are modified for CAP/MARS that work 3 - 30 megs all bands all modes. Yes, I was active with both organizations.

There have been a great deal of articles on converting CB to 10 and it may be that its too much work for too little return. Many 10 meter rigs are gray in that they are sold to the CB types at truck stops, but as long as they meet spec and folks are licensed for use, better they be on 10 then CB.

Funny, There are no licenses issued for the CB band but there is still a great deal of operation on those frequencies. Either the FCC has given up or ....

I recently picked up an ICOM 706 and ite hears 11 meters well, but nothing there worth listening to.

No way; Anal Aaron couldn't have had any children. He's too busy trolling rec.radio.cb!

> My HR-2510 served me very well in the mobile.

Because it's not illegal to do so: Hams can use anything on the ham bands. It's going the other way that brings Anal Aaron out of the woodwork.

Very thoughtful. But the larger question is why an astonishingly
sizable group of people continue to devote large amounts of time and
personal resources to stop me from posting pro-legal CB opinions.

If illegal CB were such a "trivial issue" in the larger scheme of
things, you would think one man's protests against it would be pretty
much ignored, right? Wrong. Instead, dozens of pro-illegal activists
pop out of the woodwork with innumerable threats, bizzare defenses, and
vows to "shut me up".

Can I take credit for the result? No, in all honesty, the staunch
"defenders of illegal CB" are the folks that deserve the credit for
transforming this newsgroup into what you see today.

Sincerely,
-Aaron-

   Guess I hit the nail on the head ! Look at how you respond ! But I
   still maintain that any good ham knows that the " roger beep " junk
   being made is not intended for ham radio , but for illegal CB use
   and out of band use. As radios go , the stuff is JUNK . Out of band
   operation causes problems to legal operation . Any CONCERNED amateur
   radio operator , which your not , should be pleased with any FCC
   response to the use and sale of this " roger beep " JUNK.

CB's use to need a FCC licenses way back in the 1960, 70's.
11 meters use to be part of the ham bands and was taken way. And yes, the
FCC gave up on the CB band many years ago. Unless somebody is really
messing things up big time.

Funny, There are no licenses issued for the CB band but there is still a
great deal of operation on those frequencies. Either the FCC has given
up or ....

I recently picked up an ICOM 706 and ite hears 11 meters well, but
nothing there worth listening to.

The "roger beep" button on my Uniden HR-2510 is used to select a 500 hz CW filter since I didn't need it and I like a nice narrow IF for CW. My "pa" switch limits the output power to 500 mw for QRP and transverter use. Again, a much better use of the switch.

Although the use of "roger beep" is questionable for amateur use (say lid...), it is used by NASA during space communications on occasion and more than one repeater that I know of, I guess they are using junk too...

10 Meter rigs made by companies such as the Ranger, Uniden and Radio Shack have been some of most affordable mobile 10 meter options for many hams. Much better than the converted 11 meter Diamond (CB) AM/SSB rig which I used in the '70's in my car for 10 meters as a ham while in college.

With mods (filters, alignment, etc.) some of these "roger beep" rigs perform as well as many "ham rigs" besides being useful (and affordable) for more specialized uses (transverter, QRP, RTTY, narrow BW digital modes, remote control via UHF, etc.).

As a youth I modified WWII surplus / commercial VHF equipment that was designed for non-ham frequencies for amateur freqs. in the '60's. Should access and sales of that equipment been outlawed too? Should we outlaw just about every modern amateur rig and HT made in the past 20 years since about every one has OOB capability with minor modifications?

BTW, The first mod I do on a rig is make it OOB RX/TX capable (if possible), you never know when you might need OOB capability for transverter or emergency use (allowed under FCC regulations in certain cases to protect life or property). Lock me up...

I bet you are real fun at swap meets and hamfests enforcing your way from tailgate to tailgate... Scenario at next Dayton, "Is that a Uniden HR-2510 on your table? I'm confiscating it and calling the FCC, wait here and don't move..."

You want a real mission, go after the E-Bay sellers and sporting goods dealers that sell GMRS equipment for "higher power" FRS use without informing the user that they need a license. Now that sucks...

CUL,
-b

Legit use of 10 meter radios such as the ones you name above is
acknowledged. But for a real eye-opener go to www.copper.com and see
what kind of radios are being pushed on CBers. They are calling them
"10 meter radios" these days, complete with 40 channel selectors, 15
kHz channelization, talkbackm and roger beep.

Do you recall the cause of restrictions placed on RF amps covering 10 meters? Well, hams again have to suffer with more restrictions, this time on legit 10 meter transceivers, thanks to the abuses of outlaw CBers.

Don't take my word for it. Below is an excerpt from the FCC CALL CENTER script dealing with this issue.

-Aaron-

-----

2. NON-APPROVED C.B. RADIOS

Q. What is a legal C.B. radio?
A. All radio transmitters and receivers which are intended to operate on the 27 MHz Citizen's Band (C.B.) channels must be approved by the F.C.C. before they can be imported, advertised, sold or used. The manufacturer must be issued an F.C.C. grant of equipment authorization, called "certification", as indicated by an FCC ID on each unit. If the radio has a label showing an FCC ID, and the ID can be verified by checking the Equipment Authorization database on the F.C.C./OET Web page, then the radio is legal.

Q. What kind of radios are illegal to use on the C.B. radio channels?
A. Any radio transmitter, receiver, or transceiver which is designed by the manufacturer to operate on the C.B. radio channels, but which has not been granted an F.C.C. equipment authorization is illegal. These non-approved radios may appear in several different forms:

1. "10-Meter Amateur" radios, which have been designed so as to be readily alterable to operate on the C.B. radio channels, and/or on other non-amateur frequencies in the frequency range from about 24 to about 32 MHz;
2. "Export" or "full channel" radios, which are designed to operate over all, or a portion of, the radio spectrum from about 24 to about 32 MHz, including the 27 MHz C.B. radio channels; or
3. F.C.C.-approved C.B. radios which are designed so as to be readily alterable to operate on frequencies in the range from about 24 to about 32 MHz, which are not assigned to the 27 MHz C.B. Radio Service.

Q. What do you mean by "readily alterable"?
A. This means that the user of the radio can add, or change, its operating frequencies by simply flipping an internal switch, by clipping the leads of, or installing, a simple component such as a diode, resistor or jumper wire, by installing, moving, or removing, a jumper plug, by connecting or disconnecting a connector, by replacing a plug-in semiconductor chip, or by programming a semiconductor chip using special access codes or an external device, such as a personal computer.

Q. What are these other frequencies between 24 and 32 MHz used for?

A. These frequencies are assigned to many different licensed radio services, both in the United States, as well as in other countries. Authorized users include Maritime and Aeronautical radio stations, standard time and frequency stations, international broadcasting stations, amateur radio, and government stations. A portion of this spectrum is also allocated to radioastronomy, where scientists are attempting to listen to very weak radio signals coming from distant stars and galaxies. No radio transmitters of any kind are permitted within these radioastronomy bands, so any earth-bound transmitted signals can completely disrupt radioastronomy observations.

Q. I don't hear any other stations on "my" frequency, which is not one of the 40 allocated C.B. radio channels. So what is wrong with operating my radio station here?
A. You may unknowingly cause interference to legitimate communications. Many of these frequencies may appear, to the casual listener, to be unused. Some of the authorized users may be using emission types which can not be plainly detected. Or, their transmissions may be intermittent. You will not hear any legitimate signals within the designated radioastronomy bands. However, just because a frequency sounds clear, that does not mean that it can be used without proper authorization.

Q. Why do some people operate illegally on these frequencies?
A. Many of these frequencies may appear to be "free" of any legitimate users, so some people think they are "free for the taking". The illegal radio operators are commonly referred to as "freebanders", and use their radios as a form of hobby, similar to Amateur Radio. But for many reasons, these people choose not to obtain an amateur radio license. They operate on these frequencies because under certain weather and radio propagation conditions, their signals can extend all the way around the world, enabling them to communicate with other similar unlicensed stations.

Q. What can happen if the F.C.C. catches me operating on an unauthorized frequency?
A. You are subject to severe penalties, including monetary forfeitures, confiscation of your radio equipment, and possibly even jail time.

Q. I've heard that some of the "big name" amateur radio equipment can also be altered to operate on non-amateur frequencies, including the C.B. radio channels. So why are these radios not considered to be "non-approved C.B. equipment"?
A. First, it must be emphasized that use of this type of amateur equipment on unauthorized frequencies, including using it on the C.B. radio channels or other non-amateur frequencies in the 24 to 32 MHz range, is illegal, and doing so will subject the user to the same penalties as mentioned above.

That being said, there are legitimate reasons for some amateur equipment to be used on certain non-amateur frequencies, such as on military M.A.R.S. (Military Affiliate Radio System) and C.A.P. (Civil

Air Patrol) frequencies. MARS and CAP radio stations are only authorized to operate on specific assigned (non-amateur) frequencies. With just a few exceptions, most of the assigned MARS and CAP frequencies do not fall within the 24 to 32 MHz frequency range.

Although some models of amateur equipment (manufactured by companies such as Alinco, Icom, Kenwood, Ten-Tec, Yaesu, etc.) may be capable of operating on the C.B. radio channels, they do not display the assigned C.B. channel number, nor are they designed to deliberately facilitate operation on the C.B. channels.

You made the post and it's there in the archive for all who care to read it. Or are you now into rogue cancels, too?

FOR SALE:

7025 / 12AX7A new in box Hewlett Packard branded, Made In England.
Extra high-quality, black plate tubes. QTY 4 at $8.00 each

ECC82 / 12AU7 new in box Hewlett Packard branded, Made In England.
Extra high-quality, black plate tubes. QTY 4 at $8.00 each

6CB6A Tubes, new in box Hewlett Packard branded, USA.
Highest quality. QTY 15 available for $2.00 each

6146B QTY 2 - National Brand. Will sell for $16.00 the pair

807 QTY 2 - One marked Westinghouse, One JAN.
Both similar though. Will sell for $12.00 the pair

U.S. Army-Navy NOS 829B Tubes. Still in the boxes from WW2.
Equivalent to 3E29. Dual tetrode VHF transmitting final amplifier.
QTY 4 - will sell for $8.00 each

EL34 / 6CA7 audio power tubes - QTY 4 RCA new in boxes.
Will sell all four for $39.00 (List $15.00 - $25.00 each)

VF14 mic tube. New In Original Box - Telefunken VF14 Tube
As used in the world famous Neumann Microphones.
QTY 1 only - for $250.00 (List $1250.00 - $1750.00 each)

ITT type 5C22/8613 Hydrogen Thryatron tube, used - capable of
switching 4MW (that mega-watts!) very quickly.
Used but in good condition
QTY 1 only for $25.00 (List $275.00)

<b><font size=+3>YET ANOTHER BRAVO!!</font></b>
<p>bc wrote:
<blockquote TYPE=CITE>The "roger beep" button on my Uniden HR-2510 is used
to select a 500 hz
<br>CW filter since I didn't need it and I like a nice narrow IF for CW.
My
<br>"pa" switch limits the output power to 500 mw for QRP and transverter
<br>use. Again, a much better use of the switch.
<p>Although the use of "roger beep" is questionable for amateur use (say
<br>lid...), it is used by NASA during space communications on occasion
and
<br>more than one repeater that I know of, I guess they are using junk
too...
<p>10 Meter rigs made by companies such as the Ranger, Uniden and Radio
<br>Shack have been some of most affordable mobile 10 meter options for
many
<br>hams. Much better than the converted 11 meter Diamond (CB) AM/SSB rig
<br>which I used in the '70's in my car for 10 meters as a ham while in
<br>college.
<p>With mods (filters, alignment, etc.) some of these "roger beep" rigs
<br>perform as well as many "ham rigs" besides being useful (and affordable)
<br>for more specialized uses (transverter, QRP, RTTY, narrow BW digital
<br>modes, remote control via UHF, etc.).
<p>As a youth I modified WWII surplus / commercial VHF equipment that was
<br>designed for non-ham frequencies for amateur freqs. in the '60's. Should
```

access and sales of that equipment been outlawed too? Should
we outlaw

just about every modern amateur rig and HT made in the past 20 years

since about every one has OOB capability with minor modifications?
<p>BTW, The first mod I do on a rig is make it OOB RX/TX capable (if

possible), you never know when you might need OOB capability for

transverter or emergency use (allowed under FCC regulations in certain

cases to protect life or property). Lock me up...
<p>I bet you are real fun at swap meets and hamfests enforcing your way

from tailgate to tailgate... Scenario at next Dayton, "Is that a Uniden

HR-2510 on your table? I'm confiscating it and calling the FCC,
wait

here and don't move..."
<p>You want a real mission, go after the E-Bay sellers and sporting goods

dealers that sell GMRS equipment for "higher power" FRS use without

informing the user that they need a license. Now that sucks...
<p>CUL,

-b

I am auctioning off a bunch of amateur and motorcycle related
books and magazines. Here are some sample URLs:

http://cgi.ebay.com/ws/eBayISAPI.dll?ViewItem&item=1368526700

http://cgi.ebay.com/ws/eBayISAPI.dll?ViewItem&item=1368527117

http://cgi.ebay.com/ws/eBayISAPI.dll?ViewItem&item=1368527543

http://cgi.ebay.com/ws/eBayISAPI.dll?ViewItem&item=1368528394

Go to any of these URLs and click on the " view sellers other items "
link to see a whole slough of items that I am selling, including
equipment, parts, books magazines, etc. etc.

All this is from my personal collection.

Thanks, and good luck bidding!

Hey all,

I have two differant auctions running for GE Voters.

http://cgi.ebay.com/ws/eBayISAPI.dll?ViewItem&item=1369063207
http://cgi.ebay.com/ws/eBayISAPI.dll?ViewItem&item=1753183687

Both are 5 day auctons and are for the same type unit.

Gook luck

Adam / kc7ljq

What the hell does that have to do with Judaism? Or are you just
trying to stir up some antiSemitism in the newsgroup?

Troll.

Not entirely true, my daughter-in-law and her entire family is
Jewish and they all eat pork.

Hi,

I have the complete chassis and speaker (8") for an RCA Victor Model 9-X-572 Superhet AM radio for sale or trade. The chassis includes the antenna coil, the tuning indicator, and the original knobs. The whole thing works very well, but just doesn't have a cabinet. Please note that the tubes are *not* included in this offer (it's a standard AA5 setup). If interested, please send me your offer at msenecal1@juno.com. Buyer to pay shipping.

If you're wondering what the original radio looked like, go to:

http://www.radiotiques.com/collection.html

and click on "9X572".

Thanks!

---Matt

I have a Heathkit GR-38 solid state AM clock radio with the manual for
sale or trade. Orange in color. The whole thing is in good shape and
works well, although there is a slight hum, making me think that some
of the caps are getting a tad dry. There are no cracks anywhere, but
the case does have some scratches on the top and bottom.

If interested, please send your offer to msenecal1@juno.com (buyer to
pay shipping).

Thanks!

Just curious...what makes posting an on-topic informational FCC
document a "troll post"?

>"BAD CITIZENS HAVE MORE FUN BECAUSE THEY ARE MORE FREE"

Only an idiot could think up that ridiculous slogan and use it as his
"sig" during a time of national crisis.

Why not? I have sat down and eaten pork with them served in their
home. Not all people of Jewish decent observe all Jewish
traditions.

1. You can't sleaze your way out of it. It's the law.

2. eBay has an FCC liason assigned to it to look at the auctions. Don't think they're not smart enough to look in the ham radio category.

3. They know the difference betwenn a ham radio and a phney cb export. Just saying a radio is something other than what it is won't work.

FCC ISSUES REMINDER ABOUT HF TRANSCEIVERS
�
The FCC has issued a friendly reminder about those HF transceivers ostensibly marketed for "amateur" use, but actually designed and intended specifically for the so-called "freeband" radio operators, who operate primarily in the 26 to 28 MHz frequency range.
�
In a May 13 Public Notice, the FCC points out that it's a violation of FCC regulations to import or market a transmitter designed or intended to operate outside the amateur bands unless the equipment has been issued a grant of equipment authorization for the radio services it's capable of operating. The FCC says it wanted to clarify its rules on equipment that's "intended to operate in various radio services in the high frequency radio spectrum, including '10-meter' Amateur Radio Service (ARS) equipment." The notice--directed to "manufacturers, importers, vendors and users of these transceivers"--emphasizes that transmitters intended for use by FCC-authorized radio services except the Amateur Radio Service must be type-accepted.
�
In the words of the Public Notice: "The Commission considers that the transceivers discussed above are intended to be operated on frequencies where the use of type-accepted equipment is required, because of the simplicity of modifying them to extend their operating frequency range."
�
The FCC also noted that it's illegal to import, market or operate a

transmitter that requires a grant of equipment authorization but for
which no grant has been issued, and that it's a violation to transmit
on frequencies allocated to a licensed radio service "without the
appropriate Commission-issued station license." Violators could be
subject to fines or imprisonment as well as equipment seizure and
forfeiture.--FCC

Smokescreen snipped

Aaron, they wont cancel it there, and you know it. You're just trying to
bluff your way through this one because you know how impotent you are.

ILLEGAL CB TRANSCEIVER LIST

The FCC's Office of Engineer and Technology (OET) has evaluated the devices listed below and has concluded that these devices are not only amateur transceivers but can easily be altered for use as Citizens Band (CB) transceivers as well. As such, OET has further concluded that these devices cannot legally be imported or marketed within the United States for the reasons discussed below. Further, the FCC General Council has issued a decision in a specific case involving one manufacturer and has concluded that dual use CB and amateur radios of the kind at issue may not be approved under the Commission's rules and are in violation of several rules including the RF power level limits of 47 CFR 95.639. (letter from Christopher J. Wright, FCC-OGC to John F. Atwood, US Customs Service, dated May 17, 1999).

Transceivers used in the Amateur Radio Service below 30 MHz do not require FCC authorization prior to being imported into or marketed within the United States, but transceivers for other services, including the CB Radio Service (CB), do require Commission approval. The transceivers listed herein and other similar models operate in the amateur "10-meter band" and are often referred to as "10-meter" radios or "export" radios. The amateur 10-meter band uses frequencies that are very close to the channels set aside for use in the CB service. Some of the transceivers that manufacturers call "10-meter" radios either operate on CB frequencies as manufactured and imported or are designed such that internal circuits can readily be activated by a user, a service technician or a dealer to operate on CB frequencies. According to Section 95.603(c) of the Commission's rules, a CB transmitter is a transmitter that operates or is intended to operate at a station authorized for the CB service. 47C.F.R. � 95.603(c). The Commission's equipment authorization experts in the FCC Laboratory have determined that the transceivers listed herein and other similar models at issue here are intended for use on the CB frequencies as well as those in the amateur service because they have built-in capability to operate on CB frequencies. This capability can be readily activated by moving or removing a jumper plug, cutting or splicing a wire, plugging in a connector, or other simple means. Thus, all the transceivers listed herein and similar models fall within the definition of a CB transmitter. See 47C.F.R. � 95.603(c). A CB transmitter must be certificated by the FCC prior to marketing or importation. 47 C.F.R. �� 95.603(c); 2.803.

Moreover, the dual use CB and amateur radios of the kind at issue here may not be certified under the Commission's rules. Section 95.655(a) states: "�.([CB] Transmitters with frequency capability for the Amateur Radio Services � will not be certificated.)" See also Amendment of Part 95, Subpart E, Technical Regulations in the Personal Radio Services Rules, FCC 88-256, 1888 WL 488084 (August 17, 1988). This clarification was added to explicitly foreclose the possibility of certification of dual use CB and amateur radios, see id, and thereby deter use by CB operators of frequencies allocated for amateur radio use.

In addition, the Commission's equipment authorization experts have determined that these devices violate or appear to violate a number of the rules governing CB devices. For example, they may use emission types not permitted, or emit RF power at a level in excess of the levels permitted in the CB radio service. See 47 C.F.R. � 95.639.

In view of the foregoing, the following "10-meter" transceivers are not acceptable for importation or marketing into/within the United States. Importation and marketing of these units is illegal pursuant to Section 302(b) of the Communications Act and Section 2.803 of the rules. Willful violations of the Rules and the Act may subject the violator to a monetary forfeiture of not more than $11,000 for each violation or each day of a continuing violation. The Commission continues to review this type of equipment, and additional makes and models may be added to this list in the future.

LIST OF TRANSCEIVERS ILLEGAL TO IMPORT OR MARKET

GALAXY - models: DX33HML, DX 44V, DX55V, DX66V, DX 73V, DX 77HML, DX 88HL, DX99V and Saturn Turbo

CONNEX - models: 3300, 3300HP-ZX, 3300 PLUS and CX-3800

MIRAGE - models: 44, Galaxy 88, 9900 and 2950EX

NORTH STAR - models: NS-3000 and NS-9000

PRESIDENT - models: Grant, J.F.K., Jackson and Lincoln

PRO STAR - model: 240

RANGER - models: AR-3500 and RCI-2950

TEK - model: HR-3950

UNIDEN - models: HR-2510 and HR-2600

SUPER STAR - model: 121

For further information concerning the listed transceivers or similar models, contact Ray LaForge or Gary Hendrickson at the FCC Laboratory, 7435 Oakland Mills Road, Columbia, MD 21046, (301) 362-3041 or (301) 362-3043 respectively, or E-mail: rlaforge@fcc.gov and ghendric@fcc.gov

For Sale or Trade:

Like new YAESU model FT-840 HF Transceiver with FM-747 FM option installed.

Less than one year old. Full output. Looks and works as new. Will consider trading for a decent oscilloscope of equal value. If you are looking for a neat second rig or mobile rig this maybe what you need. Don't miss this one. It is my personal radio--not a resale. Rig was purchased new this past spring. $375.00 shipped UPS ground in the continental US. Terms: Money Order or Bank Cashier's check. I also accept PayPal payments. Manual, Microphone and DC cable included.

Lynn, N8AJ - lstolz@columbus.rr.com or n8aj@arrl.net

Hi, I'm looking for older equipment preferably tube but will consider

transistor.. doesn't have to work or look great even parts sets.
preferably mw, am, fm, sw, military, commercial etc. exciters and
transmitters.

please remove "nospam_" nospam_jkee@hotmail.com

thanks Jake

> ILLEGAL CB TRANSCEIVER LIST
>
> The FCC's Office of Engineer and Technology (OET) has evaluated the

> devices listed below and has concluded that these devices are not only amateur transceivers but can easily be altered for use as Citizens Band (CB) transceivers as well. As such, OET has further concluded that these devices cannot legally be imported or marketed within the United States for the reasons discussed below. Further, the FCC General Council has issued a decision in a specific case involving one manufacturer and has concluded that dual use CB and amateur radios of the kind at issue may not be approved under the Commission's rules and are in violation of several rules including the RF power level limits of 47 CFR 95.639. (letter from Christopher J. Wright, FCC-OGC to John F. Atwood, US Customs Service, dated May 17, 1999).
>
> Transceivers used in the Amateur Radio Service below 30 MHz do not require FCC authorization prior to being imported into or marketed within the United States, but transceivers for other services, including the CB Radio Service (CB), do require Commission approval. The transceivers listed herein and other similar models operate in the amateur "10-meter band" and are often referred to as "10-meter" radios or "export" radios. The amateur 10-meter band uses frequencies that are very close to the channels set aside for use in the CB service. Some of the transceivers that manufacturers call "10-meter" radios either operate on CB frequencies as manufactured and imported or are designed such that internal circuits can readily be activated by a user, a service technician or a dealer to operate on CB frequencies. According to Section 95.603(c) of the Commission's rules, a CB transmitter is a transmitter that operates or is intended to operate at a station authorized for the CB service. 47C.F.R. � 95.603(c). The Commission's equipment authorization experts in the FCC Laboratory have determined that the transceivers listed herein and other similar models at issue here are intended for use on the CB frequencies as well as those in the amateur service because they have built-in capability to operate on CB frequencies. This capability can be readily activated by moving or removing a jumper plug, cutting or splicing a wire, plugging in a connector, or other simple means. Thus, all the transceivers listed herein and similar models fall within the definition of a CB transmitter. See 47C.F.R. � 95.603(c). A CB transmitter must be certificated by the FCC prior to marketing or importation. 47 C.F.R. �� 95.603(c); 2.803.
>
> Moreover, the dual use CB and amateur radios of the kind at issue here may not be certified under the Commission's rules. Section 95.655(a) states: "..([CB] Transmitters with frequency capability for the Amateur Radio Services . will not be certificated.)" See also Amendment of Part 95, Subpart E, Technical Regulations in the Personal Radio Services Rules, FCC 88-256, 1888 WL 488084 (August 17, 1988). This clarification was added to explicitly foreclose the possibility of certification of dual use CB and amateur radios, see id, and thereby deter use by CB operators of frequencies allocated for amateur radio use.
>
> In addition, the Commission's equipment authorization experts have determined that these devices violate or appear to violate a number of the rules governing CB devices. For example, they may use emission

> types not permitted, or emit RF power at a level in excess of the levels permitted in the CB radio service. See 47 C.F.R. � 95.639.
>
> In view of the foregoing, the following "10-meter" transceivers are not acceptable for importation or marketing into/within the United States. Importation and marketing of these units is illegal pursuant to Section 302(b) of the Communications Act and Section 2.803 of the rules. Willful violations of the Rules and the Act may subject the violator to a monetary forfeiture of not more than $11,000 for each violation or each day of a continuing violation. The Commission continues to review this type of equipment, and additional makes and models may be added to this list in the future.

yes owell guess hes going around to all the shops removeing them of
the shelves hahah ya right ive seen them all over latley specialy
that 2510 great radio for channel 19=} pluss has tuns of channels were
you can just go up there and make a bunch of noise

Beautiful receiver collector quality.....winged, in cabinet with dial
brake. This radio is very tight.....little use..... with ssb and cw
filters. Includes manual and dust cover.
$1550 professionally packed, insured and shipped from the Dallas area.
Thanks.....WB5LXZ

Be advised, we're working on that issue. Note the Yahoo Auctions TOS
clause (below). Since sale of illegal CB amplifiers and "export
radios" violates FCC law, Yahoo will eventualy have to follow eBay's
lead in banning the sale of these items.

If anybody complains to ebay about ANY item someone is selling the just pull the auction. Then you receive a "canned" message vaguely stating why it was pulled. They don't want to deal with any nonsense that might cut in on their zillion dollar profit. The loss of a few messily $$$ by dumping an auction or 2 is no biggie to them. There will always be these chuckle heads (that plague many newsgroups) that think they are ebay and newsgroup police.

It's a shame because 99% of the stuff pulled is OK and does have the right to be on ebay.

Hey, I was just on Yahoo auctions. Bet it really pisses you off that they are
selling 360 channel CB's and amps
there. And there is nothing you can do.
Seems the patrolman in you has no teeth there.

We're working on that issue?? Who is we?
It must be killing you that Yahoo auctions are selling amps and 360 channel CB's.
There is nothing wrong to sell a 2510 to a valid ham radio operator. If you
picked one
up at a garage sale it would be up to YOU to use it legal by having a ham ticket.

If you mod it for CB then you would be the one who is illegal. The equipment has little to do with it.
If you purchased a used car, and I'm sure you have. If you drove that car home with plates other than
registered to that car, you would be illegal.
Haven't you wasted enough bandwidth on many newsgroups with your type of intimidation??
By responding, I too am wasting time and space. I apologize to the groups.

Does the DTMF generator in the microphone still work?  I love the
IC-27 series, but the DTMF generator has gone out on all of my mics.

>What's the use of such an antenna with such a ling cable ?

To connect the Palisade that is mounted on the roof of your building to
the communications gear that is mounted somewhere else in the building,
probably the basement.

The Palisade isn't really an antenna, it's a complete GPS receiver including
an antenna in a single housing. It is primarily intended to provide
precise time information, not position. By putting the entire receiver
on the roof, the 1.5 GHz RF path is only a few inches long. The cable
that runs from the Palisade to wherever the signal is used carries only
power and digital signals (serial data, 1 PPS timing).

Eico Model 315 Signal Generator

I have for sale an Eico Model 315 Signal Generator. This comes with the signal generator, 2 probes and the original instruction manual. The description from the manual is as follows:

"1 - Description

The Eico Model 315 Signal Generator consists of a highly stable electron coupled RF oscillator calibrated in seven bands, covering a frequency of 75 kc to 150 m with overlap on each band. The RF oscillator is electron coupled to � of 7F7 buffer stage for isolation. The second half of the 7F7 is used as an inductive type audio oscillator, which produces a 400 cycle pure sine wave with less than 5% distortion. The AF oscillator modulated the RF in the buffer stage. A four step ladder type altennator and a variable control in the cathode circuit of the buffer stage control the output without loading the oscillator stage."

This unit was part of the estate of an engineer friend of the family, and its operational condition is unknown. I had every intent of powering it up slowly with a variac but never got around to it. Now I must clean out my shack and here is your chance to get a piece of classic test equipment at a bargain price!

This unit is complete and the only damage to it that I can see is a broken toggle switch on the front panel, which can be easily replaced. The probes are complete but the wires are starting to get brittle. The manual is complete and in good condition and includes a schematic and parts list on the back page.

There is a picture of the unit available to view at: http://www.bit-net.com/~russ/eico315.jpg Please pardon the poor image quality, if I can answer any questions just email me...

My asking price is $35 but I will entertain the idea of a swap. Some items I'm currently looking for include a 5/8 wave mobile magnet mount antenna for 2 meters, a small amp for 2 meters, a desktop microphone or any other small items of a similar value that might be useful or interesting in my 2 meters station.

Buyer agrees to pay actual shipping charges or arrange to meet me in Southern NH to pick up. This unit weighs 17 lbs. and might be expensive to ship. You should visit www.usps.gov or www.ups.com to get a quote on shipping charges from my location in Nashua, NH, 03061 to your shipping address.

I prefer payment by PayPal or US Postal Money Order. I will accept personal checks but I won't ship the item until after the check clears.

Thanks for looking!

Doesnt help much that your Govt..keeps letting terrorists thru and into our
US...which is still, by the way....the most powerful and free country in
the world....which we intend to remain...Put that in your PIPE and smoke
it!!

If the sale of what a Canadian resident is attempting to sell in the US (e.g. illegal CB amps, illegal export CB radios, etc) is prohibited by US law (and has been for a number of years) how do you figure that *our* freedom is being impinged upon?

-A

It certainly has been - by our own government. Which is why Aaron H.
Voobner is THE Dumb@$$ TROLL. Try using your brain for a change.

It's probably not illegal in Canada or other countries. Why should it
be banned from eBay?

Hey Murray,

You know I always thought you were a pretty decent guy. Until now. That is just crap about our government letting terrorists in and you obviously don't have the knowledge to back up your statement. Where are your facts? Two non-Canadian citizens are caught with explosives trying to cross into your country. Sure, I doubt they were going over for a fireworks celebration, but that is really no need to blame the rest of Canada. Do you have any idea how many US based truckers are caught trying to cross into Canada with firearms in the cabs of their rigs? And why do you think that is? Because it isn't safe to drive the streets of America, that's why. Canada is known world wide as a warm and peaceful country. That is why we get so many immigrants coming here. I personally don't agree with that, but that's the way it is. How many illegal (Middle Eastern, Asian, Mexican, Puerto Rican) do you have in your country? Hell your INS doesn't even know where 90% of the LEGAL immigrants are. If you plan on being the most powerful country in the world you might as well put a target on your back. Me, I'd just rather be welcome.

Don't bother replying, you're already in the kill file.

Don't like the government? Elect officials that'll change it to your
likeing. Don't like the laws? Follow democratic process and change
'em.

>Which is why Aaron H.
>Voobner is THE Dumb@$$ TROLL.

How is it my fault that YOU don't like the laws?

>Try using your brain for a change.

I see you are using yours to bitch about laws you don't like but are
too lazy to change. That's a fine "use" for it.

>It's probably not illegal in Canada or other countries. Why should it
>be banned from eBay?

Good question. Ask eBay why it refuses to provide a vehicle for
foreign nationals to sell contraband to US citizens.

Max, I agree to most of what you said, Murray was way out of line dishing on Canada, On 9-11 My father was on his way back from Nova Scotia, the Boarder Crossings were all closed, they waited near 8 hours to get back into the US, the residents of the town at the crossing were offering food and water to everyone who got caught on the Canadian side, I don't know for sure, but I would be willing to bet that didn't happen on the US side. there is no other Nation in the world I would rather have as a Neighbor, as far as the guns, people who try to take guns across the boarder to a country that does not allow them is just plain Numb, but I also believe that an unarmed Victim (People) is an easy target for criminals. If a criminal knows I am armed he will be less apt to break into my house. and surly would never walk out. If you disarm the public the only one with guns will be the criminals. Our hats are off to our good neighbor CANADA.

I may be catching this thread late, so correct me if I am wrong, these items
are not illegal to own in the US, just Illegal to use therefore Ebay should
not Ban them ever, Same with Sirens and Blue Lights, not illegal to own just
illegal to operate with out a permit. but Ebay Banned them too, Maybe Ebay
wants to be the FCC Enforcement Division, or better yet worldwide Police for
what is good or bad for you, but they will allow you to sell the nastiest
Porno in the world. uh ???? where are their Ethics ???

Yeah I guess if Murray had of read the news after 9-11, he would have found out how many Canadians went out of their way to accomodate those trapped on our side of the border. Too bad one rotten apple has to spoil the whole barrel. I appreciate all your kind words.

Now fellows, lets knock it off. We're the best of friends and although we may not always agree on our philosophies on different issues, we must stick together and back each other up no matter what. Basically we're all family. I will

always respect the constructive comments from any of my Canadian brothers and think that we should both remain strong in our mutual support of each other.
73's Fred... PS If you have seen it all in the USA, go visit Canada for a real treat!! Oh, bring your mobil HF for some fun.

I'm looking for a copy of an operating manual for an Azden PCS7000H 2 Meter transceiver. I'm more than willing to pay for copying and postage if anyone can help out.

Thanks in advance!

73, Sam WS6S

Kenwood model PS-50 station accessory DC power supply that is used with many of the popular Kenwood ham transceivers.This one was used with my TS440SAT. It has the extra DC output terminal strip on the rear to power other station accessories, like a 2 meter rig....Fitted with the industry standard 6 pin molex power connector so it will work with nearly all the rigs on the market today. Output is 13.8 VDC at 20 amps. Complete with ac power cord. $249.00 CDN / $160 USD

TH-79A The TH-79A handheld transceiver offers the optimum combination of operating ease and powerful performance in a compact, lightweight design. And it's clear at first glance: this slim-line FM dual-bander (2 m/70 cm) sports a dot-matrix LCD -- the first in its class -- providing alphanumeric access to a unique guide function as well as a user-friendly menu system. Other features include 80 non-volatile memory channels with ID, DTSS and page functions, and a DTMF memory function for auto-dial operation.

Accessories Included: Kenwood SMC-32 Mini-water resistant speaker/microphone, MFJ speaker/microphone, Kenwood BC-17 AA Alkaline battery case (TH-79-22/42), Kenwood PB-32 600ma 6V nicad (TH-79/42/22) Battery Pack, Kenwood BC-17 120V Wall Charger, Original Manual, Dual Band Mobile Mag Mount, 12 Volt DC cigarette lighter cord, Extended Range BNC Whip Antenna and Long Wire for even further extended range for base operations.

Only selling because I'm upgrading to the 4-inch diameter model. This 3"
model is a year old, almost like new and in perfect operating condition.
Though rated
for 1Kw, I have never run more than 100 watts into it.

Hello All-

Here is a tip for someone looking for a RE 312B-4. There is one on Ebay that is hidden within a Drake package. It is Ebay # 1362320358 " TR4-C Drake Station". It ends in 2 hours 20 min.

If someone commits to it I would like to buy the Drake stuff out of the lot.

Thank you, Byron.

I have a few of these and I'm looking to dump them,

-GE Master Exec II 800Mhz
-Comb # is ST55AAS92B

Let me know if you need these for repeaters or whatever. Make an offer. I might just sell the icoms if that's what you need as well.

I will also be at the Tuthill (Flagstaff, AZ) Hamfest July 27th as well.

Thanks,
Adam / kc7ljq

GE Mobile Vehicle Adapter for MPA, MTL, MPD, and TPX. This unit charges your battery and turns your portable into a mobile radio. (Convert a Com) With mic, speaker, and power cable. $90.00

GE Accessories

GE TQ 2310 suitcase programmer. Has PLS, Phoenix, Delta s/sx, Voice Guard, MPS, and Ranger. Printer is working Has manual for the programmer and the computer. Has Phoenix cable and Voice guard cable. All in the original GE case tested and working. $850.00

Mastr II control cable. $8.00 each

Mastr II head for mobile repeater operation. $5.00

Mastr II Mic. $5.00

Mastr II 8 channel tone boards. $5.00

Mastr Exec II VHF receive section. $20.00

Mastr Exec II VHF Exciter. $18.00

Mobile Repeater cable for Mastr II. $10.00

Mobile Repeater cable for Delta or Ranger. $20.00. I have seen programming cables made from these.

GE white Versatones, 103.5, 162.2, 173.8, 179.9, 186.2, and 203.5. $4.00 each. I have a large amount of 203.5,186.2, 179.9, 173.8, and 162.2. If you buy 10 = $3.00 each. Buy 15 =$2.50 each. Buy 50 = $1.50 each.

GE Mastr II Icoms. EC = $5.00 each, 5C = $10.00 each.

GE Delta cables. These are the downloading type used with the S820 heads. And all other heads $40.00 each

Delta mounting plates. $10.00 each

Ranger mounting plate. $15.00

Power plugs for S500, S550, C500 etc heads. Good pulls $5.00

GE S-550 / 500 and others mounting brackets. $5.00 each

GE MPA, MPD, MTL standard Speaker mic. $25.00

GE PCS Universal charger. With wall transformer $20.00 each

GE MPA standard chargers. $20.00 each

GE MPA Rapid chargers. $30.00 each

GE MPI desk charger with wall transformer. $10.00

GE MPI Rack charger, 8 position. 25.00

GE MPI Mobile battery charger, Rare. $20.00

GE Battery discharge analyzer. For MPA, MPD batteries. Attaches to a rapid rack charger with a DB 15 cable and uses a MPD body to attach a battery to. Has LED readout in display area of MPD body to tell discharge rate. Another rare GE goodie. $45.00

GE shoulder strap like new, attaches where belt clip is. $15.00

GE Belt clips. $10.00 each

GE Voter. Has 9 total rec. cards and 2 TX cards. With extender card

and power supply / speaker. $300.00

Other Radios and Accessories

Motorola Saber III Secure VHF 146 split 120 channel radio. Alphanumeric

Display. Has Battery Smart charger and speaker mic. I have been using this on the VHF ham band. Has a new case that was installed at the Motorola Rockford, IL Depot

So it also has a new model sticker that they put on as well. Nice 9.5 or better radio.

$450.00

ADI AT 201. 2 meter portable nice like new and in the box with the

manual. Has 5 watt battery and wall charger. $85.00

Yaesu ft 2400 2 meter mobile. Has Mounting Bracket and manual. Nice

2 meter Radio. $115.00

Radio Shack HTX 212 2 meter Mobile. 30 memories, Scan. Works great.

This was in my van before I added another MVS so I know it works.

$95.00

Uniden SPU480K UHF 8 channel portable. Has two good batteries drop In charger and speaker mic. $80.00

Maxon 5050a Low band portable pair. Like new condition with 1 battery charger but I will split up the pair if someone wants 1 radio only. 6 channels programmed for 10 meter ham band on 2 repeater pair and 4 simplex frequencies. 2 radios and 1 charger $185.00

Marconi UHF portable. 16 channel scan with NOS battery. Made by Midland. $65.00

Midland 70-336B VHF Mobile radio. 8 channel scan. with mic.$65.00

Motorola GP300 VHF 2 channel. on ham band. Has battery OK condition and charger. $150.00

Motorola Mitrek VHF high 110 watt drawer only. $50.00

Motorola MT500 VHF nice shape. Crystals removed but I have 1 set of crystals for each radio. Also have a working battery and charger for each. I have 4 of these. $50.00 all

Uniden SMS 825 TS, 800 MHz Dash mount radio. $45.00

Voter from IMTS phone system. 2 rec. and 2 TX cards. $40.00

Maxon Rapid Rack charger for 0510/0520 radios. Think they will work with the sp2000 as well.$35.00

Consignment section

This area is for a few friends who like those other radios you know "Motorola" They are good people and I will pass along any trades you may wish to make.

MOTOROLA X9000 VHF 50 watts, alphanumeric head, Siren complete. $425.00

Motorola single rapid chargers for HT600, MT1000, P200. $25.00 each

Motorola HT1000 UHF Intrinsically safe Re-cased looks new. 16 channel scan with charger. $425.00

Motorola P200 UHF high power. 6 channel. $150.00

EF Johnson Challenger UHF 80 watt trunk mount, 99 channel Alpha-Numeric head. $225.00

Want List not FS

Extra parts for GE suitcase programmers Data modules, Printers, cables,

proms, Anything you have extra. MPA or MPD portables what do you

have and what do you want for them? Johnson scorpion program cable.

Terms

All prices are plus shipping from 40201. All items are used unless

noted and only have a no DOA warranty if I say it works. If I say

not tested your on your own. If I think it may be bad I will not list

it. I take cash, Postal Money Orders, Paypal, and checks but I hold

them for up to two weeks to clear before I ship. If you have a

question E-mail me. Contact me off list at. Gundoc@insightbb.com

I purchased a Bird 1000H slug from an Ebay seller who describes his
location as
RF Black Hole of PA. It is defective. Cover had been (badly) pried off
which led me to have it checked. On a 600 w linear it reads 300w on
both a friends and my Bird 43. We then tried another 1000H and it read
the correct power output. Over several emails he started off by
stating that I should have realized that I was probably going to
receive something not necessarily good because his 'very detailed
photo' showed the damaged cover. It was not described as being damaged
nor 'as is'. To me the damage in the image was not obvious. He
eventually ended up offering to take it back but only if I ate all
shipping, Ebay, and canadian tax charges which I had paid. It is item
1358140457
He ended up telling me he had tested it on a 10w 440 rig and it tested
ok. He has an advanced ticket.
Anybody else out there had problems with this character?

FOR SALE:

Collins 516E2 Power Supply for KWM-2 transceiver - runs on 28V DC.
Needs capacitors replaced inside. Otherwise appears to be complete and ready to restore.
See picture on web page below...
Will sell for $49.00 plus shipping

WW2 British Mark 2 straight key. Contacts are still in very good shape.
A few imperfections as you can see - not perfect,
but will polish up and restore nicely.
Missing two screws, but otherwise clean and in nice shape.
Picture available on the web page listed below...
Will sell it for $35.00 plus shipping

James Millen Company SWR Bridge Type 90671
Beautiful black crackle finish. No scratches or dents.
Serial Number 812. Has SO-239 connectors.
Has phono type output for 0-1mA meter.
Picture available at the web page listed below...
Will sell for $35.00 plus shipping

MFJ Keyer model MFJ-401 - non-working, but case is perfect and all parts are there. Looks great.
This is the basic keyer with no memories. Has speed and weight controls.
Operates on 9V battery. May just have a loose connection.
No time to troubleshoot, hence low price.
Picture available on request.
Will sell for $9.00 plus shipping

MFJ-1224 RTTY and CW interface with manual and cables.
Great for getting your computer to send and receive CW and digital modes.
Built in radio modem, decoder and many refinements.
From the leader in affordable digital radio interfaces, MFJ.
Excellent condition. Looks just like new.
Will sell for $35.00 plus shipping

Hallicrafters S-108 Receiver in near-mint condition.
All original and in excellent working condition. Has the original
Hallicrafters tubes in it and looks imaculate inside and out.
Very clean, no scratches, no dents, no rust. Has obviously been kept

VERY well buy someone who appreciated fine radios.
Picture available on web page below...
Will sell for $225.00 plus shipping costs.

Ebay is getting really crappy these days...
I dont know what is wrong with people, but its just getting worse..
I sold a videophone that stated No International Shipping, yet a Canadian
bid and won.(I am in the U.S.)..
He then tells me I sold him crap and it didnt work.
I refunded the money when he returned it and it worked just fine.
Put it back up for auction and once again put No International Shipping, and
again a Canadian won the auction. (no offense to you) :)
I would send it back to him.
I did not refund shipping charges on my auction because I knew I sold a
working 100% unit.
Its typical not to get refunded shipping, because shipping is a service, and
the service was perfomed.
Good Luck

I'll give you $100 + $12 shipping. Modern technology has caught up. New scanners with more options are on the market.

I'm trying to raise some money to buy a SSB filter for my Kenwood TS-140S...

I have some laptop batteries, I have two Li-Ion 14.4V 2500mAh Dell batteries, $8 a piece plus shipping or 2 for $12 plus shipping. Never could figure out a charging circuit...

I also have a new IBM 9.6V 2.8Ah Ni-MH, $15 plus shipping (this is for an IBM TP365 and is $85 new). I have a 3.5" floppy drive for a IBM TP365 with the external cable/box for $10 plus shipping. I could make a deal on both ($20 plus shipping?)!

I have a Baycom type packet modem, N3PRT assembled from a kit but never wired up and tested, $12 shipped. I have a Ramsey 2 meter power amp with the sensing relay in a nice little alum. box. Worked but would never put out rated power, $15 - box connectors everything (no manual) plus shipping.

Analog devices AD9835 with a breadboard for experimenting (a little board with traces on it made by one of the genius qrp-l members), $10 shipped and includes two SMD Maxim chips (could've swore they were charge pumps...) mystery.

Original Neophyte receiver, assembled, with connectors pot vernier drive air variable, speaker w/headphone jack. Works FB. Mounted on a piece of plywood with a wood front panel, $25 plus shipping.

Speedex key, black wrinkle base, no shorting bar, $15 shipped.

Now to the oldies but goodies. I have a BC221 Frequency Meter, 125 - 20000 KC, Bendix Radio. In fair to good shape with calibration manual. I started a power supply and will include that also. Worked five years ago hasn't been touched since. This is not a museum piece but it did work and includes the calibration manual which is kinda rare (if you want to see one http://www.qsl.net/ab0cw/ral7.htm). Price is negotiable - plus shipping. It is heavy and I'd want to pack it really well. I don't need this one as I have a "brand new" one in storage.

I also have an Arc-5 shell with the roller inductor and variable capacitor. Best offer plus shipping. Sorry for the length of this post. And thanks.

Please reply off the list... Dan Reynolds KB9JLO

I have a BC221 Frequency Meter, 125 - 20000 KC, made by Bendix Radio. In fair to good shape with calibration manual. I started a power supply and will include that also. Worked five years ago hasn't been touched since. This is not a museum piece but it did work and includes the calibration manual which is kinda rare (if you want to see one http://www.qsl.net/ab0cw/ral7.htm). Price is negotiable - plus shipping. It is heavy and I'd want to pack it really well. I don't need this one as I have a "brand new" one in storage.

I also have an Arc-5 shell - case - with the roller inductor and variable capacitor and dials. Best offer plus shipping.

FOR SALE:
New first quality terminal boards.

For those who repair and service antique
radio equipment and/or audio equipment etc. the following
will be very useful.

Top quality fiberglass terminal boards measuring
13-1/8" long by 1-1/2" wide.

These have 2 rows of turrets for mounting components
and making wiring connections. They have four mounting holes
in the corners.

They can of course be cut down into smaller sections as
needed.

Picture available - request via e-mail

Available at $5.00 each or 5 for $20.00
plus shipping

I am QSL manager for UU1A and Ken sent me a bunch of IRCs to sell for him. I have 128 properly stamped IRCs and 42 without any stamps (that I'm told are good). All are the recent small size for airmail response (with postmark dates of 2000 and 2001 mostly). These are still valid for an indefinite period (unlike the news ones that expire in 5 years). Ken is asking $1 each for stamped ones and 80 cents each for unstamped ones (plus my postage to mail them to you).

If it's on eBay, it's For Auction, *not* FS. Kindly stop misleading people.

ebay will not allow these on the site because they could be misused to
transmit on CB freqs. Of course most ham rigs can do that too...

You are bidding on ONE, NEW, ANTENEX brand, Phantom model, 3db gain, 806-866 MHz, "Transit" style, low visibility, 800 MHz Antenna. Antenex part number TRA8063. It is NEW in the bag. This antenna mounts to a standard MOTOROLA style mount (NOT INCLUDED IN THIS AUCTION). I have been using this style antenna for my personal equipment and I am very happy with the results. Great for low-profile or unmarked vehicles!
Buyer to pay fixed shipping amount of $6.

Thanks for Looking!!!!

I have a DJ-120T/E HT its dead. Comes with battery and instruction manual. I do not have a antenna or charger. The retainer that holds the nicad on the radio is also broken. Otherwise the radio is in nice clean shape. It does have PL and there is some wear around the dip switches on the back.

$30 + $5 shipping CONUS

Mike WB2GLW

Please if you have questions or want to make a trade contact me off list at my e-mail address. gundoc@i... Some of these lists are not swap lists and only tolerate my post because it is only once a week. To the group owners thank you for letting me continue to post to the group.
Dean

GE Portables

GE MPA VHF Scan 136 - 150.8 split 192 channels nice 9.0 Condition. With battery and charger. I have this programmed for Ham and up to 152 MHz before it will not lock on frequency.
$225.00

GE MPA VHF Scan 157 - 174 split. 192 channels. Nice radio 8.5 condition with battery and standard charger. I have it programmed down to 154 MHz with no trouble but will go no lower. $225.00

GE MPA UHF Scan 440 - 470 192 channel scan. Radio works great. A little paint wear on the edges but I have seen worse. With charger and battery. $225.00

GE MPD select model 470.- 488 MHz. 48 channel Alpha-Numeric display. With battery and standard charger. 7-7.5 $85.00

GE MPD scan VHF 150.8 174. 48 channel alphanumeric display. These look good and come with a battery and standard charger. $100.00 each.

MPD Voice Guard VHF system model with full keypad. 48 channel alpha display. With battery and standard charger. $115.00

GE KPC 300 VHF 16 channel scan. Nice radio with battery and antenna. No charger with this one. $100.00

GE KPC 400 UHF 16 channel scan. Full DTMF pad on this radio. This one has a charger. $195.00

GE PCS VHF 2 channel. Like new 9.5-10 condition. 150 -170 MHz. With battery, antenna, leather case, and pocket charger. $100.00 each. 2 available.

SALE!!
GE PLS VHF 16 channel. These average an 8 - 8.5 condition. 150 -170 but I have programmed these in the ham band with no trouble. These have battery, antenna, and standard charger. $75.00 each Programming Included. I have 7 of these.

Sale!!
GE PLS UHF 16 Channel. 8 to 8.5 also. 450 - 470 split but I can program these to the ham band. With battery, Antenna, and Charger. $90.00 each. Programming included. Have 3 of these.

GE MPS VHF Like new 12 channel. With new battery, new antenna, and a standard charger. $70.00

GE MPS VHF 12 channel. 8.5 condition. New antennas and NOS batteries Standard charger. $60.00 each have 2.

GE MPS UHF 48 channel. 8 = 8.5 condition, These have NOS batteries And have 4 banks of 12 channels. These can go to the ham band. I have been Using one of these on my ham repeater and it works great. $70.00 each I have 8 of these.

GE UHF MPS 8 channel with 8 different tones. 8 different tones can be Selected for each different channel. Battery and antenna. $60.00

GE Monogram UHF 10 channel portables. 3 radios 2 new batteries and 1 good battery. With 1 dual slot charger. $200.00 all 3 radios.

GE Monogram VHF 10 channel portable. 157-179 split. ex CSX radio. I sold this radio a year ago but have taken it on trade. Condition 8 with belt clip and charger. I had this radio run for stolen from CSX by a local CSX Special Agent when I first bought these in a lot and was told that it had been sold at salvage. Perfect for a RR Museum or shortline on a budget. This could also be programmed for marine frequencies. Like new tall Battery. $100.00

GE Mobiles

GE Phoenix SX VHF 128 channel scan. With Mic, Has all 8 proms. $100.00

GE MVS 800 conventional 2 channel. With mic tested OK $75.00

GE MLS UHF 8 channel. With Mic, power cord and hang up box. MLSU240 450. - 470 Looks good. $125.00

GE Mastr exec II VHF 75-watt mobile complete with accessories. $60.00 each

GE Mastr exec II VHF Mobile extender (repeater like Pac rt) for Mastr II or Delta. $20.00 each

GE Mastr exec II VHF Mobile extender for GE Ranger (only Exec II that I have seen marked Ericsson) $65.00

GE S990 head 128 channel scan. Just in not tested. $70.00

GE S550 head 16 channel looks good but not tested. $35.00

GE S700 head and complete Motorcycle cable set for Delta or Ranger. 16 channel model has short cable and some handle bar mounts. Mic included but no speaker. Not tested yet since I just got it in. $50.00

GE Mobile Vehicle Adapter for MPA, MTL, MPD, and TPX. This unit charges your battery and turns your portable into a mobile radio. (Convert a Com) With mic, speaker, and power cable. $100.00

GE Accessories

GE TQ 2310 suitcase programmer. Has PLS, Phoenix, Delta s/sx, Voice Guard, MPS, and Ranger. Printer is working Has manual for the programmer and the computer. Has Phoenix cable and Voice guard cable. All in the original GE case tested and working. $850.00

Mastr II control cable. $8.00 each

Mastr II head for mobile repeater operation. $5.00

Mastr II Mic. $5.00

Mastr II 8 channel tone boards. $5.00

Mastr Exec II VHF receive section. $20.00

Mastr Exec II VHF Exciter. $18.00

Mobile Repeater cable for Mastr II. $10.00

Mobile Repeater cable for Delta or Ranger. $20.00. I have seen programming cables made from these.

GE white Versatones, 103.5, 162.2, 173.8, 179.9, 186.2, and 203.5. $4.00 each. I have a large amount of 203.5,186.2, 179.9, 173.8, and 162.2. If you buy 10 = $3.00 each. Buy 15 =$2.50 each. Buy 50 = $1.50 each.

GE Mastr II Icoms. EC = $5.00 each, 5C = $10.00 each.

GE Delta cables. These are the downloading type used with the S820 heads. And all other heads $40.00 each

Delta mounting plates. $10.00 each

Ranger mounting plate. $15.00

Power plugs for S500, S550, C500 etc heads. Good pulls $5.00

GE S-550 / 500 and others mounting brackets. $5.00 each

GE MPA, MPD, MTL standard Speaker mic. $25.00

GE PCS Universal charger. With wall transformer $20.00 each

GE MPA standard chargers. $20.00 each

GE MPA Rapid chargers. $30.00 each

GE MPI desk charger with wall transformer. $10.00

GE MPI Rack charger, 8 position. 25.00

GE MPI Mobile battery charger, Rare. $20.00

GE Battery discharge analyzer. For MPA, MPD batteries. Attaches to a rapid rack charger with a DB 15 cable and uses a MPD body to attach a battery to. Has LED readout in display area of MPD body to tell discharge rate. Another rare GE goodie. $45.00

GE shoulder strap like new, attaches where belt clip is. $15.00

GE Belt clips. $10.00 each

GE Voter. Has 9 total rec. cards and 2 TX cards. With extender card and power supply / speaker. $300.00

Other Radios and Accessories

ADI AT 201. 2 meter portable nice like new and in the box with the manual. Has 5 watt battery and wall charger. $90.00

Yaesu ft 2400 2 meter mobile. Has Mounting Bracket and manual. Nice 2 meter Radio. $125.00

Radio Shack HTX 212 2 meter Mobile. 30 memories, Scan. Works great. This was in my van before I added another MVS so I know it works. $100.00

Maxon 5050a Low band portable pair. Like new condition with 1 battery charger but I will split up the pair if someone wants 1 radio only. 6 channels programmed for 10 meter ham band on 2 repeater pair and 4 simplex frequencies. 2 radios and 1 charger $185.00

Marconi UHF portable. 16 channel scan with NOS battery. Made by Midland. $75.00

Midland 70-336B VHF Mobile radio. 8 channel scan. with mic.$75.00

Motorola GP300 VHF 2 channel. on ham band. Has battery OK condition and charger. $150.00

Motorola Mitrek VHF high 110 watt drawer only. $50.00

Motorola MT500 VHF nice shape. Crystals removed but I have 1 set of crystals for each radio. Also have a working battery and charger for each. I have 4 of these. $50.00 all

Uniden SMS 825 TS, 800 MHz Dash mount radio. $55.00

Voter from IMTS phone system. 2 rec. and 2 TX cards. $40.00

Maxon Rapid Rack charger for 0510/0520 radios. Think they will work with the sp2000 as well.$35.00

Consignment section

This area is for a few friends who like those other radios you know "Motorola" They are good people and I will pass along any trades you may wish to make.

MOTOROLA X9000 VHF 50 watts, alphanumeric head, Siren complete. $425.00

Motorola single rapid chargers for HT600, MT1000, P200. $25.00 each

Motorola HT1000 UHF Intrinsically safe Re-cased looks new. 16 channel scan with charger. $425.00

Motorola P200 UHF high power. 6 channel. $150.00

EF Johnson Challenger UHF 80 watt trunk mount, 99 channel Alpha-Numeric head. $225.00

Want List not FS
Extra parts for GE suitcase programmers Data modules, Printers,
cables,
proms, Anything you have extra. MPA or MPD portables what do you
have and what do you want for them? Johnson scorpion program cable.

Hi there,

I've got a Kenwood 900 Mhz Mobile Radio for sale. This unit does Conventional and LTR, the model is the TK-931 or 941 (I cant remember at the time of this posting). I'll add a follow up from home with the exact model number. It is a true 900 Mhz rig, not an 800 unit... No mods have been done, this is a bare and stock Kenwood 900 Mhz Radio.

I bought it used, had it on and tested that it works as expected (nice).

Like all the other Kenwood TK series radios, this one has mucho capacity and simply programs through the mic plug. If you buy my radio, I'll tell you a free ftp site for the software and I'll provide a picture of the easy to build programing interface. (uses a common serial port).

Nice LCD display... ready to reprogram and go... I'm asking $90 or best practical offer. Buyer pays actual shipping (and inssurance as desired).

Cut the NOSPAMPLEASE out of my Email header to reply or do the same with the one listed below.

I can field questions about the radio.

cheers and thanks

skipp@pilotNOSPAMPLEASE.ucdavis.edu

(take the NOSPAMPLEASE out to reply.)

Hi there,
-
In regards to the Kenwood 900 Mhz radio I listed for sale. I have confirmed the model number as the TK-941. I have powered it up and confirmed the software can read and loaded.
-
Please let me know asap if you are interested, I've had six Emails today asking for the model number. This is a working bare radio, software not included.
-
My Email address is also my Ebay ID, if you need a reference...
OK, thanks for asking... first come, first serve.
-
cheers
skipp

I have a non working Alinco DJ120 HT. Comes with Nicad Battery. The retaining clip that holds the battery is broken. And the radio is DOA. I do not have the antenna or charger. Comes with operation manual. This radio does have Alinco PL deck set via the DIP switches on the back.

$30 shipped free in the CONUS

Mike WB2GLW

Please if you have questions or want to make a trade contact me off list at my e-mail address. gundoc@insightbb.com Some of these lists are not swap lists and only tolerate my post because it is only once a week. To the group owners thank you for letting me continue to post to the group.

Dean

GE Portables

GE MPA VHF Scan 136 - 150.8 split 192 channels nice 9.0 Condition. With battery and charger. I have this programmed for Ham and up to 152 MHz before it will not lock on frequency.

$225.00

GE MPA VHF Scan 157 - 174 split. 192 channels. Nice radio 8.5 condition with battery and standard charger. I have it programmed down to 154 MHz with no trouble but will go no lower. $225.00

GE MPA UHF Scan 440 - 470 192 channel scan. Radio works great. A little paint wear on the edges but I have seen worse. With charger and battery. $225.00

GE MPD select model 470.- 488 MHz. 48 channel Alpha-Numeric display. With battery and standard charger. 7-7.5 $85.00

GE MPD scan VHF 150.8 174. 48 channel alphanumeric display. These look good and come with a battery and standard charger. $100.00 each.

MPD Voice Guard VHF system model with full keypad. 48 channel alpha display. With battery and standard charger. $115.00

GE KPC 300 VHF 16 channel scan. Nice radio with battery and antenna. No charger with this one. $100.00

GE KPC 400 UHF 16 channel scan. Full DTMF pad on this radio. This one has a charger. $195.00

GE PCS VHF 2 channel. Like new 9.5-10 condition. 150 -170 MHz. With battery, antenna, leather case, and pocket charger. $100.00 each. 2 available.

GE PLS VHF 16 channel. These average an 8 - 8.5 condition. 150 -170 but I have programmed these in the ham band with no trouble. These have battery, antenna, and standard charger. $85.00 each
GE PLS UHF 16 Channel. 8 to 8.5 also. 450 - 470 split but I can program these to the ham band. With battery, Antenna, and Charger. $85.00 each. Have 3 of these.

GE MPS VHF Like new 12 channel. With new battery, new antenna, and a standard charger. $70.00

GE MPS VHF 12 channel. 8.5 condition. New antennas and NOS batteries Standard charger. $60.00 each have 2.

SALE!

GE MPS UHF 48 channel. 8 = 8.5 condition, These have NOS batteries And have 4 banks of 12 channels. These can go to the ham band. I have been Using one of these on my ham repeater and it works great. $60.00 each I have 8 of these. Programming on 12 channels included.

GE UHF MPS 8 channel with 8 different tones. 8 different tones can be Selected for each different channel. Battery and antenna. $50.00

GE Monogram UHF 10 channel portables. 3 radios 2 new batteries and 1 good battery. With 1 dual slot charger. $200.00 all 3 radios.

GE Monogram VHF 10 channel portable. 157-179 split. ex CSX radio. I sold this radio a year ago but have taken it on trade. Condition 8 with belt clip and charger. I had this radio run for stolen from CSX by a local CSX Special Agent when I first bought these in a lot and was told that it had been sold at salvage. Perfect for a RR Museum or shortline on a budget. This could also be programmed for marine frequencies. Like new tall Battery. $100.00

GE Mobiles

GE Phoenix SX VHF 128 channel scan. With Mic, Has all 8 proms. $100.00

GE MVS 800 conventional 2 channel. With mic tested OK $75.00

GE MLS UHF 8 channel. With Mic, power cord and hang up box. MLSU240 450. - 470 Looks good. $125.00

GE Mastr exec II VHF 75-watt mobile complete with accessories. $60.00 each

GE Mastr exec II VHF Mobile extender (repeater like Pac rt) for Mastr II or Delta. $20.00 each

GE Mastr exec II VHF Mobile extender for GE Ranger (only Exec II that I have seen marked Ericsson) $65.00

GE S990 head 128 channel scan. Just in not tested. $70.00

GE S550 head 16 channel looks good but not tested. $35.00

GE S700 head and complete Motorcycle cable set for Delta or Ranger. 16 channel model has short cable and some handle bar mounts. Mic included but no speaker. Not tested yet since I just got it in. $50.00

GE Mobile Vehicle Adapter for MPA, MTL, MPD, and TPX. This unit charges your battery and turns your portable into a mobile radio. (Convert a Com) With mic, speaker, and power cable. $100.00

GE Accessories

GE TQ 2310 suitcase programmer. Has PLS, Phoenix, Delta s/sx, Voice Guard, MPS, and Ranger. Printer is working Has manual for the programmer and the computer. Has Phoenix cable and Voice guard cable. All in the original GE case tested and working. $850.00

Mastr II control cable. $8.00 each

Mastr II head for mobile repeater operation. $5.00

Mastr II Mic. $5.00

Mastr II 8 channel tone boards. $5.00

Mastr Exec II VHF receive section. $20.00

Mastr Exec II VHF Exciter. $18.00

Mobile Repeater cable for Mastr II. $10.00

Mobile Repeater cable for Delta or Ranger. $20.00. I have seen programming cables made from these.

GE white Versatones, 103.5, 162.2, 173.8, 179.9, 186.2, and 203.5. $4.00 each. I have a large amount of 203.5,186.2, 179.9, 173.8, and 162.2. If you buy 10 = $3.00 each. Buy 15 =$2.50 each. Buy 50 = $1.50 each.

GE Mastr II Icoms. EC = $5.00 each, 5C = $10.00 each.

GE Delta cables. These are the downloading type used with the S820 heads. And all other heads $40.00 each

Delta mounting plates. $10.00 each

Ranger mounting plate. $15.00

Power plugs for S500, S550, C500 etc heads. Good pulls $5.00

GE S-550 / 500 and others mounting brackets. $5.00 each

GE MPA, MPD, MTL standard Speaker mic. $25.00

GE PCS Universal charger. With wall transformer $20.00 each

GE MPA standard chargers. $20.00 each

GE MPA Rapid chargers. $30.00 each

GE MPI desk charger with wall transformer. $10.00

GE MPI Rack charger, 8 position. 25.00

GE MPI Mobile battery charger, Rare. $20.00

GE Battery discharge analyzer. For MPA, MPD batteries. Attaches to a rapid rack charger with a DB 15 cable and uses a MPD body to attach a battery to. Has LED readout in display area of MPD body to tell discharge rate. Another rare GE goodie. $45.00

GE shoulder strap like new, attaches where belt clip is. $15.00

GE Belt clips. $10.00 each

GE Voter. Has 9 total rec. cards and 2 TX cards. With extender card and power supply / speaker. $300.00

Other Radios and Accessories

Motorola Saber III Secure VHF 146 split 120 channel radio. Alphanumeric

Display. Has Battery Smart charger and speaker mic. I have been using this on the VHF ham band. Has a new case that was installed at the Motorola Rockford, IL Depot

So it also has a new model sticker that they put on as well. Nice 9.5 or better radio.

$475.00

ADI AT 201. 2 meter portable nice like new and in the box with the

manual. Has 5 watt battery and wall charger. $90.00

Yaesu ft 2400 2 meter mobile. Has Mounting Bracket and manual. Nice

2 meter Radio. $125.00

Radio Shack HTX 212 2 meter Mobile. 30 memories, Scan. Works great.

This was in my van before I added another MVS so I know it works.

$100.00

Maxon 5050a Low band portable pair. Like new condition with 1 battery

charger but I will split up the pair if someone wants 1 radio only. 6

channels programmed for 10 meter ham band on 2 repeater pair and 4

simplex frequencies. 2 radios and 1 charger $185.00

Marconi UHF portable. 16 channel scan with NOS battery. Made by

Midland. $75.00

Midland 70-336B VHF Mobile radio. 8 channel scan. with mic.$75.00

Motorola GP300 VHF 2 channel. on ham band. Has battery OK condition and charger. $150.00

Motorola Mitrek VHF high 110 watt drawer only. $50.00

Motorola MT500 VHF nice shape. Crystals removed but I have 1 set of crystals for each radio. Also have a working battery and charger for each. I have 4 of these. $50.00 all

Uniden SMS 825 TS, 800 MHz Dash mount radio. $55.00

Voter from IMTS phone system. 2 rec. and 2 TX cards. $40.00

Maxon Rapid Rack charger for 0510/0520 radios. Think they will work with the sp2000 as well.$35.00

Consignment section

This area is for a few friends who like those other radios you know "Motorola" They are good people and I will pass along any trades you may wish to make.

MOTOROLA X9000 VHF 50 watts, alphanumeric head, Siren complete. $425.00

Motorola single rapid chargers for HT600, MT1000, P200. $25.00 each

Motorola HT1000 UHF Intrinsically safe Re-cased looks new. 16 channel scan with charger. $425.00

Motorola P200 UHF high power. 6 channel. $150.00

EF Johnson Challenger UHF 80 watt trunk mount, 99 channel Alpha-Numeric head. $225.00

Want List not FS
Extra parts for GE suitcase programmers Data modules, Printers, cables, proms, Anything you have extra. MPA or MPD portables what do you have and what do you want for them? Johnson scorpion program cable.

I recently acquired a nice HW-16 and would like to find the matching
HG-10 or HG-10B VFO. Will pay cash or will trade my VF-1.

The VF-1 is very nice cosmetically, some discoloration on the wheel
that displays frequencies, but otherwise good looking with original
knobs. One modification to allow for either cathode or grid-block
keying, presently set for grid-block but converts back to cathode by
moving a jumper wire (five minute job). If you hate mods and want a
100% original inside, I have saved all the parts. Comes with a
photocopy manual and documentation on the mods.

You can find my real e-mail on QRZ under call sign K1ZC. Hate to post
it here because of the spam-bots.

MOTOROLA VHF HT750 - BRAND NEW!

You are bidding on one, NEW, Motorola VHF HT-750 portable radio. Model # AAH25KDC9AA3AN, 5 watt, 16 channels, 136 - 174 MHz with a brand new battery with a 2002 date code. The radio has never even been programmed. It is new out of the box. Sadly, the box got tossed out... but I promise you, it is brand new. Included in this auction is a brand new speaker mic, HMN9052B. A charger is not included in this auction. This radio lists for $800 new, -$20 to delete the charger option. The mic lists for $66. Winning bidder to pay actual shipping cost (UPS Ground or better). I will ship to the Continental US only. If you use the BUY IT NOW feature, I will ship it UPS Ground for FREE. For an additional, $35 I will program the radio for you to your specifications. (Buyer must provide all frequency and setting preferences.) If you have any questions, please do not hesitate to email me.

Thanks for Looking!!!

ONE, NEW, ANTENEX brand, Phantom model, 3db gain, 450-470 MHz, "Transit" style, UHF Antenna. Antenex part number TRA4503. It is NEW in the bag. This antenna mounts to a standard MOTOROLA style mount (NOT INCLUDED IN THIS AUCTION). I have been using this style antenna for my personal equipment and I am very happy with the results. Great for low-profile or unmarked vehicles! Buyer to pay fixed shipping amount of $6. I prefer PayPal, but will accept Billpoint, Money Orders, and Cashiers Checks. NO Personal Checks. Please feel free to e-mail me with any questions. Winner must contact me within 24 hours of auction close. Good luck and thanks for looking!

Howdy,

2 auctions closing today for MCX-1000's One UHF, one VHF.

VHF remote mountable
http://cgi.ebay.com/ws/eBayISAPI.dll?ViewItem&item=1744176645

UHF (comes w/ head)
http://cgi.ebay.com/ws/eBayISAPI.dll?ViewItem&item=1362439528

Because some of you asked, you do not need to worry about "converting" these to do conventional. Yes they are capable of encryption, but were used conventional. They could be used for digital encryption, but the module would be needed.

I may have mics for these, email and ask if you are the winner.

Thanks,

Adam / kc7ljq

Excellent condition and in perfect working order. Here's you chance to
own one. Comes complete with the manual, optional keypad and whip
aerial/preamp. FM and AM sync as standard. Email me for jpegs. Price
including shipping from the UK to United States is �350 pounds
sterling, which if you've a copy of Ostermanns Shortwave receivers
past and present, you see that after coverting to dollar that falls
below the bottom range for a used model (even with the postage !!).

Thanks for looking,
73's

Considering that this radios sells for less than $200 USD new, you
better rethink your price if you want it to go quick.

Durham Radio's sale price is $395 Canadian funds and when you add taxes
to their price, it comes to $454.25, not factoring shipping, I'm asking
$300 Canadian funds, private sale, so the buyer saves $154.25 if they
were to purchase one from Durham Radio
(http://www.durhamradio.com/bc895.htm), I really only want to sell to
someone in Ontario to save both the buyer and the seller shipping
hassles across the border etc.  I think my price is fair, but I
appreciate the input.

Jason

Hi all,

I'm looking for a respectable --> high quality SWR meter new or used. Anyone with suggestions as to new or offers of used please reply.

Also looking for a replacement speaker for a yaesu MH12-A2B Speaker/mic. I can't get it new anywhere!(Tried everyone from local tiny shops to electrosonic, digikey and futureactive) Specs are 1.5"dia. circular, 8Ohms impedence, 1/2W power handling.

Please reply if you can help or email me at Verbami@ sNhOaSwP.AcMa after removing the bot protection

Thanks!

```

New replacement bezels for the rarest of the rare Hallicrafters SX-88 receiver are now available. Perhaps twenty percent of the known SX-88s have the warped bezel syndrome. There is no way to repair a bad bezel and this newly manufactured bezel solves the problem. They are machined out a solid piece of aircraft aluminum on a CNC machine. All the threaded holes, retaining tabs, openings, tapered faces, and openings are true to the original. They are finished in a wrinkled black satin powdered finish.
NOTE: I am not making the bezels. I'm just acting as a facilitator. Bezel will be securely packed and shipped from California. A certain number of bezels must be sold before the second run of 20 can be authorized. Money orders and Pay Pal will get priority shipping when the bezels are available. Personal checks will clear before shipping. If a sufficient number is not ordered then payments will be returned. For questions or pictures contact me directly at gharmon@idworld.net. Seller will pay CONUS shipping. Out of country buyers will pay the difference.

```
Thanks and 73,

I am selling an AMD K6-2 500mhz CPU and fan. I bought these recently
on the internet because I had a problem with my old computer. After

```
buying them, I decided to just upgrade completely, so now I don't need
them. I am selling them for $40 or willing to trade for ham radio
gear. Please email me directly if interested.

I know this isn't really the correct newsgroup to be asking this, but:

"provide relief to amateurs prevented by private deed covenants, conditions
and restrictions--CC&Rs--from installing outdoor antennas."

What exactly is a CC&R? I don't own a house, or any land for that matter,
so I imagine this wouldn't apply to me.
If I did own a house, what benefit would I get from this bill? Can anyone
shed some light for me?

```
Thanks
KB1EJW

"JTB" <fireman1333@attbi.com> wrote in
news:YL0N8.19734$fT5.5466003@typhoon.ne.ipsvc.net:

CC&R are covenants and restricts on what you may do at or with your house.   Most new home subdivisions now impose CC&R's on homebuyers. You agree to them when you sign the papers to buy the house. Most of the CC&R's are pretty straight forward. They limit how many animals, parking of RV's and boats, Color scheme (must be similar to original or aproval of Homeowners association to make change). One of the more common restrictions that have been placed in CC&R is a ban on outside antenna's. This has been decided by the courts to mean all types of antenna's i.e. TV, CB. Amateur Radio etc. Recently the 18" TV dish antennas were exempted by a court decision I believe. Basically the developer can put anything in a CC&R that he wants. The idea to to make the homes more marketable. However some of the terms of CC&R's have recently been struck down by court decisions.

I hope this helps a bit.

It's where YOUR neighbors tell you what you can and can not do with your property. If the grass is over 2" high you must mow or they mow and send you the bill. You must cable or rabbit ears to watch YOUR tv in YOUR home. NO antennas of any kind permitted.   That will be the day when someone tells me what "I" can do with my property.

While not being sure, I believe that this is contrary to Federal law.

The FCC foresaw a problem where Cable Companies could mandate through CC&R's a monopoly. Because of this, the FCC put forth documentation allowing you to erect antennae for television reception. This also allowed for the numerous mini satellite dishes to be put up.

Unfortunately this does nothing to address Amateur radio issues .

No, it is where YOU signed a binding legal contract about how you would use the property you were buying -- and now you want to go back on your word like a lying two-faced slime -- but since your neighbors who relied on the false assumption you were an honest person don't like you being two-faced scum, you have to try to con congress into passing a law specifically allowing you to ignore the contract you signed no matter what impact it may have on others who made the mistake of believing your word.

Hello,

I have an Icom IC-Q7a mini handheld that is in excellent condition,
electrically and cosmetically.
Would like to trade for something ham related.  What do you have?  I
don't need any computer equipment.

Jim...

I still have a very clean, very nice, working to spec Collins 30L-1 amplifier. I'm selling this unit for the widow of a friend who put very little time on the 4 811As. I may have a set of brand new or nearly new 572Bs. This is the Rolls Royce of radio equipment. Even the Air Force used S-Line equipment! Better then Mil-Spec!

The unit is a desktop amp with built in power supply that can be set up for 117AC (as it is now) or can be wired easily for 220VAC.

Will work on any ham band and can be driven with 60 watts to about 500 to 550 watts output on all bands from 80 to 10 meters.

It can be used with the Collins S-Line, the KWM-2 or with any modern rig with a relay on the keying circuit. (Ameriton and MFJ sell one ready to go)

Asking $600 plus shipping from 22310 (Alexandria, VA.)

73 Rick

I have 90 feet of the Old American Steel, plus a bunch of steel guy wire...Most is in reasonably good shape...I'd not put it back up as 90 feet though...it'd make a nice 40 and 50 foot pair.

No base...well there is one, but it's set in concrete..."You dig"<:-))
The tower is down and stacked.

You are bidding on ONE, NEW, ANTENEX brand, Phantom model, 3db gain,
806-866 MHz, "Transit" style, low visibility, 800 MHz Antenna. Antenex
part number TRA8063. It is NEW in the bag. This antenna mounts to a
standard MOTOROLA style mount (NOT INCLUDED IN THIS AUCTION). I have
been using this style antenna for my personal equipment and I am very
happy with the results. Great for low-profile or unmarked vehicles!
Buyer to pay fixed shipping amount of $6.

Buy It Now for $30 !!!!!

Thanks for looking!

for sale or trade:

1 Motorola Saber III vhf, perfect condition (9,5+/10), with battery, antenna, and motorola speaker/mic, charger, rx/tx perfect, I have no idea what type of rss it uses (I have no rss or RIB)

1 Motorola Saber III uhf, says "Submersible" on the top, I think its a wide band uhf but it has a red dot antenna (run fine on 440Mhz + though). with battery, stubby antenna.. rx/tx perfect, I have no idea what type of rss it uses (I have no rss or RIB)

1 Motorola GP 300 uhf (low band I think), good condition (8/10), programmed with 15 channels at the moment, with battery, antenna and motorola speaker/mic. rx/tx perfect, I have no idea what type of rss it uses (I have no rss or RIB)

Make a bid on the above... OR IF ANYONE HAS A MTS2000 VHF, MT2000 VHF OR SIMILAR RADIO, A TRADE COULD BE ARRANGED..

best regards

Offering a like new, Yaesu FT-840 160-10M transceiver, with FM-747 option installed. This is a great backup rig or "right-sized" mobile rig. New manufacture, with 1Jxxxxxx serial number (Aug '01) date. Extremely little use, but all functions verified to be 100%. Original plans were to use in SUV as a 'park and play' station, but plans changed. Asking $400 + shipping. Terms: USPS MO or Cashier's Check. I also accept PayPal.   Email lstolz@columbus.rr.com or n8aj@arrl.net.

Lynn, N8AJ

I imagine they are getting few and far between, but in one of the last 2M rigs they made, FM2030
had an optional touch tone pad microphone.
Does anyone have one?
I need to find out if the PTT pins are fully open when unkeyed, or some resistance.
I know its a long shot, but got my fingers crossed someone still has one around.
Regards...Dave

I have for sale a very nice condition 75S-3.
Cosmetically and electronically it is in excellent
condition.  $525 + shipping from zip 76001.

Thanks,
Michael

Want to buy good condition Kenwood TR-851 70cm all-mode. If you have
a lead on one I can be reached at gback@charter.net.

Tnx,

Greg WA6LGS

>marketplace. Can you tell me if this is so?

This rumor is not true and probably started by our competitors.

73 Kenwood

***** Power Supplies, Inverter, UPS *****

Open (L-shaped) frame linear power supplies 6" x 3" x 2" with attached 2 wire polarized line cord, 120V 60 Hz AC input; internal 1A line fuse. There is a relay that switches the 3 voltage outputs. They have a six-pin SIL output connector and come with a matching cable to pigtails.   The wires are: GND, +5V switched, -5V switched, relay (gnd to operate), +12 switched, and +12 constant (for the relay).
Just guessing from the 780X series regulators, I would think that the +12 and +5 outputs are good for about an amp. and the -5, which regulator is unheatsinked, perhaps a couple hundred mA.
$12 ea. (5 units available)

Lambda LM B0-60 -- 0-60V, .45A Linear Power supply with remote sense terminals, screwdriver voltage adjust, 5"x3"x7" -- used $25

Power General

Model 1035-2 -- 12V, 3A, Switching Power supply, uncased PCB 5"x3"x2" -- NOS $15

Model 3050-1 -- 5V@6A , 12V@1A & -12V@1A, Switching Power supply, uncased PCB 5"x4"x2" -- NOS -- $20 ea (4 available)

Model 3056-6 -- 5V@6A & 12V@3A, Switching Power supply, uncased PCB 5"x4"x1.5" -- NOS $25

Sierracin 5C12A -- 12V (5 Amp?) Switching Power supply with remote sense terminals -- open frame 5"x8.5" x2" -- used $15 ea (2 available)

NPC Model 12-115.   12VDC - 115 VAC 200W Square Wave inverter.   Black case w/ gold anodized front panel measures 7"x7"x5" high. 10 lbs. shipping wgt. $20

International Instrumentation Model PUP-200.   200W computer style UPS.
Off white case measures 15"x8"x6" high. Requires 24V worth of lead acid
batteries, not included. 18 lbs. shipping wgt. $25

All of the above plus shipping, if necessary, naturally.

*** MISCELLANEOUS ***

NOS fan that fits some Japanese radio...marked: 57 10.01 100V

The wires from the motor are about 4' long and are terminated in a 2 pin JST connector.

The impeller has 8 blades and is 7 cm in diameter.

It is mounted to a U shaped metal frame with four mounting holes spaced 5cm by 9cm

$10

Filter Cap Assemblies: Eight CDE 80 uF/450V axial electrolytics mounted to a 5"x8" fiberglass PCB -- these are currently wired sort of series-parallel but, could be reconfigured by cutting & jumping a couple PC traces. $20 ea. (2 available)

Large (uncased) display unit. 256, T-1 3/4, red LED's arranged in a 16 x 16 pattern that is about 5" square. There is a 6" x 6" mother board plus 16 daughter boards holding the LED's. The LED's are driven by latches so any/all of them can be lit. There is a 14 pin DIP interface connector -- pin out provided. $75. May be seen at: http://photos.yahoo.com/bc/marv_email/vwp?.dir=/Jpegs&.dnm=Display.jpg&.src=ph&.view=t&.hires=t

DPDT Crystal Can relays with 600ohm 28V coils and 2A 28V contacts made by Leach, Datron and other manufacturers. They have small solder hook pins for connection and a pair of ears on the sides to mount the relay. These are old but, as they are hermetically sealed, they should be like new inside! NOS $3 ea (a dozen or so available)

Carter Radio 500K ohm rheostat with 2" diameter skirted knob, calibrated 0-100 over 270 degrees -- $15

ICOM BC-25U wall warts 12V 50mA -- $5ea (2 available)

Motorola TLN6824A Vibrasender -- Freq. 1B, 107.2 Hz $2

Motorola TLN1361A Timeout Timer $3

Beckman model 901 Duodial for a 10 turn potentiometer NIB -- $15

National Type A Velvet Vernier dials-style 2 (marked 0-100 over 180 degrees) 3-3/8" or 4" diameter -- $20 ea

200W (or so -- 10" long) 1.5K ohm 10 tap (every 150 ohms) power resistors -- used good, $10 ea (2 available)

Dale 1.5K, 225 Watt power resistors used -- $5 ea (3 available)

Ohmite 2K, 225 Watt power resistors used w/mounting clips -- $5 ea (10 available)

Ohmite 3K, 225 Watt power resistors used w/mounting clips -- $5 ea (8 available)

Four 37.5K 78W power resistors used w/mounting clips -- $12 all.

Powerstat
10B 120V 2.25 A variable transformer (variac) used, with dial & knob -- $25
10B 120V 2.25 A variable transformer (variac) NOS, with dial & knob -- $30

GE 9T91A1 120V 2.5 A variable transformer (variac) used, no dial nor knob -- $25

Microtran T1104 600ohm-600ohm, +7dBm, audio transformers, pc mount, NOS -- $1ea

Triad HS-331 Choke 4Hy 40mA DC 375 Ohms NIB -- $10

UTC CG-131 Interstage Transformer 15K-135K, +28dBm max. used -- $15

10V 10A Filament transformer -- Vertical enclosed style 3.5"x3"x4" hi, used -- $25

Vibrafork 4 channel resonant reed relay. A real relic. NOS! $10

All of the above plus shipping, if necessary, naturally.

***** Roller Coils ******

These two coils are shown at:
http://photos.yahoo.com/bc/marv_email/vwp?.dir=/Jpegs&.dnm=Rollers.jpg&.src=ph&.view=t&.hires=t

Johnson 229-202 18uH used good, $50

La Pointe L-0201 406-1 (identical to a Johnson 229-201) 10 uH. used good, $30

*****   B&W Air Dux coils *****

These are NOS, 10" lengths, unless noted otherwise Many are in the photo at:
http://photos.yahoo.com/bc/marv_email/vwp?.dir=/Jpegs&.dnm=bwcoils.jpg&.src=ph&.view=t&.hires=t

#2008-31 2.5"dia x 4" long , 8TPI, #14 wire with 2 turn #14 link at center. NIB $25

#1208T 1.5" dia, 8TPI, #16 wire, slight tarnish $20
#1216T 1.5" dia, 16TPI, #20 wire, somewhat tarnished $20
#1006T 1.25" dia, 6TPI, #14 wire, somewhat tarnished $15

plus a NOS partial length

#1008T   1.25" dia, 8 TPI, #16 wire, 8" long -- $12

--- some other partial lengths

#2408T 3" dia, 8 TPI, #14 wire, 6" long shiny -- $20
#2408T 3" dia, 8 TPI, #14 wire, 4" long shiny -- $15
#2410T 3" dia, 10 TPI, #14 wire, 2.5" slightly tarnished -- $10

--- some Miniductors

#3030 2.5"" dia, 8 TPI, #14 wire, 4" tarnished -- $10
#3031 2.5"" dia, 10 TPI, #16 wire, 3" long somewhat tarnished -- $10
#3031 2.5"" dia, 10 TPI, #16 wire, 1.75" long somewhat tarnished -- $5

---a couple of Illumintronic Engineering parts

375 7367-P1 -- 1.5" dia.x 5.75" winding w/ indented turns, 14 TPI, #17, 7" overall
including plastic center support, un-used somewhat tarnished $25

980-0121-000 -- 2.5" dia. x 7.5" winding w/ indented turns, 8 TPI, #14, 9.5" overall
including plastic center support, used somewhat tarnished but, no turns soldered $30

--- some other coils:

6.5 turns, 2" diameter 2" long silver plated .185" diameter copper tubing -- currently tarnished but, should clean up nice -- $15

6 turns, 2.5" diameter 2" long silver plated .25" diameter copper tubing -- lightly tarished. Ends are flatteded to one inch long tabs with a hole for say a #10 screw. There is a crack in the tubing near one termination which may be easily repaired with silver solder. -- $20

--- A couple large old RF chokes, may be seen at: http://photos.yahoo.com/bc/marv_email/vwp?.dir=/Jpegs&.dnm=rfc.jpg&.src=ph&.view=t&.hires=t

#22 enameled wire space wound 24 TPI for 2.75 on a 1" diameter grooved fiberglass form 5" overall -- $5

ART-13 choke? -- #27 (green enameled) wire wound 40 TPI for 4.3" on a 3/4" diameter ceramic form which steps to a 1.3" diameter base tapped for two 6-32 screws, 5.5" long overall. Looks like winding has been cleanly spliced, twice -- $7

All of the above plus shipping, if necessary, naturally.

MOTOROLA VHF HT750 - BRAND NEW!

You are bidding on one, NEW, Motorola VHF HT-750 portable radio. Model # AAH25KDC9AA3AN, 5 watt, 16 channels, 136 - 174 MHz with a brand new battery with a 2002 date code. The radio has never even been programmed. It is new out of the box. Sadly, the box got tossed out... but I promise you, it is brand new. Included in this auction is a brand new speaker mic, HMN9052B. A charger is not included in this auction. This radio lists for $800 new, -$20 to delete the charger option. The mic lists for $66. Winning bidder to pay actual shipping cost (UPS Ground or better). I will ship to the Continental US only. If you use the BUY IT NOW feature, I will ship it UPS Ground for FREE. For an additional, $35 I will program the radio for you to your specifications. (Buyer must provide all frequency and setting preferences.) If you have any questions, please do not hesitate to email me.

Thanks for looking!!!

FOR SALE:

Hallicrafters TO Keyer in excellent condition.
Excellent for cathode-keying older rigs, or for homebrew stations.

I would say that this is a 9.5 out of 10. All original knobs. Cabinet is immaculate. Interior looks like new above and below chassis.

Operates on 105 to 125V AC. 10-65 wpm. Adjustable sidetone and internal speaker for monitoring your sending. Uses six tubes.

Pictures available on request.

The Hallicrafters HA-1 "TO Keyer" - will work just great with those older rigs that need direct cathode keying. Most of today's solid state keyers will not do the job.

The Hallicrafters TO-Keyer was the first commerial digital keyer to be widely marked. The TO has self-completing dits and dahs, adjustable weighting and speed controls and a monitor speaker.
The TO-Keyer was manufactured in the early 1960s.

This one is in mint condition and comes with a copy of the manual.
Will sell for $85.00 plus shipping

If you have a MTS2000 VHF model 3.. I will gladly trade my 2 saberIII :

1 UHF, 9+/10, rx/tx perfect. I think its a wide band UHF (but has red dot antenna)

1 VHF, 9,5+/10 rx/tx perfect.

I have a charger for them, 2 batteries,stubby antenna for the uhf, normal antenna for the vhf, and 1 speaker/mic.

I tried to sell/swap in an earlier post, but lack of respons now means that I will trade the 2 sabers for a MTS 2000... There is nothing wrong with these radioes, Im just getting desperate

I have no RIB, so I cant read the radioes. That means that I dont have much info on these radioes. But you can of course mail me some questions and I will try my best to answar them..

Best regards

DME:B:LC:UK:1

Transmitter RT-3. Tunes 3-22 MC, crystal controlled, accepts crystals with
3/4" pin-spacing (i.e. FT-243), or 1" pin-spacing. Requires 450 volts DC,

and 6.3 volts AC or DC power.

The RT-3 could be considered the 'flagship' of cold-war U.S. clandestine transmitters. It's development started in 1948; and it was used by the Agency for 12-15 years, and by the Army for several additional years. The RT-3 was valued long afterward for being functional and reliable.

Weight 9 lbs

Dimensions 8-5/8" X 5-1/2" X 5-7/16"

Tubes 6AC7 oscillator 2E26 final

Frequency Bands 3-5.5, 6-9, 10-16,17-22 MC
Pwr Out 3-15 Mhz 12-15 W 15-22 Mhz 10-12 W

I have this Transmitter in my collection but i don't have a way to test it . The unit require 450 VDC and 6,3 VDC. Inside is like Brand New and seems never used.

I found this unit in a local surplus store and i think this is the ultimate QRP Transmitter or a must for any Spy items Collector.

Please Visit http://www.qsl.net/sv1edy/rt/rt.htm
for more info about this radio and more photos and also please contact me direct on my email mak@compulink.gr

I will send this transmitter in any country and i be glad to reply in any questions about it .

I accept payment via PAYPAL or cash inside registered letter .
Both ways are OK for me and i be glad to sell this radio to any friend who may need it .
As i say i don't have a way to test it but looks new.
Please see photos and if you wish ask me for any more info.

I think for an experienced QRP constructor the power supply for 450 V and 6,3 Volt is something that need about 1 hour of work and then will have the ultimate rig !.

I have a 100% positive feedback and i am also Radio Amateur . My call is SV1EDY and my home page is http://www.qsl.net/sv1edy/

Please Visit for more infos .

Also please Note that inside the box of transmitter is the Schematic so all will be easy !.

I leave in Athens Greece and i post in Ebay UK because i have here my account from the Early Ebay days.

The Greek post offices have very good and reliable services and if your country accept Valeur Letters i can send it also Valeur packet and so super extra safe !

Best 73s
Apostolos
SV1EDY

I am selling the following package of equipment on Ebay. This is a wonderful package to give to a new ham. Please see the item description at:

http://cgi.ebay.com/ws/eBayISAPI.dll?ViewItem&item=1360996178

From the Description:

Alinco DJ-195T Handheld 2Meter Transceiver, 5watts
MFJ Black Magnet Mount 2M/440 Antenna w/15 feet coax
MFJ 812B SWR Analyzer / Field Strength Meter for 144mhz and 220mhz
Radio Shack Handheld clip-on Speaker-MIC
Black External Speaker (2inch) with mini-plug
Wall-Charger AND RF Filtered Car-Charger for Alinco DJ-195T
Jumper Cable for SWR Meter and radio
259 to BNC adapter for antenna
Manuals for Radio and SWR Meter.

* The Alinco DJ-195T has been modified for MARS/CAP operation outside of the 2M 144mhz band. This modification is completely reversible and is quite easy. The radio is missing the little rubber cover that goes over the power plug hole. It broke off at some point. This in no way affects operation however, in fact, I didn't like the rubber thing to begin with. It never fit right.

I make my own, it's very easy to do and it also allows to attach a pulley on the opposite side for raising dipoles.

I bought (3) three foot 1" square steel tubing pieces from the local hardware store, along with three 3" "U" bolts, and three 2" bolt mounted pulleys. Drill the tubing for a "U" bolt on one end, and mount a pulley on the other. Then center the tubing against the top flat strap on each tower section and drill two holes through the tubing and the section top strap. Bolt it down, and you're done.

If you attach the coax only at the top standoff, and let it float in the "U" bolts on the other standoffs and it will go up and down with the tower and coil up nicely at the bottom of the tower, rather than having big loops of coax at each section when the tower is lowered. Also, you have 3 easy attachment points for wire antennas on the other ends.

Total cost was about $20.00 and 1/2 an hour to put them together...

Complete amateur satellite station for sale. This collection of gear (with your computer and software) will give you a complete, automated digital/analog satellite station. I (AD4HF, ex-WD4NAE) used this system quite successfully running WiSP (http://www.amsat.org/amsat/ftpsoft.html#win) before dismantling the gear and moving. The antennas have been stored indoors partially assembled. Because the antennas are not shippable, they must be picked up at my home. I live in Albany, Georgia (southwest Georgia). I strongly prefer to sell everything together and will consider any fair offer. "Plan B" is to list items separately on eBay, but I'd rather not have to deal with that.

I purchased all this equipment new. The electronic gear looks as good as new. The antennas show normal outdoor weathering, but work fine.

Included in the system are:

Yaesu FT-736R in immaculate condition with 9600 bps mods professionally done (no permanent mods - connections via a dongle - see photos)

AEA DSP-2232 digital signal processing multi-mode data controller

Kansas City Tracker/Tuner ISA controller card

Yaesu 5400B azimuth/elevation rotor and controller (also have an earlier Kenpro 5400 working rotor/non-working controller for parts)

SSB 2 meter GaAsFET mast mount receive preamp

70 cm mast mount GaAsFET receive preamp

KLM 435-40CX circularly polarized yagi for 435 MHz.

KLM 2M-22C yagi for 144 MHz.

two Down East microwave 1269 loop yagis.

Rohn 25G tilt-base tower section (home-brew hinge welded at base) with
25G top section.

Glen Martin Hazer for 25G tower with thrust bearing and heavy mast.
(http://www.glenmartin.com/catalog/page10.html)

Fiberglass cross boom for mounting circularly polarized yagis

Assortment of coax cables for antennas, rotor control cables

Photos of the Yaesu FT-736R on my web site:
http://personal.atl.bellsouth.net/lig/a/d/adamsdw/yaesu_radio.htm

Photos of the AEA DSP-2232 on my web site:

I have the following tube-ish transformers available -
QTY 1 unless otherwise noted.

Power, filament AND output transformers are included...

115V primary to 5 V at 20 A Avco Crosley (no CT) for $32.00

115V primary to 6 V at 4 A (no CT) $11.00

115V primary to 6 V at 8 A (no CT) (QTY 4) at $18.00 each

115V primary to 6.3V CT at 3 A Triad for $11.00

115V primary to 6.3V CT at 6 A Triad for $15.00

115V primary to Two sec.6.4 V at 25A, 6.4 V at 25A $52.00

115 / 230 V primary to 7.5 V CT at 51 A at $95.00

115V primary to 10 V CT at 5 A - QTY 2 at $25.00 each

115V primary to 18 V CT at 2 A for $6.00

115V primary to 350V CT at 70 mA plus 6.3V CT at 3A and 5V at 3A
Merit brand for $18.00

115V primary to 1050V CT at 75mA plus 5V at 20 A
Avco Crosley brand for $32.00

115V primary to 1000V CT at 150 mA plus taps at 800V CT at 150 mA and three secondaries of 6.3V CT at 4 A each. New Triad brand HSM-212 for $28.00

115V primary to 1100 V CT at 180 mA for $30.00

Merit A-2930 Output Transformer, new in box. 5 Watts
Primary 5000 ohms, secondary 3.5 Ohms for $15.00

Shipping is additional on all of the above

E-mail me for details or to arrange purchase.

re: Want, 2 Channel UHF Maxtrac External Speaker Plug.

Hello there,

Thanks for looking at this post...   I have a UHF Maxtrac 2 channel radio which has a 4 or 6 pin external speaker jack on the back. I bought the radio used, so I have no matching plug for said.

(It is not the dual 16 pin header plug as used on the 16 channel radios.)

If you have a spare plug or two that you would consider selling me, please drop me a note using the address below or take the NOSPAMPLEASE out of my Email header above.

If you have the Motorhead (motorola) part number for this plug, that would also work just fine. I can order it direct from them. I'd buy more than one if you have them.

Thanks much and I hope to hear from someone... please no other unrelated spam.

cheers
skipp@pilot.ucdavis.edu

http://sonic.ucdavis.edu   some nice amateur radio goodies and more...

****** VACUUM CAPACITORS & other Vacuum things ***********

Jennings Vacuum Variables -- all used (or at least aged)

UCS-300-15S 300pF 15KV $200 with standard puller, later manufacture (blue) See at:
http://photos.yahoo.com/bc/marv_email/vwp?.dir=/Jpegs&.dnm=UCS300-15.jpg&.src=ph&.view=t

UCSL-750 750pF 3KV $125 with standard puller
UCSL-1000 1000pF 3KV $125 with standard puller

CVCD-1000 1000pF 20KV $200 with standard puller (My Hipot only goes to 15KV so that all I could test this one) See at:
http://photos.yahoo.com/bc/marv_email/vwp?.dir=/Jpegs&.dnm=1000pf-20.jpg&.src=ph&.view=t&.hires=t

R1G SPST 20KV 20Amp Vacuum Switch (switch only, no solenoid) -- $50

---Fixed vacuum caps--

Jennings VC-12 12pF 20KV $20
Jennings 50pF 86KV $86

Western Elec 50pF 5KV $20 See these at:
http://photos.yahoo.com/bc/marv_email/vwp?.dir=/Jpegs&.dnm=50pfvac.jpg&.src=ph&.view=t&.hires=t

--- Vacuum Relays --

Old "T" style vacuum relays, the coil slips over one leg of the glass enclosed contact assembly -- One of the contacts has a Penta Labs part number: 420 53 3875. The coils are 28V. $10 ea
http://photos.yahoo.com/bc/marv_email/vwp?.dir=/Jpegs&.dnm=vacrelay.jpg&.src=ph&.view=t&.hires=t

Struthers Dunn Type 78CCA109 "Keying Relay" which consists of a vacuum relay mounted on top of a small (2"x3"x4") metal enclosure. There is a 15 pin Jones connector on the side of the box. I believe that there are some auxiliary contacts in the box in addition to the vacuum relay. 28VDC. $15

All of the above plus shipping, if necessary, naturally.

*********** Air Variable Capacitors ********

Cardwell enclosed 7 section variable capacitor assembly for/from some receiver? -- The sections measure: 210, 210, 105, 105, 105, 100 & 75 pF. The unit is about 12" long and 3" square with a right angle drive mounted in the center and a 30 turn scale. This looks to be NOS (nothing ever soldered to...) but, it is a mite tarnished on the outside from being stored forever. There is also a (Mil?) number on the unit: SC3188A. $30
See at:
http://photos.yahoo.com/bc/marv_email/vwp?.dir=/Jpegs&.dnm=cardwell.jpg&.src=ph&.view=t

Johnson T9-5 miniature vertical PC mount trimmers 1.9-15.7 pF, Silver Plated machined plates -- NOS 2/$1

G.I. Corp 70 pF, .080" air spacing, about 3.5"x3.5"x3" overall, �" shaft $2ea (2 available)

National Type DX 500pF variable capacitors, approx. 3" X 3" x 3" overall fairly good condition. $10 ea. May be seen at:
http://photos.yahoo.com/bc/marv_email/vwp?.dir=/Jpegs&.dnm=National.jpg&.src=ph&.view=t&.hires=t

Remler "scissors" variables. Type 630 350pF $25
Type 631 500pF $25

General Instrument type NNC153 3 Section large receiving style capacitor 13-420 pF per section, $15

4 Section capacitor 20-550 pF section large receiving style capacitor, $25

See the previous two units at:
http://photos.yahoo.com/bc/marv_email/vwp?.dir=/Jpegs&.dnm=loadcaps.jpg&.src=ph&.view=t&.hires=t

See the next four units at:
http://photos.yahoo.com/bc/marv_email/vwp?.dir=/Jpegs&.dnm=aircaps.jpg&.src=ph&.view=t&.hires=t

Johnson 154-1, 12-244pF, .05" air gap, about 3" x 3" x 3" overall. Rear shaft has been cut flush with bushing and the rear mounting tab has been shortened a mite. Otherwise, excellent condition, $25.

Johnson 154-34-3, 20-400pF, looks like .03" air gap, about 3" x 3" x 3" overall not including 1/4" shaft which is about 2-1/2" long. Excellent condition, $25.

Johnson 500E20 (modern equivalent 154-3), 500pF/2KV, looks like .05" air gap, about 3" x 3" x 4.5" overall not including 1/4" shaft which is about 1-1/2" long. Good condition except the rear mounting tab has been removed and it looks like a couple of the plates arced at one time and were subsequently filed down a mite. $25.

Similar to the part above but, NOT a Johnson, another 500pF/2KV, looks like .05" air gap, about 3" x 3" x 4.5" overall not including 1/4" shaft which is about 1-1/2" long. Good condition except the front mounting tab has been removed. $25.

See the previous four units at:
http://photos.yahoo.com/bc/marv_email/vwp?.dir=/Jpegs&.dnm=aircaps.jpg&.src=ph&.view=t&.hires=t

Hammarlund SM-50-X, 7.5-50pF, .064 air gap, Just under 2" x 2" x 2" overall not including 1/4" shaft. Good condition. $10.

National SEU-15, 15pF 270 degree rotation, straight line frequency, variable cap. Shiny and new in beaten-up old box (SNIBOB) $25.

**** Ceramic Doorknob & Disk caps ***

These are used Centralab or similar -- $5 ea or 5/$20

500pF 10KV   "TV" style
68pF   5KV   850 series

These are NOS disks by KD & Erie $3ea or 4/$10

1500pF 7.5KV
.01uF   4KV

And a couple NOS Silver Mica caps.

2200 pF 500V CM06 $1 ea
5100 pF 500V CM07 (high current rating) $2 ea

All of the above plus shipping, if necessary, naturally.

**** SEMICONDUCTORS ****

GE 1N2155 rectifiers, 25A, 100PIV, Used. Four for $5.

GE 1N3289 rectifiers, 100A, 200PIV, DO-8 large stud package. These
look like NOS --
(It doesn't appear that the anode leads have ever been bolted to
anything.)
4 pieces -- $20 all

GE 4JA61C rectifiers, 50A, 300PIV, large stud package. A pair for $5.

GE 4JA63C rectifiers, 50A, 300PIV, large stud package. Four for $10.

GE A70B, 100A, 200PIV, DO-8 large stud package. Used. Four for $15.

GE C156D, 110A, 400V Inverter SCR's, used. $10ea.

Lambda FBH-24 Hybrid Regulators NOS -- $10 ea

Motorola NOS rectifiers, 50A, 100PIV, plate mounted. 2ea MR1201FL &
MR1201FLR (a bridge worth)-- NOS $10 all

Motorola NOS TIP34A 10A 60V TO-218 PNP Power Transistors. 4/$1 See
at:
http://photos.yahoo.com/bc/marv_email/vwp?.dir=/Jpegs&.dnm=TIP.jpg&.src=p
h&.view=t&.hires=t

Sarkes-Tarzian Model 78D center-tapped Selenium Rectifiers. NOS! $5ea

Sarkes-Tarzian M500/1N1084 cartridge rectifiers (These are used in
some old Collins radios) 4 for $10
Sarkes-Tarzian M150 cartridge rectifiers -- 6 for $10

Sarkes-Tarzian cartridge rectifiers, $2 ea:
20LA
10LF/1N1089
30L
30LF
40LF
10M/1N1081
20M/1N1082

Westinghouse 6-1-1B/1N1188 3 Phase 600V 35 Amp rectifier assembly with heatsink. Unused but, heatsink is tarnished from long storage $10.

Westinghouse NOS, 80A, 1000V house-numbered SCR's $15ea.

Westinghouse NOS, 20A, 1000V house-numbered Rectifiers $4ea.
All of the above plus shipping, if necessary, naturally.

Unknown Mfgr. hermetically sealed rectifier assemblies: V-122 & BU1017 $2 ea

********** Old Radio Books & Catalogs **********

JBL professional products binder, late 1980's. Consists of individual data sheets plus about 20 technical notes in a 3-1/2" thick,
Orange JBL 3 post binder -- in excellent condition, weighs abt 6 lbs. $75

Know your Oscilloscope by Middleton, Howard W Sams, 4th ed 1987. 192 pages, good condition. $5

Radio Amateur Callbook V62 #1 -- US & DX listings 1984. Just a bit of wear at the corners. $10 (2 books)

RF Circuit Design by Bowick, Howard W Sams, 1982 first edition, first printing. Softbound, good condition, owner's name tag on frontleaf, a few pencil notes inside. 175 pages. $10

Applied ECM, Vol. 2 by Van Brunt, EW Engineering, cpy 1982, 2nd printing 1985. Hardbound, excellent condition, 630 pages. $20

Engineer's Notebook 2 by Mims, Archer, First editon, first printing 1982. Softbound large format, good condition $10.

The Practical Handbook of Amateur Radio FM & Repeaters by Pasternak. Tab books, cpy 1980 2nd prntg 1981. Very good condition, 538 pages. $10

Handbook of Electronic Communication by Gary Miller, Prentice Hall 1979. Hardbound, very good condition, owner's name written on frontleaf, 339 pages. $7

Ham Radio Humor by Johnson, Johnson 1977. Very good condtion, 92 pages. $4

Understanding Television by Kennedy, Sams, 1st ed, 1st prnt 1976. This was a library book and the cover is damaged where a hard jacket was removed. Insides are very good, 128 pages, $5

RCA COS/MOS Integrated Circuits Manual (CMS-271), 1972. Paperback 224 pages. $5

101 Ways to Use your VOM & VTVM by Middleton -- Howard W Sams 2nd ed, 2nd prntg 1967. Good condition 144 pages. $5

Handbook of Military Infrared Technology by Wolfe, US Navy, 1965. Hardbound, very good condition, except previous owners name written large on front edge. 900 pages. $30

Radio Amateur Callbook V41 #2 -- DX listings only, 1963. Front cover a bit torn up and it looks like something heavy was resting on it for 20 years. Insides OK. $4

RCA Transistor Manual SC-13, 1967. Paperback. Good condition 540 pages. $10

GE Transistor Manual 7th edition 1964. Paperback. Good condition 650 pages. $10

Having Fun with Transistors by Buckwalter -- Howard W Sams. Good condition 127 pages. $5

Amateur Single Sideband by Collins Radio. 1962 Hardbound. Excellent condition except owner's name in ink on p.106. 143 pages. $60

Allied Electronics Data Handbook. Lots of formulas. Water damage on cover and about 1/2" into edges, no pages stuck. 1962. $2

International Crystal Mfg. Catalog 1962 $15

Understanding Transistors by Allied Radio. 1962 First Edition, first printing. Good condition 96 pages. $10

Varactor Applications by Penfield & Rafuse, MIT Press 1962. Hardbound, good condition with original paper jacket under plastic cover, owners name on frontleaf and on two edges, 620 pages. $25

Semiconductor Diode Parametric Amplifiers by Blackwell & Kotzebue, Prentice-Hall 1961. Hardbound, very good condition with original paper jacket under plastic cover, 190 pages. $20

Magneic Amplifier Circuits by Geyger, McGraw Hill, second edition, 1957. Hardbound, cover ripped at spine, previous owner(s) info inside front, insides good. 392 pages. $20

Hycon Crystal Filter Catalog, 1957 $10

Heathkit Catalogs
   1954, 55, 56, 57, 58, 59 plus Winter '58, Fall-Winter '62-63,
   Xmas '89 + Winter, Spring, Summer '90 $120 all

Handbook of PREFERED CIRCUITS
 Navy Aeronautical Electronic Equipment
 vols. 1&2 (1955 tubes & 1962 transistors)
 very good condtion $20

Television by Zworykin and Morton, McGraw Hill 1954. Hardbound, some wear at the top and bottom of spine, insides in very good condition, 1037 pages. $75

40 Uses for Germanium Diodes by Sylvania Electric Products. First edition, first printing, 1951. Cover separated, some writing on cover & frontspiece, otherwise good condition. 47 pages. $7

Electronic Shortcuts for Hobbyists by Sylvania Electric Products.

Second edition, first printing, 1951. Cover separated, otherwise good condition. 35 pages. $7

Alternating Current Circuits by Kerchner & Corcoran, Wiley 1951. Hardbound, very good condition, owner's name marked out on inside front cover, 600 pages. $10

Electrical Fundamentals (AC) TM11-681 US ARMY Technical manual. December 1951. Good Condition except for water damage on front edge; no pages stuck nor ink bleed. 231 pages. $7

Very High Frequency Techniques by Radio Research Lab Harvard University, McGraw Hill, 1947. Hardbound, cover a little worn, insides in very good condition, owner's name on inside front cover & frontspiece, 550 pages. $30

Circuit Analysis of AC Power Systems Vol. 1 by Clarke, Wiley cpy 1943 fourth printing 1950. Hardbound, very good condition, owner's name marked on inside front cover, 540 pages. $10

Surplus Radio Conversion Manual Vol. 2 1948 Good condition, 125 pages. $15

Fields & Waves in Modern Radio by Ramo & Whinnery, Wiley 1944. Hardbound, very good condition, owner's name written inside front cover, a few pencil marks in text. 500 pages. $20

Radar Electronic Fundamentals T.O.16-1-195 US Navy Technical manual. June 1, 1944. Good Condition except for water damage on front edge; no pages stuck nor ink bleed. 474 pages. $10

Radio Fundamentals TM11-455 US ARMY Technical manual. 22 May 1944. Good Condition except for owner's sticker inside front cover and a little writing on title page. 333 pages. $20

Hyper and Ultrahigh Frequency Engineering by Sarbacher & Edson, Wiley 1943. Hardbound, cover ripped at spine, insides good. 640 pages. $20

Tuned Circuits by J.M. Quinn, 1943. Small hardcover book 52 pages. Very Good condition, one page is punched with Los Angeles Public Library ID. $7

Most Often Needed 1926-1938 Radio Diagrams, originally published by Supreme Publications 1941. This is a REPRINT, by Vintage Radio. 240 pages, solid schematics! Like new, $15

Radio Television Supply Company catalog #15 (1940?) (they used to be in downtown Los Angeles). Small tear at the top of the spine, otherwise in very good condition.
256 pages. $15

RCA RC-14 Receiving Tube Manual 1940. Front cover rough and half of spine cover missing. Insides good. 255 pages, $10

ARRL Pacific & Southwestern Division convention program, San Francisco, CA, September 1939. Water damaged but, no pages stuck & quite readable otherwise. 16 pages. $10

Amphenol Bulletin No. 59-J, September 1939. Good condition, 6 pages, $10.

Hadley Transformer catalog No. T6, no date but, looks pre-WW2. Good condition, 15 pages. $20

Kenyon Transformer catalog 1939. Good condition, 15 pages. $20

Cornell-Dubilier Capacitor catalog #161, 1938-39. Very good condition, 39 pages. $30

RCA TT-3 Air-Cooled Transmitting Tubes 1938 copyright
overall good condition w/slight damage at top & bottom of
spine & first 20 pages of lower right corner. 192 pages -- $20

Radio Supply Company catalog #10 1938? (they used to be in downtown Los Angeles) Front cover loose, back cover missing. 160 pages $10

Radio Television Supply Company catalog (1937?) (they used to be in downtown Los Angeles). A couple of spots on the cover otherwise in very good condition.
172 pages. $15

Television by RCA, Vol. 1, RCA Institutes, 1936. A collection of papers concerning the genesis of television. Softbound, a couple small tears at the bottom of the cover, insides in very good condition, 452 pages. $250

Advanced Laboratory Practice in Electricity and Magnetism by Terry & Wahlin, McGraw Hill, Third edition, 1936. Hardbound, 318 pages. $7

Radio Supply Company catalog 1934 (they used to be in downtown Los Angeles)
-- a little smudging on the back cover and two middle pages torn on the
edge but, otherwise in fine condition. There is a sticker from the (original?)
owner on the first inside page. 85 pages, the last 10 or so of which are
receiving and transmitter tube data from the era. $15

5 Meter Radiotelephony by Frank Jones -- This is a REPRINT of a 1934 booklet
Excellent condition 20 pages or so $4

Elin company overview book 1932
very good condition except cover is almost loose
Text is in GERMAN. Lots of photographs of electrical equipment,

tools, machinery, and construction projects.
128 pages $4

Inca (Phelps-Dodge) Transformer catalog No. L-31 (1931?). Good condition, 8 pages. $25

Radio Amateur's Handbook Ninth Edition by the ARRL, 1931. Has a typewritten note glued to the frontspiece stating that it belongs in the radio room of the USS Maryland (which was moored just inshore of the USS Oklahoma on the first Pearl Harbor Day). Cover somewhat rough, torn at spine, index and first two chapters missing up to page 24, otherwise good, no writing nor torn pages. Softbound, about 200 pages left. $500

Radio Doings Call Book Spring 1931 edition
cover taped at spine, otherwise very good
50 pages $7

Official Radio Service Manual 1930, originally published by Gernsback Publications. This is a REPRINT by Vestal Press, 1984. Schematics & some service info. 352 pages, like new $15

Radio Amateur's Handbook Sixth Edition by the ARRL, November 1929. Cover a little worn at edges and on spine otherwise excellent, no writing nor torn pages. Softbound 225 pages. $125

Radio Doings Vol 15, #1 June 1929 edition
cover, first two & last two sheets missing otherwise o.k.
pages 5-62 remain $4

All of the above plus shipping, if necessary, naturally.

The 2ch Maxtrac radio I have has a 5-pin male connector on the back. The older units came with this; the newer ones use a 16-pin dual-row connector. Pin 1 is towards the outer edge of the radio and is ground. Pin 4 is the speaker audio pin. You could probably fashion a couple of connectors, or wire-wrap something on them and do away with the connector. I'd even consider soldering a pair of wires to the pins and using a 1/8 inch jack and plug arrangement for your external speaker.

There are usually half a dozen 5-pin accessory connector kits for sale on eBay, usually with sufficient female pins and jumper wires to connect an external speaker. Look for Motorola Maxtrac and you'll find both varieties. One deficiency with this connector is that you can't disconnect the internal speaker when you attach an external one; you need the 16-pin model radios to accomplish that task.

Having said that, My Maxtrac service manual lists the 5-pin plastic HOUSING (no female connector parts) as p/n15-80076M01, but since you need the female socket pieces, you'd still need more information. I don't know if such a small order is worth bothering Motorola for. You could probably buy the contact pins at Jameco - this is a standard Molex connector.

Hope this helps.
Bob M.

GE Portables

GE MPA VHF 146-162 full system keypad. Radio is as new and is almost perfect. The only flaw is the grip tape under the PTT button is peeling at the edges. Otherwise perfect. The next feature is, The radio is Key pad programmable. 16 channel scan and front face programmable. Has a like new battery and a good rapid charger. Also a belt clip. $500.00

GE MPA VHF Scan 157 - 174 split. 192 channels. Nice radio 8.5 condition with battery and standard charger. I have it programmed down to 154 MHz
with no trouble but will go no lower. $225.00

GE MPA UHF Scan 440 - 470 192 channel scan. Radio works great. A little paint wear on the edges but I have seen worse. With charger and battery. $225.00

GE MPD select model 470.- 488 MHz. 48 channel Alpha-Numeric display. With battery and standard charger. 7-7.5 $85.00

GE MPD scan VHF 150.8 174. 48 channel alphanumeric display. These look good and come with a battery and standard charger. 125.00 each.

MPD Voice Guard VHF system model with full keypad. 48 channel alpha display. With battery and standard charger. $135.00

GE PCS VHF 2 channel. Like new 9.5-10 condition. 150 -170 MHz. With battery, antenna, leather case, and pocket charger. $100.00 each. 2 available.

GE PLS VHF 16 channel. These average an 8 - 8.5 condition. 150 -170 but I have programmed these in the ham band with no trouble. These have battery, antenna, and standard charger. I will program these since it is suitcase programmer only. $100.00 includes programming. I have several of these.

GE PLS UHF 16 Channel. 8 to 8.5 also. 450 - 470 split but I can program
these to the ham band. With battery, Antenna, and Charger. Includes
Programming all for $100.00 each.

GE MPS VHF Like new 10 channel. With new battery, new antenna, and a
standard charger. $65.00

GE MPS VHF 12 channel. Set of 4 that talk to each other with all new
batteries and antennas. All in a rack charger. $225.00

GE Monogram UHF 10 channel portables. 3 radios 2 new batteries and 1
good battery. With 1 dual slot charger. $200.00 all 3 radios.

GE Monogram VHF 10 channel portable. 157-179 split. ex CSX radio. I
sold this radio a year ago but have taken it on trade. Condition 8
with belt clip and charger. I had this radio run for stolen from CSX by
a local CSX Special Agent when I first bought these in a lot and was told
that it had been sold at salvage. Perfect for a RR Museum or shortline on a
budget. This could also be programmed for marine frequencies. Like new tall
Battery. $100.00

GE Mobiles

GE Phoenix SX VHF 128 channel scan. With Mic, Has all 8 proms.
$100.00

GE MVS VHF 128 channel scan. 136.-153. Split but I have programmed
these as 150. - 174 split and they work fine. This radio has 8 modes of
16 channels. Includes Mic but no power cord or bracket. $175.00

GE MVS 800 conventional 2 channel. With mic tested OK $95.00

GE MLS UHF 8 channel. With Mic, power cord and hang up box. MLSU240
450. - 470 Looks good. $125.00

GE Mastr exec II VHF 75-watt mobile complete with accessories. $60.00
each

GE Mastr exec II VHF Mobile extender (repeater like Pac rt) for Mastr
II or Delta. $20.00 each

GE Mastr exec II VHF Mobile extender for GE Ranger (only Exec II that
I have seen marked Ericsson) $65.00

.GE S550 head 16 channel looks good but not tested. $35.00

GE S700 head and complete Motorcycle cable set for Delta or Ranger. 16 channel model has short cable and some handle bar mounts. Mic included but no speaker. Not tested yet since I just got it in. $50.00

GE Mobile Vehicle Adapter for MPA, MTL, MPD, and TPX. This unit charges your battery and turns your portable into a mobile radio. (Convert a Com) With mic, speaker, and power cable. $100.00

GE Accessories

GE TQ 2310 suitcase programmer. Has PLS, Phoenix, Delta s/sx, Voice Guard, MPS, and Ranger. Printer is not working but I tried and it programs radios without the printer. Has manual for the programmer and the computer. Has Phoenix cable and Voice guard cable. All in the original GE case tested and working. (except printer) $850.00 (I found a printer and will test it this week)

Mastr II control cable. $8.00 each

Mastr II head for mobile repeater operation. $5.00

Mastr II Mic. $5.00

Mastr II 8 channel tone boards. $5.00

Mastr Exec II VHF receive section. $20.00

Mastr Exec II VHF Exciter. $18.00

Mobile Repeater cable for Mastr II. $10.00

Mobile Repeater cable for Delta or Ranger. $30.00. I have seen programming cables made from these.

GE white Versatones, 103.5, 162.2, 173.8, 179.9, 186.2, and 203.5. $4.00 each. I have a large amount of 203.5,186.2, 179.9, 173.8, and 162.2. If you buy 10 = $3.00 each. Buy 15 =$2.50 each. Buy 50 = $1.50 each.

GE Mastr II Icoms. EC = $5.00 each, 5C = $10.00 each.

GE Delta cables. These are the downloading type used with the S820 heads. And all other heads $40.00 each

Delta mounting plates. $10.00 each

Ranger mounting plate. $15.00

GE S-550 / 500 and others mounting brackets. $5.00 each

GE MPA, MPD, MTL standard Speaker mic. $25.00

GE PCS Universal charger. With wall transformer $20.00 each

GE MPA standard chargers. $20.00 each

GE MPA Rapid chargers. $30.00 each

GE MPI desk charger with wall transformer. $10.00

GE MPI Rack charger, 8 position. 25.00

GE MPI Mobile battery charger, Rare. $20.00

GE Battery discharge analyzer. For MPA, MPD batteries. Attaches to a rapid rack charger with a DB 15 cable and uses a MPD body to attach a battery to. Has LED readout in display area of MPD body to tell discharge rate. Another rare GE goodie. $45.00

GE shoulder strap like new, attaches where belt clip is. $15.00

GE Belt clips. $10.00 each

GE Voter. Has 9 total rec. cards and 2 TX cards. With extender card and power supply / speaker. $300.00

Other Radios and Accessories

Motorola Saber III VHF 146-174 split. 120 channel Alpha-Numeric display with secure - net module. (no out of country sales) des I think. I have been using this all week and talking on the ham band to test this radio. Battery has lasted all week during drive time so it seems good. With rapidcharger and big battery. $500.00 or trade for a VHF MRK II

Icom 3200 a Dual band ham radio. Has box and manual but no mounting bracket. Has tone squelch board installed. $200.00

Icom IC 24-at Dual band Portable. In good shape, Display has no scratches and only 1 small patch of the paint is peeled off of the back of this radio. With manual and wall charger. $165.00

ADI AT 201. 2 meter portable nice like new and in the box with the manual. Has 5 watt battery and wall charger. $90.00

Yaesu ft 2400 2 meter mobile. Has Mounting Bracket and manual. Nice 2 meter Radio. $125.00

Maxon 5050a Low band portable pair. Like new condition with 1 battery charger but I will split up the pair if someone wants 1 radio only. 6

channels programmed for 10 meter ham band on 2 repeater pair and 4 simplex frequencies. 2 radios and 1 charger $195.00

Marconi UHF portable. 16 channel scan with NOS battery. Made by Midland. $75.00

Midland 70-336B VHF Mobile radio. 8 channel scan. with mic.$75.00

Motorola GP300 VHF 2 channel. on ham band. Has battery OK condition and charger. $150.00

Motorola Mitrek VHF high 110 watt drawer only. $50.00

Motorola MT500 VHF nice shape. Crystals removed but I have 1 set of crystals for each radio. Also have a working battery and charger for each. I have 4 of these. $50.00 all

Uniden SMS 825 TS, 800 MHz Dash mount radio. $55.00

Voter from IMTS phone system. 2 rec. and 2 TX cards. $40.00

Maxon Rapid Rack charger for 0510/0520 radios. Think they will work with the sp2000 as well.$35.00

Consignment section

This area is for a few friends who like those other radios you know "Motorola" They are good people and I will pass along any trades you may wish to make.

MOTOROLA X9000 VHF 50 watts, alphanumeric head, Siren complete. $425.00

Motorola single rapid chargers for HT600, MT1000, P200. $25.00 each

Motorola HT1000 UHF Intrinsically safe Re-cased looks new. 16 channel scan with charger. $425.00

Motorola P200 UHF high power. 6 channel. $150.00

EF Johnson Challenger UHF 80 watt trunk mount, 99 channel Alpha-Numeric head. $225.00

Want List not FS
Extra parts for suitcase programmers. Data modules, Printers, cables, proms, Anything you have extra. MPA or MPD portables what do you have and what do you want for them? Johnson scorpion program cable.

Terms
All prices are plus shipping from 40201. All items are used unless noted and only have a no DOA warranty if I say it works. If I say

not tested your on your own. If I think it may be bad I will not list
it.
I take cash, Postal Money Orders, Paypal, and checks but I hold them
for up to
two weeks to clear before I ship. If you have a question E-mail me.

Hewlett Packard 427A (transistorized) volt-ohmmeter with nice 4" mirrored
scale. Reads as low as 10 mV full scale on AC and up to 1000V AC or DC.
A spare battery and an original HP manual are included -- $75 May be
seen at:
http://photos.yahoo.com/bc/marv_email/vwp?.dir=/Jpegs&.dnm=HP427A.jpg&.sr
c=ph&.view=t&.hires=t

Hewlett Packard Strobline Demonstrator. A rare sales tool from the late
1960's for dot matrix readouts built in a 5"x3"x11" deep series 1 HP
cabinet. Complete your HP collection now! Working! $100 May be seen

at: http://photos.yahoo.com/bc/marv_email/vwp?.dir=/Jpegs&.dnm=HPDemo.jpg&.src=ph&.view=t&.hires=t

Harrison (later HP) 865B 40V .5A Max. Constant Voltage-Constant Current Laboratory Power Supplies $25 ea $45 pair May be seen at: http://photos.yahoo.com/bc/marv_email/vwp?.dir=/Jpegs&.dnm=HP865B.jpg&.src=ph&.view=t&.hires=t

Hewlett Packard 4260A Universal Bridge -- measures resistors, capacitors and inductors. Also checks inductor Q and capacitor D using either internal 1KC source or external oscillator.   Has "semi-auto" nulling feature in L&C modes. 6" hi x 8" wide x 12" deep overall -- 115/230 VAC powered. $250 May be seen at: http://photos.yahoo.com/bc/marv_email/vwp?.dir=/Jpegs&.dnm=HP4260A.jpg&.src=ph&.view=t&.hires=t

McMurdo Silver model 903 Wavemeter coils: #100, 102, 103, 104 ,105 & 106 in original boxes. I also have the empty box from coil #101 and the instruction sheet for the Wavemeter.... and no, I do NOT have the meter itself. $30 all

Kepco Dual PCX 15-1.5 MAT 15 volt 1.5 amp max lab power supply in Kepco PC-4 cabinet. Individual voltage & current meters (4 total). Ten turn voltage
adjust -- $70 May be seen at: http://photos.yahoo.com/bc/marv_email/vwp?.dir=/Jpegs&.dnm=Kepco15V.jpg&.src=ph&.view=t&.hires=t

Kepco Dual PCX 40-0.5 MAT 40 volt .5 amp max lab power supply in Kepco PC-4 cabinet. Individual voltage & current meters (4 total). Ten turn voltage
adjust -- $70 May be seen at: http://photos.yahoo.com/bc/marv_email/vwp?.dir=/Jpegs&.dnm=Kepco40V.jpg&.src=ph&.view=t&.hires=t

Polarad 1207A Microwave Signal Generator 3.7-8.4 GHz. $75 May be seen at: http://photos.yahoo.com/bc/marv_email/vwp?.dir=/Jpegs&.dnm=Pol1207A.jpg&.src=ph&.view=t&.hires=t

Pomona #2399 cast Aluminum Boxes (2�" x 1-1/8" x 7/8" o.d.) w/ gold plated SMA
female connector on each end.   New (in factory sealed plastic bag) -- $10 ea

Sierra Electronics model 164B Bi-Directional Power / SWR meter (looks just like a URM-120) with 181-A-1000 element -- covers 200-1000 MHz with four power ranges: 10W, 50W, 100W & 500W full scale. Case is in good condition finished in "Howard Hughes" green -- leather carrying strap is in very good condition. N connectors (M&F) -- $80 May be seen at: http://photos.yahoo.com/bc/marv_email/vwp?.dir=/Jpegs&.dnm=Sierra.jpg&.src=ph&.view=t&.hires=t

TEI model 28-200 relative power / SWR / Field strength meter -- screw in whip antenna is missing. UHF connectors. $7 See at:
http://photos.yahoo.com/bc/marv_email/vwp?.dir=/Jpegs&.dnm=swr.jpg&.src=ph&.view=t&.hires=t

All of the above plus shipping, if necessary, naturally.

I am QSL manager for UU1A and Ken sent me a bunch of IRCs to sell for him. I have 128 properly stamped IRCs and 42 without any stamps (that I'm told are good). All are the recent small size for airmail response (with postmark dates of 2000 and 2001 mostly). These are still valid for an indefinite period (unlike the news ones that expire in 5 years). Ken is asking $1 each for stamped ones and 80 cents each for unstamped ones (plus my postage to mail them to you).

******** Microphones, Mike connectors & cables ***********

Astatic Dynamic Mike -- This is either a Cardioid or noise cancelling as it has some small holes in one side. It is black about 5-1/2" long with a Cannon connector (M) in the bottom end. The model number is either invisible or rubbed off. The finish is well worn but, I plugged it into a Shure mixer and it seems to work fine. $20

University Model 70 Omnidirectional Dynamic mikes. They are black & light gray finish, have seen a lot of use and there are a pair of these. One has a Cannon connector (F) on the end of a cable and the other is missing its cable so I couldn't easily test either one. Asking $20 for the pair.

Motorola 4-pin Microphone connectors 28-16730 (similar to Amphenol MC4M) -- NIB $5ea

Motorola 0180700T14, 4-wire coily cord mike cable assembly with a mike connector as above on one end and a spring strain relief on the other. There are some flat pins on the free wire ends -- NIB $15

NOS coily cable for a Yaesu MH-27 mike (may fit others). Later version with the RJ connector at the radio end. $10.

All of the above plus shipping, if necessary, naturally.

*** Homebrew Radio things ***

Many hams build things with a large investment in time & parts that are worth far less... later. Here are some items from the estate stuff I've been selling that fit that description -- priced accordingly.

Unless noted, most of the items below are built on PCB material and most of the enclosures are made by soldering pieces of PCB material into a box -- not all sides may be present! Batteries not included! A few of these devices come with schematics, mostly not. The wiring is all open enough that you can generally see what is going on.

Battery drainer -- LM317K (TO-3) plus a pot wired as a current sink to drain batteries -- 4" x 3" x 1.5" -- $2

PL Tone generator -- Wein Bridge Oscillator powered by two 9 volt batteries. - $3

Touch Tone Encoder -- Western Electric Touch Tone Dial mounted in a 4"x4"x2" metal enclosure with power switch. Has a 4 pin DIN connector plus matching cable terminated in a 1/8" mini plug. $4

Some kind of test oscillator with a 556, two pots with anodized gold (colored) knobs, pwr. sw.. LED,. & Banana jack outputs -- $4

HF Harmonic Filter built in a 5" x 2.25" x 2.25" LMB Aluminum box. UHF connectors. Probably good for 100W. $5

60dB Sampling Tap -- HN female connectors for the main line and a BNC for the tap. 1KW in the line puts 1mW to the tap. -- $10

435 MHz power splitter with (3) N connectors. This is made out of brass sheet stock and is about 15" long by 1" square. $10

Varactor multiplier (unfinished) -- looks like it's designed for 144 to 432. Built in a 3.5" x 2" x 7/8" extruded aluminum case -- top plate missing. Silver plated coils, Johnson 189-6-4 caps. It think it is complete execpt for the input and output leads. $10

Some kind of VHF thing just started. Pomona 4"x2.5"x1.5" cast box with a couple 160-104 capacitors, BNC connectors, a miniature 50K bourns pot., 6 capacitors mounted to gold plated terminals with a very pretty gold flashed internal shield structure. Nothing is soldered -- this was just started. $10

Antenna Noise bridge? -- Pot & Cap plus 4 transistor circuit mounted in a 5" x 4" x 2" enclosure. BNC connectors marked ANT & RX. Pwr SW. & Led Powered by a single 9 volt battery. - $10

Two Meter to 24-28 MHz converter (I think!) -- 5" x 4" x 1.75" -- $10

A VHF thing -- Two trombone lines adjustable between 4-6" with a transistor connected between them plus a Phasotron 50 ua 2" round meter on a BNC cable with a small loop w/a diode. -- $10

NTSC Frequency reference -- I think this was a QST project in the early 1980's. PCB in 4"x5"x8" metal case (top missing) w/feet, AC line powered. -- $15

All of the above plus shipping, if necessary, naturally.

I plan to bring the following Collins Equipment to Arlington HamCom next week end. I will be located at E9-10.

1) 75S3B late serial number (85XXX), with t-9, round emblem. Nice condition with someone's SS# engraved on the back. Also has extra RCA plug installed on rear, but nicely done. No extra filters.

2) 75S2 wide brow, nice condition, recently aliened by Bud Whitney.

3) 75A4 good condition, with 4to1 driven, extra NOS 1500 filter, sold separately or with unit.

4) 516F2 power supply, no cabinet, recently solid stated by Bud Whitney. Very nice condition.

I may bring a KWM 380 and a nice KWM-2 also. The 380 was purchased from Wayne Spring a couple of years ago, but not used. The KWM-2a was recently repaired and aliened by Bud Whitney.

If you have an interest, you can contact me there or call 281-291-9226

Can anyone help me with a pair of manuals?   I need an owners manual for a TenTec Triton IV digital, and a Kenwood RS-1000. TenTec wants too much $$ for theirs, and Kenwood's manual is not available online. Please email me back at vic303@lycos.com

73's and TNX!
Vicky

MOTOROLA GP300 VHF W/ EXTRAS - NO RESERVE -- LAST DAY!!!!

You are bidding on one, Motorola, GP300, 8 channel, 5 Watt, VHF portable radio. It is model # P93YPC20D2AA. The radio is used, but has been re-housed and checked by a local Motorola Authorized Service Center to meet all factory specs. Included in the auction is one Motorola Speaker Mic, HMN9030A, in perfect condition. Also included, but not pictured, is one, single-unit charger - BRAND-NEW IN THE BOX!!! The battery is Intrinsically Safe, in excellent condition (according to the Alexander Battery Analyzer), with a year 2000 date code. I prefer PayPal, but will accept Billpoint, Money Orders, and Cashiers Checks. NO Personal Checks. Please feel free to e-mail me with any questions. Winner must contact me within 24 hours of auction close. Good luck and thanks for looking!

FOR SALE:
1991 Buick Roadmaster Estate STATION WAGON. White w/woodgrain. Moonroof. All power. Leather interior (Tan). Every option available. Climate control, power/heated mirrors. In excellent condition. High end stereo speakers installed (4 top of the line Pioneer 6"X9") and a big Bazooka sub woofer.

All radios and accessories installed on independent fused 12 volt wire directly to the battery terminal. NEW 5.0 Liter V8, EFI, 4 spd Auto Transm, 2 way tailgate, tinted windows, Roof rack, Mechanical temp gauge, 6 alloy wheels, new tires: 4 self sealing and 2 snows all mounted on factory alloy wheels. (Cost $800) Remote locks/alarm system with motion detector. Have brochure and service manual.

New motor from GM just installed. Not rebuilt, NEW from the GM Goodwrench factory. Has 300 miles on it.

6 monoband and one triple band antennae installed. Every antennae has RG-8 Mini cable (heavy low loss, not that thin RG-58).

Asking $5500.

OPTION: I will sell this car with the 2 Kenwood triple band radios installed for $2000 extra. The 2 heads are mounted on the dash, wires for chassis's go to passenger seat behind driver. 2 meter VHF, 6 meters, 440 mhz UHF, 220 mhz, 10 meter FM, and 1.2 gighz. (100/200 memory channels each band, pl installed in both, both opened for tx/rx everywhere, hidden 900 mhz receive capable.)
TM942A Have all original manuals and mod's list. Remote Kenwood speakers included.
I will only sell the radios to a licensed Amateur Radio Operator (HAM).

I will have the car for sale at the upcoming LIMARC hamfair in Bethpage 6/9/02.
Or call or email me. Selling because I bought an Audi Quatro.
Car is located in Middle Island.
Can email photo's of car.
Please respond to my email or phone# below: (Do not hit "reply", do not post to the usenet newsgroup, I don't read it at all, ever.

I have for sale a very nice condition 75S-3.
Cosmetically and electronically it is in excellent
condition. I don't want to ship this receiver so
it is sold for pickup in the Arlington, TX area.
I can meet a buyer at HamCom this weekend.

Thanks,
Michael

Please if you have questions or want to make a trade contact me off list at my e-mail address. gundoc@i... Some of these lists are not swap lists and only tolerate my post because it is only once a week. To the group owners thank you for letting me continue

to post to the group.
Dean

GE Portables

GE MPA VHF 146-162 full system keypad. Radio is as new and is almost perfect. The only flaw is the grip tape under the PTT button is peeling at the edges. Otherwise perfect. The next feature is, The radio is Key pad programmable. 16 channel scan and front face programmable. Has a like new battery and a good rapid charger. Also a belt clip. $500.00

GE MPA VHF Scan 157 - 174 split. 192 channels. Nice radio 8.5 condition with battery and standard charger. I have it programmed down to 154 MHz with no trouble but will go no lower. $225.00

GE MPA UHF Scan 440 - 470 192 channel scan. Radio works great. A little paint wear on the edges but I have seen worse. With charger and battery. $225.00

GE MPD select model 470.- 488 MHz. 48 channel Alpha-Numeric display. With battery and standard charger. 7-7.5 $85.00

GE MPD scan VHF 150.8 174. 48 channel alphanumeric display. These look good and come with a battery and standard charger. 125.00 each.

MPD Voice Guard VHF system model with full keypad. 48 channel alpha display. With battery and standard charger. $135.00

GE PCS VHF 2 channel. Like new 9.5-10 condition. 150 -170 MHz. With battery, antenna, leather case, and pocket charger. $100.00 each. 2 available.

GE PLS VHF 16 channel. These average an 8 - 8.5 condition. 150 -170 but I have programmed these in the ham band with no trouble. These have battery, antenna, and standard charger. $90.00 each
I have 7 of these.

GE PLS UHF 16 Channel. 8 to 8.5 also. 450 - 470 split but I can program these to the ham band. With battery, Antenna, and Charger.

$90.00 each. Have 3 of these.

GE MPS VHF Like new 12 channel. With new battery, new antenna, and a standard charger. $70.00

GE MPS VHF 12 channel. 8.5 condition. New antennas and NOS batteries

Standard charger. $65.00 each have 2.

GE MPS UHF 48 channel. 8 = 8.5 condition, These have NOS batteries

And have 4 banks of 12 channels. These can go to the ham band. I have been

Using one of these on my ham repeater and it works great. $75.00 each

I have 8 of these.

GE UHF MPS 8 channel with 8 different tones. 8 different tones can be

Selected for each different channel. Battery and antenna. $65.00

GE Monogram UHF 10 channel portables. 3 radios 2 new batteries and 1 good battery. With 1 dual slot charger. $200.00 all 3 radios.

GE Monogram VHF 10 channel portable. 157-179 split. ex CSX radio. I sold this radio a year ago but have taken it on trade. Condition 8 with belt clip and charger. I had this radio run for stolen from CSX by a local CSX Special Agent when I first bought these in a lot and was told that it had been sold at salvage. Perfect for a RR Museum or shortline on a budget. This could also be programmed for marine frequencies.

Like new tall Battery. $100.00

GE Mobiles

GE Phoenix SX VHF 128 channel scan. With Mic, Has all 8 proms. $100.00

GE MVS VHF 128 channel scan. 136.-153. Split but I have programmed these as 150. - 174 split and they work fine. This radio has 8 modes of 16 channels. Includes Mic but no power cord or bracket. $175.00

GE MVS 800 conventional 2 channel. With mic tested OK $75.00

GE MLS UHF 8 channel. With Mic, power cord and hang up box. MLSU240 450. - 470 Looks good. $125.00

GE Mastr exec II VHF 75-watt mobile complete with accessories. $60.00 each

GE Mastr exec II VHF Mobile extender (repeater like Pac rt) for Mastr II or Delta. $20.00 each

GE Mastr exec II VHF Mobile extender for GE Ranger (only Exec II that I have seen marked Ericsson) $65.00

.GE S550 head 16 channel looks good but not tested. $35.00

GE S700 head and complete Motorcycle cable set for Delta or Ranger. 16 channel model has short cable and some handle bar mounts. Mic included but no speaker. Not tested yet since I just got it in. $50.00

GE Mobile Vehicle Adapter for MPA, MTL, MPD, and TPX. This unit charges your battery and turns your portable into a mobile radio. (Convert a Com) With mic, speaker, and power cable. $100.00

GE Accessories

GE TQ 2310 suitcase programmer. Has PLS, Phoenix, Delta s/sx, Voice Guard, MPS, and Ranger. Printer is working Has manual for the programmer and the computer. Has Phoenix cable and Voice guard cable. All in the original GE case tested and working. $850.00

Mastr II control cable. $8.00 each

Mastr II head for mobile repeater operation. $5.00

Mastr II Mic. $5.00

Mastr II 8 channel tone boards. $5.00

Mastr Exec II VHF receive section. $20.00

Mastr Exec II VHF Exciter. $18.00

Mobile Repeater cable for Mastr II. $10.00

Mobile Repeater cable for Delta or Ranger. $30.00. I have seen programming cables made from these.

GE white Versatones, 103.5, 162.2, 173.8, 179.9, 186.2, and 203.5. $4.00 each. I have a large amount of 203.5,186.2, 179.9, 173.8, and 162.2. If you buy 10 = $3.00 each. Buy 15 =$2.50 each. Buy 50 = $1.50 each.

GE Mastr II Icoms. EC = $5.00 each, 5C = $10.00 each.

GE Delta cables. These are the downloading type used with the S820 heads. And all other heads $40.00 each

GE delta Cables that have been cut to 2 foot long. Radio end with

power cables $5.00 each only have a few of these

Delta mounting plates. $10.00 each

Ranger mounting plate. $15.00

Power plugs for S500, S550, C500 etc heads. Good pulls $5.00

GE S-550 / 500 and others mounting brackets. $5.00 each

GE MPA, MPD, MTL standard Speaker mic. $25.00

GE PCS Universal charger. With wall transformer $20.00 each

GE MPA standard chargers. $20.00 each

GE MPA Rapid chargers. $30.00 each

GE MPI desk charger with wall transformer. $10.00

GE MPI Rack charger, 8 position. 25.00

GE MPI Mobile battery charger, Rare. $20.00

GE Battery discharge analyzer. For MPA, MPD batteries. Attaches to a rapid rack charger with a DB 15 cable and uses a MPD body to attach a battery to. Has LED readout in display area of MPD body to tell discharge rate. Another rare GE goodie. $45.00

GE shoulder strap like new, attaches where belt clip is. $15.00

GE Belt clips. $10.00 each

GE Voter. Has 9 total rec. cards and 2 TX cards. With extender card and power supply / speaker. $300.00

Other Radios and Accessories

Motorola Saber III VHF 146-174 split. 120 channel Alpha-Numeric display with secure - net module. (no out of country sales) des I think. I have been using this all week and talking on the ham band to test this radio. Battery has lasted all week during drive time so it seems good. With rapid charger and big battery. $475.00 or trade for a VHF MRK II

Icom 3200 a Dual band ham radio. Has box and manual but no mounting bracket. Has tone squelch board installed. $200.00

Icom IC 24-at Dual band Portable. In good shape, Display has no scratches and only 1 small patch of the paint is peeled off of the back of this radio. With manual and wall charger. $165.00

ADI AT 201. 2 meter portable nice like new and in the box with the manual. Has 5 watt battery and wall charger. $90.00

Yaesu ft 2400 2 meter mobile. Has Mounting Bracket and manual. Nice 2 meter Radio. $125.00

Radio Shack HTX 212 2 meter Mobile. 30 memories, Scan. Works great.

This was in my van before I added another MVS so I know it works.

$100.00

Maxon 5050a Low band portable pair. Like new condition with 1 battery charger but I will split up the pair if someone wants 1 radio only. 6 channels programmed for 10 meter ham band on 2 repeater pair and 4 simplex frequencies. 2 radios and 1 charger $185.00

Marconi UHF portable. 16 channel scan with NOS battery. Made by Midland. $75.00

Midland 70-336B VHF Mobile radio. 8 channel scan. with mic.$75.00

Motorola GP300 VHF 2 channel. on ham band. Has battery OK condition and charger. $150.00

Motorola Mitrek VHF high 110 watt drawer only. $50.00

Motorola MT500 VHF nice shape. Crystals removed but I have 1 set of crystals for each radio. Also have a working battery and charger for each. I have 4 of these. $50.00 all

Uniden SMS 825 TS, 800 MHz Dash mount radio. $55.00

Voter from IMTS phone system. 2 rec. and 2 TX cards. $40.00

Maxon Rapid Rack charger for 0510/0520 radios. Think they will work with the sp2000 as well.$35.00

Consignment section

This area is for a few friends who like those other radios you know "Motorola" They are good people and I will pass along any trades you may wish to make.

MOTOROLA X9000 VHF 50 watts, alphanumeric head, Siren complete. $425.00

Motorola single rapid chargers for HT600, MT1000, P200. $25.00 each

Motorola HT1000 UHF Intrinsically safe Re-cased looks new. 16 channel scan with charger. $425.00

Motorola P200 UHF high power. 6 channel. $150.00

EF Johnson Challenger UHF 80 watt trunk mount, 99 channel Alpha-Numeric head. $225.00

Want List not FS
Extra parts for suitcase programmers. Data modules, Printers, cables, proms, Anything you have extra. MPA or MPD portables what do you have and what do you want for them? Johnson scorpion program cable.

Terms
All prices are plus shipping from 40201. All items are used unless noted and only have a no DOA warranty if I say it works. If I say not tested your on your own. If I think it may be bad I will not list it. I take cash, Postal Money Orders, Paypal, and checks but I hold

them for up to two weeks to clear before I ship. If you have a

question E-mail me.
Dean

Hello-
    For Sale, prefer pick-up near Houston, Texas area :
        IC-451A with original box, manual and mic. In very good cond. Has
some upgrades such as a transistor switch neatly installed for keying an
external amp, plus an external coaxial relay which is doing the TX-RX
changeover and feeding thru a GaASFET preamp. All neatly done and easily
removable. Quality relay and preamp. This rig really hears well. 375.00 for
all.
        TS-700A in good condition with manual copy and hand mic. Has ARR
GaASFET preamp neatly installed. Really hears well. 325.00 for all. Also

have some spare modules { all of the internals from a nice TS-700A that the front panel was destoyed in car wreck}, boards and a complete parts unit TS-700A { I say parts unit, my intentions were to repair it} will sell all for 125.00

Several KLM 144-16-LBX antennas { used} and two of the M2 18XXX conversion kits { NIB}.

Trylon T-600-64 never used, assembled with extra heavy rotor, bearing plates { 3 each}

7213 { RCA 1500 watt UHF tetrode} cavities and tubes, several styles, for 144, 220 mhz.

Contact Byron WA5THJ at 281-331-1899. Thank you.

I have for sale a very nice condition 75S-3.
Cosmetically and electronically it is in excellent
condition. I don't want to ship this receiver so
it is sold for pickup in the Arlington, TX area.
I can meet a buyer at HamCom this weekend

Thanks,
Michael

Hi there,

If you've programmed a Motorola People Finder in the past and can remember some of the basics, I'd like to pick your brain with some questions.

I have an NOS unit here (purchased second hand), with most of the information. The internal radio is a modified GP-300 rf package on a board. I'd like to ask some programming questions about it.

I'd also like to know if you've used an Alpha Mate with it and or the external VDT or smart term.   I'm setting up a basic paging system and hope this unit will work for my needs.

I have what I think is all the proper software and connections... I might
have a question or two about the various programs you might have used.

thanks much
skipp
skipp@pilot.ucdavis.edu

Hey Hams,

On my ham page I added a really slick message board that some of you may enjoy. If anything, it's fun to look at the really neat interface.

Anyway, I tossed a couple of messages on it. It's there for all to enjoy.

http://n6www.cjb.net

Click on Message Board near the top.

Let me know if there are any other discussion sections you'd like me to add to the page.

I also have liks to ULS, IRLP, Homebrew, QRP, and ham training sites for those interested in seeing some of the fun places I've found along the way.

Also, I'm hanging out on IRLP node 396 for anyone looking to say hi! It's about 10:30pm Pacific time on Tuesday May 21st... I'll probably be on for another hour or two. It would be fun to hear anyone's take on my new pages. I'm not a webmaster, so I'm learning.as I go...

73's

Jason - N6WWW - I'm 404 lol

WANTED: DEAD OR ALIVE - Still need battery for Kenwood TH-21AT Handi.

I have a working TH-21AT handi but it has no battery. None are available from the various battery venders but they say that they can insert new batteries in the old shell. I am searching for an old battery (PB-21H or PB-21) that fits the TH-21AT and has a good shell for refill purposes.

Please let me know by email if you have one that is available.

Thanks for reading,

AL

Hey Al, I was noticing at the shop yesterday, that I have two battery packs,
with mini plug charge plugs on em and they look like they might hold 4 AA
batterys..they slide on from the side...anychance that is what you are lookin
for?  I dont know what they came from...??  Murray

Al....you might try here too http://abatterystore.hypermart.net/index.html
I've found batteries there, I couldn't locate anywhere else. Its right there
in Greenville, so maybe you already tried. 73

I have a dead PB21 battery. I'd trade it for the receive xtal for a TH21AT.
OR a dead radio "with a good xtal".

But have you seen pictures of the Chicken Cam??? K9JAC send me some and
they're very cool! I should try to see if he'd give me permission to post
them on my web page...

But yes... very cool hamfest pcitures wd5bjq! I really like the one with
the shack with the huge pvc antenna dish on it!

I'm still lookin' to buy a used hf transceiver or transmitter/receiver
combo.

Something like the Pixie2 by H.S.C. or the GM40, WM-20 by Small Wonder Labs,
the 49er by Norcal QRP Club, or the SP-750 from Lectrokit.

With my limited finances I thought it would be a great way to experience
different modes (I've only used VHF/UHF FM), and I would love to find
something that can help me learn how to homebrew while giving me a working
example and some radio fun!

Thanks!

I'm posting this for a friend who currently has no internet access.
It's in great condition. Never used, except to 'check it out' when bought several mnths ago.
Only $500 + shipping.

Please reply via email.
Thanks.

Re: Swan and Siltronix Radio replacement power cables.
"The current 12 pin "Cinch-Jones" power cable socket part number."

Cinch-Jones no longer makes this connector "socket." I do a lot of Swan and Siltronix radio work, so I've done the home work for you. Molex sells the same type connector.

Just for your mental notes...

The Siltronix and Swan power connector 12 pin socket is available from Newark as part number 14F2451

This is a current Molex 3300 Series Socket with Cable Clamp S-3312-CCT

OK you Swan and Siltronix guys... have at.   If you haven't been by the Swan Siltronix web page yet, you can find it on the

http://sonic.ucdavis.edu   Amateur Radio Page, about half way down.

cheers
skipp@pilotNOSPAMPLEASE.ucdavis.edu   (take the NOSPAMPLEASE out)

http://sonic.ucdavis.edu
http://sonic.ucdavis.edu/siltronix   (direct to the Swan Siltronix pages)

[Enjoyed the Dayton Hamfest this year, caught a cold from one of you
guys... but I'm past it now.]

GE Portables

GE MPA VHF 146-162 full system keypad. Radio is as new and is almost perfect. The only flaw is the grip tape under the PTT button is peeling at the edges. Otherwise perfect. The next feature is, The radio is Key pad programmable. 16 channel scan and front face programmable. Has a like new battery and a good rapid charger. Also a belt clip. $500.00

GE MPA VHF Scan 157 - 174 split. 192 channels. Nice radio 8.5 condition with battery and standard charger. I have it programmed down to 154 MHz with no trouble but will go no lower. $225.00

GE MPA UHF Scan 440 - 470 192 channel scan. Radio works great. A little paint wear on the edges but I have seen worse. With charger and battery. $225.00

GE MPD select model 470.- 488 MHz. 48 channel Alpha-Numeric display. With battery and standard charger. 7-7.5 $85.00

GE MPD scan VHF 150.8 174. 48 channel alphanumeric display. These look good and come with a battery and standard charger. 125.00 each.

MPD Voice Guard VHF system model with full keypad. 48 channel alpha display. With battery and standard charger. $135.00

GE PCS VHF 2 channel. Like new 9.5-10 condition. 150 -170 MHz.
With battery, antenna, leather case, and pocket charger. $100.00 each.
2 available.

GE PLS VHF 16 channel. These average an 8 - 8.5 condition. 150 -170 but I have programmed these in the ham band with no trouble. These have battery, antenna, and standard charger. I will program these since it is suitcase programmer only.
$100.00 includes programming. I have several of these.

GE MPS VHF Like new 10 channel. With new battery, new antenna, and a standard charger. $65.00

GE MPS VHF 12 channel. Set of 4 that talk to each other with all new batteries and antennas. All in a rack charger. $225.00

GE Monogram UHF 10 channel portables. 3 radios 2 new batteries and 1 good battery. With 1 dual slot charger. $200.00 all 3 radios.

GE Monogram VHF 10 channel portable. 157-179 split. ex CSX radio. I sold this radio a year ago but have taken it on trade. Condition 8 with belt clip and charger. I had this radio run for stolen from CSX by a local CSX Special Agent when I first bought these in a lot and was told that it had been sold at salvage. Perfect for a RR Museum or shortline on a budget. This could also be programmed for marine frequencies. Like new tall Battery. $100.00

GE Mobiles

GE Phoenix SX VHF 128 channel scan. With Mic, Has all 8 proms. $100.00

GE MLS UHF 8 channel. With Mic, power cord and hang up box. MLSU240 450. - 470 Looks good. $125.00

GE Mastr exec II VHF 75-watt mobile complete with accessories. $60.00 each

GE Mastr exec II VHF Mobile extender (repeater like Pac rt) for Mastr II or Delta. $20.00 each

GE Mastr exec II VHF Mobile extender for GE Ranger (only Exec II that I have seen marked Ericsson) $65.00

.GE S550 head 16 channel looks good but not tested. $35.00

GE S700 head and complete Motorcycle cable set for Delta or Ranger. 16 channel model has short cable and some handle bar mounts. Mic included but no speaker. Not tested yet since I just got it in. $50.00

GE Mobile Vehicle Adapter for MPA, MTL, MPD, and TPX. This unit charges your battery and turns your portable into a mobile radio. (Convert a Com) With mic, speaker, and power cable. $100.00

GE Accessories

GE TQ 2310 suitcase programmer. Has PLS, Phoenix, Delta s/sx, Voice Guard, MPS, and Ranger. Printer is not working but I tried and it programs radios without the printer. Has manual for the programmer and the computer. Has Phoenix cable and Voice guard cable. All in the original GE case tested and working. (except printer) $850.00

Mastr II control cable. $8.00 each

Mastr II head for mobile repeater operation. $5.00

Mastr II Mic. $5.00

Mastr II 8 channel tone boards. $5.00

Mastr Exec II VHF receive section. $20.00

Mastr Exec II VHF Exciter. $18.00

Mobile Repeater cable for Mastr II. $10.00

Mobile Repeater cable for Delta or Ranger. $30.00. I have seen programming cables made from these.

GE white Versatones, 103.5, 162.2, 173.8, 179.9, 186.2, and 203.5. $4.00 each. I have a large amount of 203.5,186.2, 179.9, 173.8, and 162.2. If you buy 10 = $3.00 each. Buy 15 =$2.50 each. Buy 50 = $1.50 each.

GE Mastr II Icoms. EC = $5.00 each, 5C = $10.00 each.

GE Delta cables. These are the downloading type used with the S820 heads. And all other heads $40.00 each

Delta mounting plates. $10.00 each

Ranger mounting plate. $15.00

GE S-550 / 500 and others mounting brackets. $5.00 each

GE MPA, MPD, MTL standard Speaker mic. $25.00

GE PCS Universal charger. With wall transformer $20.00 each

GE MPA standard chargers. $20.00 each

GE MPA Rapid chargers. $30.00 each

GE MPI desk charger with wall transformer. $10.00

GE MPI Rack charger, 8 position. 25.00

GE MPI Mobile battery charger, Rare. $20.00

GE Battery discharge analyzer. For MPA, MPD batteries. Attaches to a rapid rack charger with a DB 15 cable and uses a MPD body to attach a battery to. Has LED readout in display area of MPD body to tell discharge rate. Another rare GE goodie. $45.00

GE shoulder strap like new, attaches where belt clip is. $15.00

GE Belt clips. $10.00 each

GE Voter. Has 9 total rec. cards and 2 TX cards. With extender card and power supply / speaker. $300.00

Other Radios and Accessories

Motorola Saber III VHF 146-174 split. 120 channel Alpha-Numeric display with secure - net module. (no out of country sales) des I think. I have been using this all week and talking on the ham band to test this radio.
Battery has lasted all week during drive time so it seems good. With rapid charger and big battery. $500.00 or trade for a VHF MRK II

Icom 3200 a Dual band ham radio. Has box and manual but no mounting bracket. Has tone squelch board installed. $200.00

Icom IC 24-at Dual band Portable. In good shape, Display has no scratches and only 1 small patch of the paint is peeled off of the back of this radio. With manual and wall charger. $165.00

ADI AT 201. 2 meter portable nice like new and in the box with the manual. Has 5 watt battery and wall charger. $90.00

Yaesu ft 2400 2 meter mobile. Has Mounting Bracket and manual. Nice 2 meter Radio. $125.00

Maxon 5050a Low band portable pair. Like new condition with 1 battery charger but I will split up the pair if someone wants 1 radio only. 6 channels programmed for 10 meter ham band on 2 repeater pair and 4 simplex frequencies. 2 radios and 1 charger $195.00

Marconi UHF portable. 16 channel scan with NOS battery. Made by Midland.
$75.00

Midland 70-336B VHF Mobile radio. 8 channel scan. with mic.$75.00

Motorola GP300 VHF 2 channel. on ham band. Has battery OK condition and charger I had to re-list due to a deadbeat buyer. $150.00

Motorola Mitrek VHF high 110 watt drawer only. $50.00

Motorola MT500 VHF nice shape. Crystals removed but I have 1 set of crystals for each radio. Also have a working battery and charger for each. I have 4 of these. $50.00 all

Uniden SMS 825 ts, 800 MHz Dash mount radio. $55.00

Voter from IMTS phone system. 2 rec. and 2 TX cards. $40.00

Maxon Rapid Rack charger for 0510/0520 radios. Think they will work with the sp2000 as well.$35.00

Consignment section

This area is for a few friends who like those other radios you know

"Motorola" They are good people and I will pass along any trades you may wish to make.

Motorola X9000 VHF 50 watt, Alpha-Numeric head, Siren complete. $425.00

Motorola single rapid chargers for HT600, MT1000, P200. $25.00 each

Motorola HT1000 UHF Intrinsically safe, Re-cased looks new. 16 channel scan with charger. $425.00

Motorola P200 UHF high power. 6 channel. $150.00

EF Johnson Challenger UHF 80 watt trunk mount, 99 channel Alpha-Numeric head.$225.00

Want List not FS
Extra parts for suitcase programmers. Data modules, Printers, cables, proms, Anything you have extra. MPA or MPD portables what do you have and what do you want for them? Johnson scorpion program cable.

Title: 74th Annual Atlanta Hamfest!
Event Type: Hamfest
Description: Welcome to the 2002 Atlanta Hamfest, sponsored by the Atlanta Radio Club, W4DOC, and the American Radio Relay League.

Now in it's seventy-fourth successful year, the Atlanta Hamfest is the "must visit" amateur radio event for everone. This is one of the longest running gatherings of radio amateurs for buying, selling, demonstrating, exhibiting, swapping of equipment and swapping stories.

We will offer:

Large tailgate area
Plenty of free parking
20,000 square foot air-conditioned Indoor Market
37,000 square foot covered Outdoor Flea Market
Campsites, including full RV Hookup, for 44 hams
Educational forums and guest speakers

Displays and exibits
DXCC card checking
VEC license exams
Prizes
Food

See http://www.atlantahamfest.com for details!
Starting Date: 06/01/02
Ending Date: 06/01/02
City: Marietta
State: GA

Hello,

Need more elements for your Bird Wattmeter? I have

250C VHF
100D UHF
250E UHF
50E UHF x 2 (two auctions for this one)

http://cgi6.ebay.com/aw-cgi/eBayISAPI.dll?ViewSellersOtherItems&userid=acmeresale&include=0&since=-1&sort=3&rows=25

Ebay ID: AcmeResale

All of the bidding starts at or below $1.99 so you will get a fair deal.
Thanks for reading and looking.

Adam / kc7ljq

Hey there NG "shoppers" (*puts down Kmart intercom*)

I have a couple of MCX1000 in VHF units for sale. If you don't know much
about them go to Batlabs and read up:
http://www.batlabs.com/mcx1000.html

This particular version is a remote mount and unfortunately I do NOT have
the head or the cables. (drop me a line if you have either or know of a
good source)

Specs:
-MCX-1000 VHF Mobile Transceiver
-56 Channels in 8 different "zones" (banks)
-Model number M99UR
- about 40 Watts output

Send offers to:
nukingcats (at) cox.net (do not hit RE, it won't get to me)

Thanks,
Adam / KC7LJQ

FOR SALE:

Heathkit HW-17 classic 2m AM transceiver with microphone.
Dial glass is missing but otherwise very clean.
Pictures available on request.
Selling for $45.00 plus shipping.

Harvey Wells Bandmaster Senior TBS-50C all band AM-CW transmitter
In very good condition. Reported to be working when last used.
Front panel shows really nicely. Comes with a repro manual.
E-mail me for photos. Will sell for $135.00

CLASSIC 1940s-50s HOMEBREW TUNER.
What a beauty! Like a Johnson only better. You should see the
components and
the dials. This jewel has all heavy duty components including a
dandy of a roller inductor with turns counter, The variable capacitors

are
pretty large and looks like it would handle a kilowatt with ease.
The versatile circuit is configurable for either series or parallel
'T'
configuration. Has jumpers in front to change set-up easily.
Has built-in SWR bridge utilizing an E.F. Johnson meter with
controls for FWD, REV and gain. Case is made of hammertone finish
steel
with a removable lid. There is a small chip out of one of the knobs.
Otherwise it's excellent. E-mail me for photos.
Will sell this gem for $175.00 firm plus shipping

Heath HW-202
Classic Heath 2m FM mobile transceiver with plenty of chrome.
Comes with the microphone. Comes with the ORIGINAL (thick!) manual,
original Heath microphone, cables etc.
Has crystals in it for:
146.07 / 146.67
146.16 / 146.76
146.22 / 146.82
146.34 / 146.94
146.94 Simplex
Pictures available on request.
Untested - selling for $39.00 plus shipping

Heath HD-15 Phone Patch. Unit is in top condition
with all original knobs etc. Pictures available on request.
Reduced to $19.00

Yaesu SP-901P Phone patch / Speaker Accessory
Perfect to round out your FT-901 line.
Unit is in excellent shape but needs two small scratches touched up
on the top. Front looks great, including the original knobs, meter
etc.
Pictures available on request.
Will sell for $45.00 plus shipping

Homebrew AM transmitter with 1625 final plate modulated by a pair of
5881 tubes. Good iron inside.
Made from a nicely modified ARC-5 transmitter conversion job.
Has an older style 4-pin mic input, gain control etc. etc.
Appears to be made for 40m band and it has final tank of 17 turns
silver plated copper 16-18 gauge wire on a 2" diameter ceramic form.
Pictures available on request.
Available for $25.00 without the two 5881 tubes or for $35.00 with
them.
Shipping additional.

I have a 220mhz Icom IC-37A forsale.

Includes Handmic.

There has been some mods done.

Pigtail has been converted to BNC panel mount, Audio section improved, power cord is now the ARES/RACES/ACS standard Molex connector.

The channel knob is missing... you can probably get one at ratshack or might have one laying around.. it still works without one.

Email me for pics

I am asking $175/shipped (conus) via Paypal

AMSAT and RARA have teamed up for a live demo of satellites at the Rochester Hamfest. The AMSAT booth will feature a station with full antenna tracking. The RARA booth (K2JD) will demo IRLP, SSTV, PSK, SSB and ATV modes with their HF and VHF stations.

***** ROCHESTER HAMFEST COMPUTER AND HOBBY SHOW *****

Sponsor: Rochester Amateur Radio Association, Inc.

Date: Fri, Sat, Sun, May 31, June 1,2 2002 Time: 6:00 AM to 5:00 PM

Location: Monroe County Fairgrounds, routes 15a and Calkins Rd., Rochester, NY

Talk-in: 146.88

Tickets: $9 entrance fee includes door prize ticket, additional $10 for flea market exhibit space.

Info: We had 6,327 people attend last year and the same this year. Indoor exhibits are in the 25,000 sq.ft. dome arena. Flea market is in the adjacent 7 acre outdoor area. Sell an item on consignment as you shop in our extensive outdoor flea market. View active ham demos of satellite, HF, VHF and UHF modes, take a ham radio license test, attend indoor presentations and ARRL Atlantic Division meetings. Learn about employment opportunities, hire technical specialists, check out collectibles, and just have fun.

Contact: (585) 424-7184; website at
website: http://www.rochesterhamfest.org
Demo schedule: http://www.ggw.org/rara/rarabooth.htm

Hello,

http://cgi.ebay.com/ws/eBayISAPI.dll?ViewItem&item=1354873878

Closes soon!....

The Model 3022 Instant Recall Recorder is a modular, solid state audio recorder designed for use in Public Safety communications centers. It records and stores recent telephone calls or radio transactions from an operator s position. This allows the operator to retrieve stored calls easily without leaving their position to go to the logging recorder.

Thanks for the pixs - next best thing to actually being there. My last
Dayton trip was 1982 when I still lived in Toledo, but I'm already
planning for the trio back east next year

Regards,
  Bill Bowen

FOR SALE:

Chrome finished desk communications mic with locking PTT bar.
Has the great reputation for smo-o-o-o-oth sound. This one is in nice
shape and comes with a 4-pin connector attached to the coil cord which
is also in good shape.
Will sell for $39.00 plus shipping

Shure 202 Mobile microphone
Gray, sharp appearance with PTT, excellent condition.
Great for use with any mobile station.
Will sell for $35.00 plus shipping

Icom mobile microphone, low impedance, smaller black rounded mic.
Picture available on request. No model number on it.
Will sell for $15.00 plus shipping

Heathkit mobile microphone, low impedance, black - Picture available
on request. Amazing low price (!)
Will sell for $15.00 plus shipping

Heathkit mobile microphone, low impedance, white - Picture available
on request. Unbeatable price...
Will sell for $15.00 plus shipping

Excellent low impedance dynamic BALL microphone - 600 ohms.
Recoton DMK-200 pro series dynamic microphone, unidirectional
with ball/screen type end.
Black metal finish. 80 Hz - 10 kHz response - has 10 foot cord.
Ideal for communications or vocalists / Public Address etc.
New In Box.
Will sell for $15.00 plus shipping

**** Bird Coax Switch *******

Model 72-2 DPDT Coax switch w/N connectors complete w/ knob & dial plate --$50

***** Used Coax Connectors ****

These are mostly used, fairly clean, (at least 80%) Amphenol parts.
There are anywhere from about 4 to 25 of each type available.

UHF female - UHF female barrel connectors -- $1 ea

UHF male - BNC female adapters -- $2 ea
UHF female - BNC male adapters -- $2 ea
UHF F-M-F Tees   -- $2 ea

UG-27/U N Right Angle -- $2.50 ea
UG-57B/U N Male-Male connector -- $4 ea
UG-131/U N Female to ?? (maybe a BN?) -- $3 ea
UG-635/U C Female - BNC Male adapter -- $5 ea
UG-259A/U 91836 -- HN female to LC female bulkhead adapter -- $30

SMA Female-Female Bulkhead connector -- $1 ea

N Female Chassis Mount connectors with gold (plated/flashed) PC style center pin (extends about 1/8" back from the insulator) -- $1ea

***** New Coax Connectors *****

UG-59B/U Kings/Amphenol HN Male Cable connector NIB -- $10 ea

UG-560/U HN Female Panel mount connector NIB -- $10 ea

82-843-1050 Amphenol HN Female sealed round panel connector NIB -- $15 ea

Kings KH-39-11 HN Female Cable connector NOS -- $15

Below are all new crimp on connectors, with all hardware, in individual plastic bags; early-mid 1990's date codes.
I believe that they are all for RG-59 size cable.

Kings Electronics

KC-59-642-M06 BNC Cable Male -- $1 ea
KA-59-385-M06 TNC Cable Male -- $1 ea
KA-19-43 TNC Bulkhead Female -- $1 ea

All of the above plus shipping, if necessary, naturally.

rec.radio.amateur.equipment:29755 rec.radio.amateur.misc:29358
rec.radio.amateur.swap:2926 rec.radio.swap:66104

I am looking for the stand off that mounts at the top of each tower section
of a Hygain or Triex crankup tower. Stand off is galvanized with 1 U-Bolt
for attachment to tower,
and it is an angle or tubular rod to a V on the end to attach coax.
If you have one in good condition please let me know what you want for it.

I ordered one on the Hygain website this weekend,
to later find out that Hygain or (MFJ, Ameritron, Vectronics, etc..)

does not have these items to sell. They don't even have the
towers, yet they will be glad to process your transaction to your
credit card for something they don't have. There representative
had no idea this was on the internet, and they said it may be a few
years before Hygain will be selling towers again.
I sure saw one at Dayton with antennas on it !

Please send email to laborkei at hotmail dot com

Thanks..
Keith, WD5BJQ

I have the two chip set that allows Kenwood TS440, TS-940, TS-811 and
TS-711 transceivers and the R-5000 receiver (I believe). I bought them
because they were advertised as a IF-10C interface kit and these are NOT an
IF-10C interface (that's a board). I'm asking $40 (what I paid) but I'll
take best offers. (BTW, the installtion instructions are in the owners
manual - not included) Or if you had an IF-10C that you wanted to trade me

I'd sure take that!

I got tired of straining to hear signals from AO-40 with my barbecue grill dish and developed a circular polarized antenna that WORKS! I talked a manufacturer into producing a small amount of specialized waterproof helical feeds and I am now making this antenna available to the amateur radio community. Available in two sizes, 2 foot and 3 foot with TRUE circular gain. Easily connected to a crossboom, it is an offset parabolic and there is NO aperture blockage of the incoming signal. Plus, you can connect your downconverter or preamp directly to the feed with no signal loss. I have current stock and have mastered my shipping methods. Please visit my web site and look my antenna over. These antennas may be available only for a limited time due to the difficulty in ordering small quantities, international shipping, and the limited time I have to spend on this project. Any comments are welcomed.

Model 19 has sync motors and the MASSIVE, thyratron regulated, loop power supply.

There is also a typing, keyboardless, reperforator less the base with sync motor. A poorly built ST-5 TU, two rolls of paper, two rolls of tape, a spare ribbon, a decent copy of "RTTY A-Z" and a calibrated polar relay for the teleprinter.

This mini museum of communications technology is YOURS for the paltry sum of a mere $75.

Come and get it before the needs of time and space lay claim to the scrap heap.

Regards,

Charles A. Days

I am going to Dayton on the 18th. I am going on a bus with the radio club. I can bring small items with me. Also I would like to raise some cash before Dayton so make an offer on anything on the list.

Please if you have questions or want to make a trade contact me off list at my e-mail address. gundoc@insightbb.com... Some of these lists are not swap lists and only tolerate my post because it is only once a week. To the group owners thank you for letting me continue to post to the group.
Dean

GE Portables

GE MPA VHF 146-162 full system keypad. Radio is as new and is almost perfect. The only flaw is the grip tape under the PTT button is peeling at the edges. Otherwise perfect. The next feature is, The radio is Key pad programmable. 16 channel scan and front face programmable. Has a like new battery and a good rapid charger. Also a belt clip. $500.00

GE MPA VHF Select 157 - 174 split. Nice radio 9 condition with battery and standard charger. I have it programmed down to 154 MHz with no trouble but will go no lower. $200.00

GE MPA UHF Scan 440 - 470 192 channel scan. Radio works great. A little paint wear on the edges but I have seen worse. With charger and battery. $225.00

GE MPD select model 470.- 488 MHz. 48 channel Alpha-Numeric display. With battery and standard charger. 7-7.5 $85.00

GE MPD scan VHF 150.8 174. 48 channel alphanumeric display. These look good and come with a battery and standard charger. 125.00 each.

MPD Voice Guard VHF system model with full keypad. 48 channel alpha display. With battery and standard charger. $135.00

GE PCS VHF 2 channel. Like new 9.5-10 condition. 150 -170 MHz. With battery, antenna, leather case, and pocket charger. $100.00 each. 2 available.

GE MPS VHF Like new 10 channel. With new battery, new antenna, and a standard charger. $65.00

GE MPS VHF 12 channel. Set of 4 that talk to each other with all new batteries and antennas. All in a rack charger. $225.00

GE Monogram UHF 10 channel portables. 3 radios 2 new batteries and 1 good battery. With 1 dual slot charger. $200.00 all 3 radios.

GE Monogram VHF 10 channel portable. 157-179 split. ex CSX radio. I sold this radio a year ago but have taken it on trade. Condition 8 with belt clip and charger. I had this radio run for stolen from CSX by a local CSX
Special Agent when I first bought these in a lot and was told that it had been sold at salvage. Perfect for a RR Museum or shortline on a budget. This could also be programmed for marine frequencies. Like new tall
Battery. $100.00

GE Mobiles

GE Phoenix SX VHF 128 channel scan. With Mic, Has all 8 proms. $100.00

GE MLS UHF 8 channel. With Mic, power cord and hang up box. MLSU240 450. - 470 Looks good. $125.00

GE Mastr exec II VHF 75-watt mobile complete with accessories. $60.00 each

GE Mastr exec II VHF Mobile extender (repeater like Pac rt) for Mastr II or Delta. $20.00 each

GE Mastr exec II VHF Mobile extender for GE Ranger (only Exec II that I have seen marked Ericsson) $65.00

.GE S550 head 16 channel looks good but not tested. $35.00

GE Mobile Vehicle Adapter for MPA, MTL, MPD, and TPX. This unit charges your battery and turns your portable into a mobile radio. (Convert a Com)
With mic, speaker, and power cable. $100.00

GE Accessories

GE TQ 2310 suitcase programmer. Has PLS, Phoenix, Delta s/sx, Voice Guard, MPS, and Ranger. Printer is not working but I tried and it programs radios without the printer. Has manual for the programmer and the computer. Has Phoenix cable and Voice guard cable. All in the original GE case tested and working. (except printer) $850.00

Mastr II control cable. $8.00 each

Mastr II head for mobile repeater operation. $5.00

Mastr II Mic. $5.00

Mastr II 8 channel tone boards. $5.00

Mastr Exec II VHF receive section. $20.00

Mastr Exec II VHF Exciter. $18.00

Mobile Repeater cable for Mastr II. $10.00

Mobile Repeater cable for Delta or Ranger. $30.00. I have seen programming cables made from these.

GE white Versatones, 103.5, 162.2, 173.8, 179.9, 186.2, and 203.5. $4.00 each. I have a large amount of 203.5,186.2, 179.9, 173.8, and 162.2. If you buy 10 = $3.00 each. Buy 15 =$2.50 each. Buy 50 = $1.50 each.

GE Mastr II Icoms. EC = $5.00 each, 5C = $10.00 each.

GE Delta cables. These are the downloading type used with the S820 heads.
And all other heads $40.00 each

Delta mounting plates. $10.00 each

Ranger mounting plate. $15.00

GE S-550 / 500 and others mounting brackets. $5.00 each

GE MPA, MPD, MTL standard Speaker mic. $25.00

GE PCS Universal charger. With wall transformer $20.00 each

GE MPA standard chargers. $20.00 each

GE MPA Rapid chargers. $30.00 each

GE MPI desk charger with wall transformer. $10.00

GE MPI Rack charger, 8 position. 25.00

GE MPI Mobile battery charger, Rare. $20.00

GE Battery discharge analyzer. For MPA, MPD batteries. Attaches to a rapid rack charger with a DB 15 cable and uses a MPD body to attach a battery to. Has LED readout in display area of MPD body to tell discharge rate.
Another rare GE goodie. $45.00

GE shoulder strap like new, attaches where belt clip is. $15.00

GE Belt clips. $10.00 each

GE Voter. Has 9 total rec. cards and 2 TX cards. With extender card and power supply / speaker. $300.00

Other Radios and Accessories

Motorola Saber III VHF 146-174 split. 120 channel Alpha-Numeric display with secure - net module. (no out of country sales) des I think. I have been using this all week and talking on the ham band to test this radio.
Battery has lasted all week during drive time so it seems good. With rapid charger and big battery. $500.00 or trade for a VHF MRK II

Icom 3200 a Dual band ham radio. Has box and manual but no mounting bracket. Has tone squelch board installed. $200.00

Icom IC 24-at Dual band Portable. In good shape, Display has no scratches and only 1 small patch of the paint is peeled off of the back of this radio. With manual and wall charger. $165.00

Maxon 5050a Low band portable pair. Like new condition with 1 battery charger but I will split up the pair if someone wants 1 radio only. 6 channels programmed for 10 meter ham band on 2 repeater pair and 4 simplex frequencies. 2 radios and 1 charger $195.00

Marconi UHF portable. 16 channel scan with NOS battery. Made by Midland.
$75.00

Midland 70-336B VHF Mobile radio. 8 channel scan. with mic.$75.00

Motorola GP300 VHF 2 channel. on ham band. Has battery OK condition and charger I had to re-list due to a deadbeat buyer. $150.00

Motorola Mitrek VHF high 110 watt drawer only. $50.00

Motorola MT500 VHF nice shape. Crystals removed but I have 1 set of crystals for each radio. Also have a working battery and charger for each. I have 4 of these. $50.00 all

Uniden SMS 825 ts, 800 MHz Dash mount radio. $55.00

Voter from IMTS phone system. 2 rec. and 2 TX cards. $40.00

Maxon Rapid Rack charger for 0510/0520 radios. Think they will work with the sp2000 as well.$35.00

Consignment section

This area is for a few friends who like those other radios you know

"Motorola" They are good people and I will pass along any trades you may wish to make.

Motorola X9000 VHF 50 watt, Alpha-Numeric head, Siren complete. $425.00

Motorola single rapid chargers for HT600, MT1000, P200. $25.00 each

Motorola HT1000 UHF Intrinsically safe, Re-cased looks new. 16 channel scan with charger. $425.00

Motorola P200 UHF high power. 6 channel. $150.00

EF Johnson Challenger UHF 80 watt trunk mount, 99 channel Alpha-Numeric head.$225.00

Want List not FS
Extra parts for suitcase programmers. Data modules, Printers, cables, proms, Anything you have extra. MPA or MPD portables what do you have and what do you want for them? Johnson scorpion program cable.

Terms
All prices are plus shipping from 40201. All items are used unless noted and only have a no DOA warranty if I say it works. If I say not tested your on your own. If I think it may be bad I will not list it. I take cash, Postal Money Orders, Paypal, and checks but I hold them for up to two weeks to clear before I ship. If you have a question E-mail me.

FS on eBay: Icom IC-730 with Parts Radio and Service Manual.
http://cgi.ebay.com/ws/eBayISAPI.dll?ViewItem&item=1352103612&r=0&t=0&showTutorial=0&ed=1021647661&indexURL=0&rd=1

Auction ends in 3 hours at 11:01 AM this morning EDT, or 1501Z.

This all-band SSB/AM radio has:
*All Solid State PLL operation
*10m, 12m, 15m, 17m, 20m, 30m, 40m and 80m bands
*Digital Frequency Display

*Dual VFO's for split operation
*IF Shift
*Receive Preamp
*Speech Processor
*No optional filters installed

Radio works, but has some problems. Radio receives great on all bands. Transmits with full power (100W) on all bands except 10m, 12m and 30m. Something failed internally causing the final stage to go into oscillation with a destructive full 100W carrier on these bands. Do not attempt to transmit on 10, 12 or 30m until radio has been repaired. Radio works fine otherwise, and may be used on 80, 40, 20, 17 and 15m with no problems. The radio is obviously repairable. I just don't know what failed and needs to be replaced. I was operating on 10m when the failure occurred. After cooking the finals, I replaced the final board with one out of a parts radio. I am including the IC-730 parts radio (in pieces) along with the working IC-730 radio. I am also including an IC-730 Service Manual and the Operating Manual, in addition to the power cord and handheld Icom mic. The only other minor problem is that the frequency display is off somewhat from the operating frequency in LSB mode (40 and 80m). The frequency display on USB (10, 12, 15, 17 and 20m) appears to be accurate.

I received an e-mail yesterday from a ham with an IC-730 which set me on the right track to finding the oscillation problem on 10, 12 and 30 meters. The problem seems to be on the RF board. I tried swapping the RF board from the parts radio into the working IC-730. The oscillation problem was gone. However, the power output went down to 40W from 100W. With the auction about to end, I decided not to try anything else. I put the original RF board back into the radio, and I put the other RF board back into the parts radio. Output is back up to 100W again, and the oscillation of the final stage on 10, 12 and 30m also returned. The winner of this auction will have the parts radio along with the service manual. A ham that's good at troubleshooting down to component level should be able to find the problem and get this rig transmitting on 10, 12 and 30m again. If not, the radio is still good on all bands other than 10, 12 and 30. The failure occurred last July. I've been using the radio regularly on the other bands since then with no problems. After my experiment with the RF board last night, I am convinced that this rig is fixable. I wanted to add this informaton to my auction, but eBay will not accept any revisions within the last 12 hours of an auction.

I have for sale a Kenwood TM-V7A 2m/440 transceiver with the 3 meter separation kit. I bought this new from AES a little over a year ago. It has the original box, manual and packaging. I love the radio, but my interests are in digital modes right now and I just turned it on yesterday for the first time in several months, so I don't need it right now. Asking $375 plus half of shipping.

Also have an Icom IC-820H dual band allmode with hand mic. This is a fairly recent radio and is designed for satellite use, either voice or data. It has the original box and manual and is in excellent condition. Working satellites is very easy with this radio because of all the automated tuning and satellite memories. Asking $625 cash or would prefer a trade toward a Kenwood TS-940 or 950.

I also have an Icom IC-271A all mode 2 meter radio with the tone board and original manual. It is in excellent shape and has an additional fan mounted on the back to increase the duty cycle. The only thing wrong with it is that the S-meter occasionally sticks about half way. I have used this on the FM repeaters here in Omaha and also on sideband for working the RS satellites. Asking $340 plus half of shipping.

I am looking for 10 GHz microwave equipment, a Kenwood TS-940 or 950, a 440 or 1.2 GHz repeater, and an Icom 706 or equivalent for mobile HF. Let me know if you would like to work out a swap or have these items to sell outright.

Please reply to jcamp2@cox.net or
N0WJP@N0WJP.#ENE.NE.USA.NOAM.

Thanks and 73,
Jeff
N0WJP

Ten-tec model 250 power supply. Cosmetically fair
to good condition, electronically in great

condition. Works good. No mods, pilot light works.
Best Offer + shipping, motivated seller.

I have lots of video and broadcast RF type trade goods listed at http://www.tallacom.ner/fortrade.htm which I'd put up in trade for any ham gear, especially if it's for six meters. If you could use any sort of video processing equipment, check it out! There's various other stuff there as well.

Hi Tom,

Many years ago I built my own DC supply for my TS-520-S. I used a couple 60 amp germanium transistors, a Radio Shack Heat sink, a Jones plug, 2 5 watt resistors and a capacitor. I don't know if you could find surplus germanium transistors today, but you could probably get by with silicone. The voltage drop across silicone is higher than it is across germanium and that might translate into a bit more heat to be dissipated, and possibly slightly less RF output. Ask around a bit and you will very likely be able to round up the parts. Kenwood wanted something like $70.00 for the DC supply option. I think I spent something like $15.00! The schematic is available from anyone who has the original TS-520 owner's manual, since the two power supplies are identical. (Kenwood just made the DC supply an option for the "S" model.) If you can't locate someone with a manual, I might be able to find the schematic to scan and e-mail to you.

I ran my '520-S mobile for several years off and on, and it still runs just fine, though today, I use an Icom 706 (more efficient, more bands and much smaller). If you are successful in getting the project going, I would recommend that you perform the noise blanker alignment procedure in the owner's manual. It made a world of difference in my rig.

I bought my '520-S new in 1977, and though I don't use it all that much any more, I still have it and it works great.

73,

Wayne, W1KI

PS. You can either reply to this message if you want more information, or e-mail me at work - w1ki@arrl.org (I work at ARRL HQ.)

I have a near mint TS-850S/AT that I would like to trade for a Yaesu FT-990.

Pix: http://home.attbi.com/~rayhansme1/850.jpg

All my gear is Yaesu except for the 850. It is an excellent radio, it just seems like a thumb at a finger party....

I was lucky enough to find a good, clean TH-21AT handi at Dayton but it has no battery. None are available from the various battery venders but they say that they can insert new batteries in the old shell. I am searching for an old battery that fits the TH-21AT that has a good shell for refill purposes.

Please let me know by email if you have one that is available.

Thanks for reading,

AL

Hi all,  does anybody out there have a FULLY WORKING dual band mobile
(144/440)
radio that is only a few years old that they want to sell??

Please e-mail me direct.
THANKS

I have two Motorolla desk sets. They are wired remote sets for a motorolla base station. Wire them up and have the ability to monitor and transmit from where your radio is not!

They worked when pulled from service (by me) five or six years ago. Sat in a box, waiting for a project that I never got to. They are in fair to good physical condition.

http://www.eskimo.com/~ghopper/mphone1.jpg

I'll take $15 each or $25 for the pair plus shipping.

Questions? email ghopper@eskimo.comm

Yaesu hardly ever updates their website here in the US. Real disappointment. They have had notes on their website promising things to come for over two years. Last update was the FT-817 over 20 months ago.

Currently on eBay - several lots of WW II vintage transmitter tubes. Great for hamfest sales, experimenting, or projects:

(22) 837/VT-101 transmitting pentodes - used in the ART-13 & other military xmttrs. New in boxes, no reserve:

http://cgi.ebay.com/ws/eBayISAPI.dll?ViewItem&item=1350483539

(4) Eimac 15E triodes - used in many WW II aircraft radar transmitters and jammers. New in boxes, low reserve:

http://cgi.ebay.com/ws/eBayISAPI.dll?ViewItem&item=1351115488

(4) Eimac 15R rectifier tubes - also utilized in radar xmttrs & jammers. New in boxes, no reserve:

http://cgi.ebay.com/ws/eBayISAPI.dll?ViewItem&item=1351111067

..Thanks for looking.

ONE NEW, ANTENEX brand, Phantom model, 3db gain, 450-470 MHz, "Transit" style, UHF Antenna. Antenex part number TRA4503. It is NEW in the bag. This antenna mounts to a standard MOTOROLA style mount (NOT INCLUDED IN THIS AUCTION). I have been using this style antenna for my personal equipment and I am very happy with the results. Great for low-profile or unmarked vehicles! Buyer to pay fixed shipping amount of $6. Thanks for looking!

I have for sale a Mirage B-34-G   2 meter amplifier, 2-8 watts in gives 35 watts out. Has GaAsFET receive preamp and will work both FM and SSB at the push of a button. Perfect for your two meter handheld, I used it on my older Icom 706 with power turned down to 5 watts to drive the amp. Now excess to my needs.

Excellent condition, both physically and electrically.

$75 shipped CONUS

FOR SALE:

Knight TR-106 with V-107 VFO
Excellent looking Knight 6m AM transceiver with the matching VFO.
Comes with the original, blue 'Knight' labelled Shure hand microphone. Pictures at web site below.
This radio can operate on either 12V DC or 115V AC.
Comes with 115V AC cable.
Otherwise complete and has very nice appearance.
Sold as-is. Comes with a copy of the manual.
Available for $125.0 plus shipping

Harvey Wells Bandmaster Senior TBS-50C all band AM-CW transmitter In very good condition, complete and untested. Reported to be working when last used. No VFO or power supply. Front panel shows really nicely. Will sell for $125.00 plus shipping

Heath HW-17 with mic - $45.00

Heath HW-202 with mic - $35.00

Heath DX-35 - $85.00

Heath VF-1 - $75.00

Heath HD-15 Phone Patch. Unit is in excellent condition with all original knobs etc. Will sell for $16.00 plus shipping

Yaesu SP-901P Phone patch / Speaker Accessory
Perfect to round out your FT-901 line. Unit is in excellent shape but needs two scratches touched up on the top. Front looks great, including the original knobs, meter etc.
Will sell for $45.00 plus shipping

SpeedX straight key in excellent shape with the 'two stage' navy knob. Sell for $35.00 plus shipping

WW2 British Mark 2 straight key. Missing two screws, but otherwise clean and in nice shape. Contacts are still in very good shape. A few imperfections, but will polish up and restore nicely.
Will sell it for $39.00 plus shipping

Straight Key - for the CW buff who wants to be ready for straight key night. Also useful for beginners learning the code. This has locking bar for tuning and is an adjustable key with nickel silver finish.
Available for $24.00 plus shipping

TS-175 Frequency Counter - exceptionally nice military unit in near mint condition with original chart. covers 125 kHz to 20 MHz.
Will sell for $75.00 plus shipping

LM-10 frequency counter - 'Type CRR-7402B crystal calibrated frequency indicating equipment' with original chart book, in very good condition. Has connector for power supply on the side.
Will sell for $49.00 plus shipping

Pictures available on web site below.

I'm in the market for an 847 - but you'll have to explain to me why I
should pay you $1400 PLUS shipping, when my local HRO store has them at
this very moment BRAND NEW for $1199 ??

I still have a project for sale. It is the 6 meter AM transceiver put out by the IA QRP club. I have the board, the pots, a used CB modulation transformer, the modulator chip, the crystal filter (the good one), and the coil form. Make me a decent offer.

I have a Ten-Tec model 250 power supply. It puts out 12 VDC @ 8 amps (non-regulated), and 12 VDC @ 1.5 amps (regulated). I don't know what rig it is for. It has a lot of "wear" scratches on it but seems to work fine. I don't know what it is worth. Make me a decent offer.

I have three NOS Dow Key Coaxial Relays, DK60-G2C. They are 52 ohm, rated for 1000 watts. The coil is 6060 ohm, 110 VDC(?). They have a set of DPDT auxiliary contacts. This is the internally shielded model. Make me a decent offer.

I'm a motivated seller. I have a Timewave DSP9+ that needs $60 worth of repairs. XYL is not too thrilled about getting it fixed since I paid $40 at a hamfest and it didn't work. Ouch.

I have a brand new, never touched straight from the factory (Macom) DU28200M

200W RF mosfet power transistor for sale. 2-175MHz, perfect for a simple
home brew amp of your design! These are the best that money can buy.
I purchased 3 to build a push pull amp in case I toasted one, the third will
not be used. It is in it's original factory packaging and has not been
touched by human hands (The box was opened to remove the other 2 devices)
since it left the factory. These are so hard to find they must be special
ordered through Ma-com
The spec sheet for it is below, as well as a screenshot to online pricing
from Richardson electronics.
This item costed me $232.98 USD, I will accept any reasonable offer for this
device.
I guarentee this not to be DOA, but of course all sales final since I cannot
guarentee that you have not damaged it by misuse or mishandling.
Please reply to technician@shaw.ca.

Technician :)

NO, I'm not dead yet! Hence the pre-estate sale!!!

1. One year old Drake R8B Communications Receiver / VHF option / MS8
speaker.
Like new. Low hours. Perfect in every way. Asking $1100.00.

2. Ten-Tec Model 540 Triton IV SSB/CW Transceiver (later version with the
AMP Mate-N-Lok
power connector) with optional CW filter and 10M crystals. 80-10M 100W
output, no WARC.
PTO was rebuilt and the radio calibrated by the factory last year. Includes
model 252M matching
power supply, which has a H/B over-voltage protection circuit added in
(based on the TT circuit).
Asking $425.00.

3. Excellent condition Realistic DX-160 Communications receiver with
matching SP-150 speaker
and original owner�s manual. This is one of the nicest I've ever seen. I am
the second owner.

Asking $100.00.

4. Ten-Tec model 701 electret hand microphone. New, never used. Bought it
by mistake when
the rig had one included with it. Asking $18.00.

5. Bird 50B wattmeter slug. Fifty watt 50-125 MHz range. $35.00.

6. Kenwood KPS-15 Switching power supply. 13.8 VDC at 23 amps. Current
model. Asking
$65.00.

7. Kenwood TS-520S SSB/CW transceiver. 160-10M, no WARC. 100W output using
6146B�s in
the final. The transceiver is extremely clean, and has an excellent front
panel. The clam-shell
cabinets have been repainted. This is a great starter rig, lake house, RV
or Field Day rig. It is
nice to have a built-in power supply. No original manual, but a complete
copy comes with it.
Asking $225.00.

8. Ten-Tec model 937 13.8 VDC power supply. Current model. Asking $60.00.

Note: All the above items include shipping/insurance anywhere in the
Continental US (CONUS).
The prices reflect an estimated shipping cost in order to make them simpler
for all concerned.
Unlike most eBay sellers, I refuse to stiff buyers with exaggerated costs
for handling.

Terms: USPS Money Orders or PayPal. I prefer payment through PayPal, which
lets me receive
your payment at the speed of email, and ship your item sooner.

Reply via email or phone 614-885-5428. Thanks, Lynn, N8AJ

I am going to Dayton on the 18th. I am going on a bus with the radio club. I can bring small items with me. Also I would like to raise some cash before Dayton so make an offer on anything on the list.

Please if you have questions or want to make a trade contact me off list at my e-mail address. gundoc@insightbb.com Some of these lists are not swap lists and only tolerate my post because it is only once a week. To the group owners thank you for letting me continue to post to the group.
Dean

GE Portables

GE MPA VHF 146-162 full system keypad. Radio is as new and is almost perfect. The only flaw is the grip tape under the PTT button is peeling at the edges. Otherwise perfect. The next feature is, The radio is Key pad programmable. 16 channel scan and front face programmable. Has a like new battery and a good rapid charger. Also a belt clip. $500.00

GE MPA VHF Select 157 - 174 split. Nice radio 9 condition with battery and
standard charger. I have it programmed down to 154 MHz with no trouble but
will go no lower. $200.00

GE MPA UHF Scan 440 - 470 192 channel scan. Radio works great. A little
paint wear on the edges but I have seen worse. With charger and battery.
$225.00

GE MPD select model 470.- 488 MHz. 48 channel Alpha-Numeric display.
With battery and standard charger. 7-7.5 $90.00

GE MPD scan VHF 150.8 174. 48 channel alphanumeric display. These look good
and come with a battery and standard charger. 125.00 each.

MPD Voice Guard VHF system model with full keypad. 48 channel alpha display.
with battery and standard charger. $135.00

GE PCS UHF 8 channel. I have this radio on the uhf ham band for testing and
it works the local repeaters. With battery and charger. $90.00

GE PCS VHF 2 channel. Like new 9.5-10 condition. 150 -170 MHz.
With battery, antenna, leather case, and pocket charger. $100.00 each.
Five available.

GE MPS VHF Like new 10 channel. With new battery, new antenna, and a standard charger. $65.00

GE MPS VHF 12 channel. Set of 4 that talk to each other with all new batteries and antennas. All in a rack charger. $225.00

GE Monogram UHF 10 channel portables. 3 radios 2 new batteries and 1 good battery. With 1 dual slot charger. $200.00 all 3 radios.

GE Monogram VHF 10 channel portable. 157-179 split. ex CSX radio. I sold this radio a year ago but have taken it on trade. Condition 8 with belt clip and charger. I had this radio run for stolen from CSX by a local CSX Special Agent when I first bought these in a lot and was told that it had been sold at salvage. Perfect for a RR Museum or shortline on a budget. This could also be programmed for marine frequencies. Like new tall Battery. $100.00

GE Mobiles

GE Phoenix SX VHF 128 channel scan. No accessories. Has all 8 proms. $100.00

GE MLS UHF 8 channel. With Mic, power cord and hang up box. MLSU240 450. - 470 Looks good. $125.00

GE MVS UHF 16 channel scan. With Mic, Bracket, and power cord. $125.00

GE Mastr exec II VHF 75-watt mobile complete with accessories. $60.00 each

GE Mastr exec II VHF Mobile extender (repeater like Pac rt) for Mastr II or Delta. $20.00 each

GE Mastr exec II VHF Mobile extender for GE Ranger (only Exec II that I have seen marked Ericsson) $65.00

.GE Ranger VHF 150.-162 100 watt mobile. Complete with cable, Mic, speaker, and S550 control head. This is a great public safety mobile or can be tuned to the 2-meter ham band. $155.00

GE S990 head. Looks new but I have not had time to test this yet. $75.00

GE S550 head 16 channel looks good but not tested. $35.00

GE Mobile Vehicle Adapter for MPA, MTL, MPD, and TPX. This unit charges your battery and turns your portable into a mobile radio. (Convert a Com) With mic, speaker, and power cable. $100.00

GE Accessories

GE TQ 2310 suitcase programmer. Has PLS, Phoenix, Delta s/sx, Voice Guard, MPS, and Ranger. Printer is not working but I tried and it programs radios without the printer. Has manual for the programmer and the computer. Has Phoenix cable and Voice guard cable. All in the original GE case tested and working. (except printer) $850.00

Mastr II control cable. $8.00 each

Mastr II head for mobile repeater operation. $5.00

Mastr II Mic. $5.00

Mastr II 8 channel tone boards. $5.00

Mastr Exec II VHF receive section. $20.00

Mastr Exec II VHF Exciter. $18.00

Mobile Repeater cable for Mastr II. $10.00

Mobile Repeater cable for Delta or Ranger. $30.00. I have seen programming cables made from these.

GE white Versatones, 103.5, 162.2, 173.8, 179.9, 186.2, and 203.5. $4.00 each. I have a large amount of 203.5,186.2, 179.9, 173.8, and 162.2. If you buy 10 = $3.00 each. Buy 15 =$2.50 each. Buy 50 = $1.50 each.

GE Mastr II Icoms. EC = $5.00 each, 5C = $10.00 each.

GE Delta cables. These are the downloading type used with the S820 heads. And all other heads $40.00 each

Delta mounting plates. $10.00 each

Ranger mounting plate. $15.00

GE S-550 / 500 and others mounting brackets. $5.00 each

GE MPA, MPD, MTL standard Speaker mic. $25.00

GE PCS Universal charger. With wall transformer $20.00 each

GE MPA standard chargers. $20.00 each

GE MPA Rapid chargers. $30.00 each

GE MPI desk charger with wall transformer. $10.00

GE MPI Rack charger, 8 position. 25.00

GE MPI Mobile battery charger, Rare. $20.00

GE Battery discharge analyzer. For MPA, MPD batteries. Attaches to a rapid rack charger with a DB 15 cable and uses a MPD body to attach a battery to. Has LED readout in display area of MPD body to tell discharge rate. Another rare GE goodie. $45.00

GE shoulder strap like new, attaches where belt clip is. $15.00

GE Belt clips. $10.00 each

GE Voter. Has 9 total rec. cards and 2 TX cards. With extender card and power supply / speaker. $300.00

Other Radios and Accessories

Motorola Saber III VHF 146-174 split. 120 channel Alpha-Numeric display with secure - net module. (no out of country sales) des I think. I have been using this all week and talking on the ham band to test this radio. Battery has lasted all week during drive time so it seems good. With rapid charger and big battery. $500.00 or trade for a VHF MRK II

Icom 3200 a Dual band ham radio. Has box and manual but no mounting bracket. Has tone squelch board installed. $200.00

Icom IC 24-at Dual band Portable. In good shape, Display has no scratches and only 1 small patch of the paint is peeled off of the back of this

radio.
With manual and wall charger. $165.00

Maxon 5050a Low band portable pair. Like new condition with 1 battery charger but I will split up the pair if someone wants 1 radio only. 6 channels programmed for 10 meter ham band on 2 repeater pair and 4 simplex
frequencies. 2 radios and 1 charger $195.00

Marconi UHF portable. 16 channel scan with NOS battery. Made by Midland.
$75.00

Midland 70-336B VHF Mobile radio. 8 channel scan. with mic.$75.00

Motorola GP300 VHF 2 channel. on ham band. Has battery OK condition and
charger I had to re-list due to a deadbeat buyer. $150.00

Motorola Mitrek VHF high 110 watt drawer only. $50.00

Motorola MT500 VHF nice shape. Crystals removed but I have 1 set of crystals
for each radio. Also have a working battery and charger for each. I have 4
of these. $50.00 all

Uniden SMS 825 ts, 800 MHz Dash mount radio. $55.00

Voter from IMTS phone system. 2 rec. and 2 TX cards. $40.00

Maxon Rapid Rack charger for 0510/0520 radios. Think they will work with the
sp2000 as well.$35.00

Consignment section

This area is for a few friends who like those other radios you know

"Motorola" They are good people and I will pass along any trades you may
wish to make.

Motorola X9000 VHF 50 watt, Alpha-Numeric head, Siren complete.
$425.00

Motorola single rapid chargers for HT600, MT1000, P200. $25.00 each

Motorola HT1000 UHF Intrinsically safe, Re-cased looks new. 16 channel scan
with charger. $425.00

Motorola P200 UHF high power. 6 channel. $150.00

EF Johnson Challenger UHF 80 watt trunk mount, 99 channel Alpha-Numeric
head.$225.00

Want List not FS
Extra parts for suitcase programmers. Data modules, Printers, cables, proms,
anything you have extra. MPA or MPD portables what do you have and what do
you want for them?
Johnson scorpion program cable.

Terms
All prices are plus shipping from 40201. All items are used unless noted and
only have a no DOA warranty if I say it works. If I say not tested your on
your own. If I think it may be bad I will not list it. I take cash, Postal
Money Orders, Paypal, and checks but I hold them for up to two weeks to
clear before I ship. If you have a question E-mail me.
Dean

This mike has part # 19-1125 printed on the back.
It has the keypad on the front and has the 8-pin
connector that looks lile a computer network connector.

I don't really want one that works poorly or has the letters worn off.

Reply to marz@t4x.com, but you must change the
letter 'z' to a 'k', and change the letter 'x' to a 'p'.
The email has been deliberately written wrong
in order to prevent filthy scumbag spammers
from getting my real email address.

Packet pretty much died here in the back woods of Michigan. So I've been selling pieces of my packet set-up. I have FOR SALE, a KANTRONICS PacketCommunicator 3 in beautiful shape. I have the AC adapter, terminal to rig jumper and your standard TNC to computer interface cable. Now since I used a dumb terminal, I never used a computer/software set-up. And I can't tell you where I put the

original disk. BUT...there are TONS of packet software programs
available, some you can even download for free right off the internet.
I also have ALL the manuals for the little unit.

Anyway...enough rambling. ONLY $49 postpaid Priority U.S. Mail and
insurance to your front door. GREAT DEAL and FIRST e-mail gets it!

MOTOROLA GP300 VHF W/ EXTRAS - NO RESERVE

You are bidding on one, Motorola, GP300, 8 channel, 5 Watt, VHF
portable radio. It is model # P93YPC20D2AA.  The radio is used, but
has been re-housed and checked by a local Motorola Authorized Service
Center to meet all factory specs.  Included in the auction is one
Motorola Speaker Mic, HMN9030A, in perfect condition.  Also included,
but not pictured, is one, single-unit, 10-hour charger.  The battery
is in excellent condition with a year 2000 date code.

ANTENEX 800 Low Profile Phantom Antenna - Motorola Mount - NIB - No Reserve

You are bidding on ONE, NEW, ANTENEX brand, Phantom model, 3db gain, 806-866 MHz, "Transit" style, low visibility, 800 MHz Antenna. Antenex part number TRA8063. It is NEW in the bag. This antenna mounts to a standard MOTOROLA style mount (NOT INCLUDED IN THIS AUCTION). I have been using this style antenna for my personal equipment and I am very happy with the results. Great for low-profile or unmarked vehicles! Buyer to pay fixed shipping amount of $6. I prefer PayPal, but will accept Billpoint, Money Orders, and Cashiers Checks. NO Personal Checks. Please feel free to e-mail me with any questions. Winner must contact me within 24 hours of auction close. Good luck and thanks for looking!

TWO (2) AUCTIONS!!!!!

You are bidding on ONE, NEW, ANTENEX brand, Phantom model, 3db gain, 450-470 MHz, "Transit" style, UHF Antenna. Antenex part number TRA4503. It is NEW in the bag. This antenna mounts to a standard MOTOROLA style mount (NOT INCLUDED IN THIS AUCTION). I have been using this style antenna for my personal equipment and I am very happy with the results. Great for low-profile or unmarked vehicles! Buyer to pay fixed shipping amount of $6. I prefer PayPal, but will accept Billpoint, Money Orders, and Cashiers Checks. NO Personal Checks. Please feel free to e-mail me with any questions. Winner must contact me within 24 hours of auction close. Good luck and thanks for looking!

Realistic Pro-43 VHF/UHF 200 channel Radio Scanner Ideal for someone interested in scanning the higher frequencies but on a tight budget as the 'latest trend' scanners can cost hundreds. This little receiver works perfectly and an ideal gateway to the hobby.

I have three new power transformers that would be ideal for a solid state kilowatt RF amp, high power audio amp or monster bench supply. These are real beauties, but very heavy - so you probably wouldn't want to pay for shipping.
Located in Seattle area. Specs are as follows:

(Primaries are the same on all three - dual 100/115V (200/230V), 50/60Hz.)

Xfmr #1:

One 55V secondary, tapped at 4V, 40V, 45V and 50V. Rated at 250A peak (6% duty cycle), using a bridge and 150,000 uF cap.

Xfmr #2:

Secondary #1: 50V, tapped at 30V, 40V and 45V. Current rating not known, but substantial.
Secondary #2: 28V center-tapped at 8A continuous, 50A peak (20% duty cycle), using a bridge and 50,000 uF cap.

Xfmr #3:

One 55V secondary, tapped at 4V, 36V, 40V, 45V and 50V. Rated at 100A peak (20% duty cycle) using bridge and 50,000 uF cap.

If interested in any of these, and able to pick up or willing to pay shipping, contact me, and we'll work an easy deal. Interested in trades. Can email pictures.

Terry Perdue

This is the 6 M AM transceiver spotlighted by the IA QRP club a year or so ago. This is a rig designed by Rick Littlefield originally called the Nor'easter and published in Communications Quarterly. I have the board, the pots, a used CB modulation transformer, the modulator chip, the crystal filter (the good one), and the coil form. I am also including all documentation, addendums (some items in color), and a copy of the original article. I'll sell it for $20 shipped priority mail (lower 48). This is a really neat project. I've just never had the gumption to get it finished.

Dan KB9JLO

Comet and Diamond Antenna make mounts that attach nicely to the side lip of the hatch door. I've got two mounted near the top, on either side, and they work nicely. This area is black trim on my '97 so there is no paint to mar. Also, this mounting location is fine when you open the hatch, because the antenna lays out horizontally along the roof line, a bit outboard so it clears the roof.

back in the early 80's, we were putting radios in new LTD squad cars

the city insisted on having the antennas mounted ON the light
bars.............well, there was about 3 extra feet of light bar cable left
over, so the install guy made a loop around the 'computer' (actually, the
ignition module) on the left inner fender

all was well until a car was going balls-to-the-wall to an accident one day,
the driver hit the button on the mike, and the ignition died, just like
you'd turned the key off

only on one channel of the radio, and only at wide-open throttle

but boy, did we have fun 'diagnosing' the trouble............we must have
used 5 tanks of gas 'trying to duplicate the problem'..........

Harris Alpha 2000 UHF or VHF Synth Duplx Transceivers/PARTS/Boards

All board assemblies also available, working or repairable as is.
Working assemblies are $25.00 to $50.00 ea., Shipping included in price.
Repairable as is boards are $10.00 to $20.00 ea, Shipping included in price
Schematics/prints/pts list for each board assembly..
Buy individual boards or a complete UNIT of all the boards (11 working) plus chassis. Great Savings over single boards $

Inquiries Welcome

COMPLETE UNITS ARE:
Alpha 2000 (originally IMTS mobile telephones by Harris R.F.Comm)
Needs an addition of a external Controller , Antenna(2) or duplexer (1ant) for full repeater operation
UHF freq. Range 405 to 512 mhz
VHF freq. Range 130 to 174 mhz
Separate Rx and Tx ports connectors
Full duplex FM
Separate Rx,Tx phased locked VCOs
Freq. Tol. 5ppm or 2ppm
Receiver sensitivity .25 to .5 uv for 12 db sinad
UHF rf power output 30 to 45 watts (w/o duplexer)(Duplexer not supplied)
VHF rf power output 50 to 70 watts (w/o duplexer)(Duplexer not supplied)
Requires 13.8 vDC at 15amps max VHF , 8 amps max UHF
Upgraded with ULIB board (universal logic interface board)
ULIB is capable of 128 chan. binary selection by internal dip switch
or externally with bcd lines or 16 chan selection by 16 lines, plus Rx
Tx audio interfacing, COR line, PTT line and TCS adaptable.

Weight of unit is 24 lbs plus cables and manuals equals total of approx 32 lbs shipping.

Each radio includes: Shipping included
     All schematics/prints of each board assembly and main interconnections, power cable, connector/pins for control cable, and 10 channels programmd (your choice)

Carl:
You might consider something innovative as I had to do on a lease vehicle. I have a 99 Explorer (Limited) and there is NO spare space , so I made up two inverted "J"
brackets; bolted them to the mobile mount bracket, mounted the bracket to the bottom of the radio and hung it from the center console(open the console, hang it on and close the cover). No holes to drill, easily reachable/readable and when I leave the vehicle for an extended period, I open the console; raise the radio up and slide it under the seat. Works for me! If you're interested, e-mail me direct and I'll tell you about the "no holes visible" roof mount I made! G.I. ingenuity!

ONE, NEW, ANTENEX brand, Phantom model, 3db gain, 450-470 MHz,
"Transit" style, UHF Antenna. Antenex part number TRA4503. It is NEW
in the bag. This antenna mounts to a standard MOTOROLA style mount
(NOT INCLUDED IN THIS AUCTION). I have been using this style antenna
for my personal equipment and I am very happy with the results. Great
for low-profile or unmarked vehicles!

Two listings!

I drive a 4-Runner.

The control head is mounded on the console with double sided tape for the bracket.
The RF deck, which is mounted on an Aluminum plate goes under the seat.
I was going to put some velcro on the bottom to keep it from sliding, but never found a need.

Hi all!
I purchased (about 9 months ago) a Yaesu FT-100D (with seperation kit), the FC-20 auto-tuner and the ATAS-100 screwdriver antenna for a project I'm never going to get around to. And now I have the hots for a FT-817 and associated goodies.
So, if anyone is interested in the mint setup described above, and wants to buy it, or swap for it, email me at snelson@kay-com.com.
Thanks!
Sam, WA5VDM

Motorola MCS2000 Model 2 - FLASHport - 806-870 MHz - NO RESERVE!

You are bidding on ONE Motorola MCS 2000, Model 2, FLASHport, 800 MHz, 35Watt, Privacy Plus Radio. This radio has the H38/G51 (Smartzone Operation) Flashcode installed. It operates in the 806-870 MHz range on Type I, II, IIi Systems and in conventional modes. It is capable of up to 160 Talkgroups and Conventional Channels combined -- on up to 20 Systems. The model number is M01UJM6PW6AN. Included in this auction is a palm mic, speaker adapter, and speaker (with speaker bracket). No other cables or parts are offered. This unit works great. I currently have it programmed on City Police, but will have to blank it for security reasons. There are NO scratches in the display. This unit is a 9.99 out of 10. It has small scratches near the rear of the unit where the unit was opened and checked out by an authorized MSS. This model is a dash mount, but it is capable of being converted to a remote mount with the purchase of a remote mount kit (about $160 new). Please refer to Motorola's web site for more details and features of this radio. This model lists for $2500 new and possibly more for the H38/G51 Flash options.

--ICOM-706 Transceiver in Great working condition! This radio covers HF,6M,2M, . and All Mode and sounds great! It has a remote mounting face for a mobile but it was never installed in my Truck. It was only used in the house for a short time on the shelf in the shack. It is in great working condition did have some time to work 6 meters into Europe and only being sold because don't have much time due to the business . It comes with a stock mic with only a few scratches on it and a power cord. The radio has only a couple minor scratches on the side. The original manual comes with the radio in the original box. have manuals. Overall this is a really nice radio a great buy! Radio is being sold as is but will not be DOA. Buyer pays shipping & handling and Insurance. Payment can be made by Money Order, or Cashiers Check   Please e-mail me K2LAB@optonline.net with any questions prior to bidding, since all sales are final and item is sold as is.   see on ebay

Poole Radio club is having a shack tidy-up and is having to get rid of a couple of RA17's that have lain idle for the last 2-3 years hidden under a bench. I understand that one is serviceable but the other should be regarded for spares only. Buyer must collect from Poole, Dorset and carry out any tests required on the club site, no guarantees offered at all chaps! Offers please to Paul.()warman@usa.()net , G0odp, remove the (). Many thanks for the bandwidth.

Gimme a break! The auction is the method of sale. The sale takes place
at the end of the auction, between the seller and the highest bidder.
"Auction" = "A public sale in which property or goods are sold to the
highest bidder".

Rod

FS: NEW old stock CENTURION AL2000 alkaline (NON-RECHARGABLE) batteries(4200 MAH, 9 volts). These batteries fit GE MPR and MPS radios. I also believe they fit the MPX series. These batteries have the original factory seal on the metal connectors. I have not tested every battery, but they all appear in unused condition. I have several hundred of these batteries to sell. COST is $1.00 EA !!!! You pay shipping.

ONE, NEW, ANTENEX brand, Phantom model, 3db gain, 806-866 MHz,

&#8220;Transit&#8221; style, low visibility, 800 MHz Antenna. Antenex
part number TRA8063. It is NEW in the bag. This antenna mounts to a
standard MOTOROLA style mount (NOT INCLUDED IN THIS AUCTION). I have
been using this style antenna for my personal equipment and I am very
happy with the results. Great for low-profile or unmarked vehicles!

Thanks for looking!

Hello,
I have one Yaesu FT-757GX  and one Yaesu FP-757HD power supply left.I
am selling this as a set One Yaesu FT-757GX and One FP-757HD.This set
has a few scratches where it was used for field day and has been
mobile prior to me getting it.This unit has the mobile mounting
bracket.I am asking $500 plus shipping for this set.Shipping and
```

insurance is fixed at $20 dollars.This unit works but with all old
equpment it is as is.
I do have a Automatic tuner which matches these that has a
intermittant problem the antenna tuner gets stuck in the wait
mode.Sometimes here lately it seems to work when moved so I think it
is a ground problem.$100 dollars plus $15 for shipping.If you buy a
radio above I will not charge the Shipping on this.Will Trade for a
TS-50 s with no mods done to it for one of the radios.Thanks for

Would you consider driving to New Bedford, actually, S. Dartmouth Mass. for a clean model 19?

It is a model 19 that was purchased as a spare some 15 years ago. It has sync motors and the MASSIVE, thyratron regulated, loop power supply.

There is also a typing, keyboardless, reperforator less the base with sync motor. A poorly built ST-5 TU, two rolls of paper, two rolls of tape, a spare ribbon, a decent copy of "RTTY A-Z" and a calibrated polar relay for the teleprinter.

This mini museum of communications technology is YOURS for the paltry sum of a mere $75.

Come and get it before the needs of time and space lay claim to the scrap heap.

Regards,

Charles A. Days

Hi Paul,
                Are you the radio builder that was nice enough to send me
those two books?

Pete  KE9OA

FOR SALE:

Nice MFJ-941D Versatuner II antenna tuner in excellent shape. Matches
about

any antenna to your HF rig. 300 Watt antenna tuner that covers everything from 1.8 - 30 MHz and includes meter, antenna switch and a 4:1 balun. Meter shows SWR, forward and reflected power - antenna switch lets you select 2 coax lines, random wire/balanced line or dummy load (direct or through). Efficient 12 position airwound inductor gives lower losses and more power out. Has 4:1 balun, 1000 Volt capacitors, and a beautiful aluminum cabinet. Will sell for $59.00 plus shipping

 National NC-190 Receiver

 This is nifty old receiver with that classic space age blue finish.
 Front panel looks very nice, but some of the knobs look crusty and
 need cleaning. Appears to be all original with no modifications.
 Receiver lights up but has no audio - it is all there, and will clean
up nicely.

 Will sell for $125.00 plus shipping

E-mail me for picture.

Check out this item for auction.

ONE NEW, ANTENEX brand, Phantom model, 3db gain, 450-470 MHz,
&#8220;Transit&#8221; style, UHF Antenna. Antenex part number TRA4503.
It is NEW in the bag. This antenna mounts to a standard MOTOROLA style
mount (NOT INCLUDED IN THIS AUCTION). I have been using this style
antenna for my personal equipment and I am very happy with the
results. Great for low-profile or unmarked vehicles!

Hi all, Does anybody out there have an instruction sheet for the
Lafayette
HA-115 compressor amplifier (mic audio preamp).
I would be glad to pay for one or a copy of one plus mailing costs.
Even a scanned copy sent via e-mail of it would be great!

THANKS, Mark

Howdy,

http://cgi.ebay.com/ws/eBayISAPI.dll?ViewItem&item=1342859494

This is a very rare SX-10 Ultra Skyrider. 4 bands 5.5-79MHz. IF 1600kHz.
Crystal filter. 10 tubes.
Production year 1936.
Less than 200 made.

NO RESERVE

Adam / kc7ljq

```

I have a Sony ICF-2010 for barter.

It was purchased new in 9/97 from Grove Enterprises, and comes with original packaging, related materials and receipt. I keep it covered when it's not in use and even oil the antenna periodically. It's in perfect, unaltered factory condition, but I simply don't have the time to devote to the radio much any more.

I'd like to trade it for a decent 800MHz handheld scanner (preferably unblocked), transceivers of any type, or a base CB unit in similar condition. Mods are OK as long as long as it improved performance and was done professionally.

I paid $364 for the 2010, but I'm not expecting a dollar-for-dollar exchange here - just a fair swap for respectfully handled gear that I have a realistic use for. I'll consider anything you've got, except for junk and stolen property.

I think it's only fair that we each pay our own insured shipping. If you're interested, please contact me directly. I'm in no hurry and Thank You.

For sale or trade:

Collins 30L-1 amplifier, works very well, very goood condition except
top cover doesn't fit perfectly (does not affect operation, and only
slightly noticeable looking at amp from above). Currently wired for
120VAC operation, easily changed for 240VAC operation. Includes manual

copy. $550 plus shipping.

Drake MN-2000 tuner, works well, very good condition. Includes original manual. $160 plus shipping.

Vibroplex Original semiautomatic key, serial number 60767, purchased new in 1987. Very good condition, no dings or discoloration in chrome parts or grey base, nameplate attached and in excellent condition. Works very well. $75 plus shipping.

Electro-Voice 641 dynamic microphone with desk stand. Very good condition, works fine, currently wired for Heathkit HW/SB series rigs. $65 plus shipping.

Kenwood TH-215A 2-meter FM HT. Good condition, works fine. Includes WWW high-capacity battery and desktop charger, hand mic, original battery (dead, cells can be replaced if desired), original manual. $100 plus shipping.

Heil HC5 DX mic element. Very good condition. $15 plus shipping.

I can supply pictures of these items on request.

73,
Jeff Kilgore, KC1MK

I have for sale a ten-tec Omni model 546-C transceiver, 80 through 10
meters, matching power supply,keyer,Sure microphone and manuals. I have
the matching VFO which I will add in, It works, but has a slight drift
that can be fixed. Transceiver works very well, no problems, no DOA.

Here is a link to see this station. Email for more info, asking
$350.00 plus shipping.

KE4TEW, vicadin selling scumbag and husband of Rita Garcia, a multi- married whore wrote:

Vicadin inspired rant snipped.

W2ZB, the alcoholic loser fired twice by the FCC, has been located.After jamming on twenty meters and multiple vhf/uhf frequencies for the last year with a fake 610, the loser was df'ed to his real address. He is currently busy with the Department of Family and Children's services and his homeowners association,who want him out.The FCC changed Georgie the drunks 610 for him, since he was so drunk he did not know his address.This is the location for the best amateur radio jammer the FCC ever produced:

http://www.qrz.com/detail/W2ZB

KE4TEW, the infamous Tampa Turd, has been jamming twenty meters for the past 5 years from his cinder-block craphole in Tampa.Being a vicadin dealer and a drug addict does not leave him much concious time to jam hf, or much money to buy decent
equipment. His wretched life consists mostly of posting juvinile comments from compuserve, the lamest dial-up on the net. More to come on this loser. No wonder his son killed himself.

More to come on both of these losers.

fos sale on Ebay Icom IC-02AT, and Icom CM-8 battery. Both units are dead.
Radio did work then one day jest quit receive and transmit, but display
works and nosie does come from unit like it works, but does not receive
freq. If interested please visit Ebay to bid. Price is in Canadian so a
great deal do to the low vaule on our dollar.

These two fine matching ham radio components have just reached their modest reserve. If you have been looking for a nice pair that won't bankrupt you, take a peek at this pair:

http://cgi.ebay.com/ws/eBayISAPI.dll?ViewItem&item=1343046348

and

http://cgi.ebay.com/ws/eBayISAPI.dll?ViewItem&item=1343133153

Open to offers on the pair (with the interconnecting cable to allow transceive operation) prior to auction end if you just have to have them.

Paul NS6V

Gentlemen,
The subject items are currently up for auction and can be seen at:

http://cgi.ebay.com/ws/eBayISAPI.dll?ViewItem&item=1343007267

Both antennae are about 10-12 years old, were working great when last used about a year ago.

The downside: you have to remove them, and do so during normal business hours M-Th. They are located in Simi Valley, CA. Simi Valley is just to the west of the San Fernando Valley, approximately 10 miles WNW of the intersection of I405 and Hwy 101. Easy to find and the weather's getting better.

The sale includes the Mosley 10-40M beam, the KLM VHF 11 element beam, three sections of what I think is Rohn 20 tower including two straight and one top section, the flat roof base, all guys, all coax, and the mast. The rotator is not included in the sale. The reserve is set at $250. I am willing to take offers from someone who can and will remove this antenna structure as soon as possible. Please contact me directly if you are interested. This is fairly priced and would look great over your QTH. Paul NS6V

Orignal owner, non-smoker, radio is in near mint condition, slight scratch on the left side of radio hard to see. Comes with SP8 speaker and MD100 microphone and of course..power supply. This radio has the Inrad front-end mod installed. Very nice radio. At this time I am taking offers. I am located in S.W. lower Michigan

Thanks
Stew

Hello,
I found some more Yaesu FT-101 series parts in my bunch of radio
parts.I have these part numbers and all parts are used,

PB-1180
PB-1315A
PB-1166
PB-1083A
PB-1092
PB-1187A
PB-1188b
These are used and have not been tested.So with that I am selling them
as is and
no warranty is implied or expressed.I will sell them for $25.00 U.S.
Postal Money Order only.This price include shipping.Also if any
questions or you want to buy these items please E-mail me at

kc8fwd@hotmail.com

Thanks for looking and 73's de KC8FWD Mike

Hi there!

A fellow amateur is looking for 2 (two) FTS17 tone boards for the Yaesu FT-23 and FT-411 handheld radios.

If you have any surplus to requirements, please email Andrew at zr1sbm@freemail.absa.co.za

Thanks in advance!

Regards.

I could do with one for my FT411

I think the PMR version of the FT23 uses them ?
many surplus now

Has anyone received there Hamvention Tickets Yet ?
My check was cashed last month, and have yet to receive my tickets in the

mail.

I have also written 2 emails to the ticket information email address from the hamvention.com website, and have yet to get a response.

Any comments ?

Aloha,

I am in need of the Kenwood TS-120S Service and Owners manuals. If
you have them in PDF that would be even better. Thanks for your time.

Aloha and 73,
Scott

In Rochester NY area and need to purchase a straight key (or Vibraplex), Ant tuner for long wire, and microphone (A D-104 would be nice) for HF rig. Would like to score these this weekend or monday so if anyone in Rochester/Buffalo area wants to lighten their junkbox a little and get some $$, let me know.

Remove the obvious anti spam-bot stuff from my email address to email me.

Thanks

Steve

New, never used, still in the Toshiba box. I bought 12 of these for an amplifier project that never happened. Got the transistors, power supply and heatsink. That is as far as I got. These are the same devices used in the Icom 2k solid state amp. The MRF448 is a replacement for these I am told. RF parts has the MRF448 for $79 each. I would like to get $800 for all 12, or will trade for an Amateur HF tube amp. I have seen these things for as high as $165 each.

FOR SALE - Prices reduced:

Pictures available on request.

National NC-190 Receiver
This is nifty old receiver with that classic space age blue finish. Front panel looks very nice, but some of the knobs look crusty and need cleaning. Appears to be all original with no modifications. Receiver is non working but it is all there, and will clean up nicely. Will sell for $99.00 plus shipping

Harvey Wells Bandmaster Senior TBS-50C all band AM-CW transmitter In very good condition, complete and untested. Reported to be working when last used. No VFO or power supply. Front panel shows really nicely. Will sell for $109.00 plus shipping

Heath HD-15 Phone Patch. Unit is in excellent condition with all original knobs etc. Will sell for $16.00 plus shipping

Yaesu SP-901P Phone patch / Speaker Accessory
Perfect to round out your FT-901 line. Unit is in excellent shape but needs two scratches touched up on the top. Front looks great, including the original knobs, meter etc. Will sell for $40.00 plus shipping

WW2 British Mark 2 straight key. Missing two screws, but otherwise clean and in nice shape. Contacts are still in very good shape. A few imperfections, but will polish up and restore nicely. Will sell it for $39.00 plus shipping

Straight Key - for the CW buff who wants to be ready for straight key night. Also useful for beginners learning the code. This has locking bar for tuning and is an adjustable key with nickel silver finish. Will sell for $24.00 plus shipping

TS-175 Frequency Counter - exceptionally nice military unit in near mint condition with original chart. covers 125 kHz to 20 MHz.
 Will sell for $75.00 plus shipping

LM-10 frequency counter - 'Type CRR-7402B crystal calibrated frequency indicating equipment' with original chart book, in very good condition. Will sell for $49.00 plus shipping

MFJ 204B Antenna noise bridge with original manual.
Will sell for $45.00 plus shipping

MFJ-941D Versatuner II antenna tuner in excellent shape. Matches about any antenna to your HF rig. 300 Watt antenna tuner that covers everything from 1.8 - 30 MHz and includes meter, antenna switch and a 4:1 balun. Meter shows SWR, forward and reflected power - antenna switch lets you select 2 coax lines, random wire/balanced line or dummy load (direct or through). Efficient 12 position airwound inductor gives lower losses and more power out. Has 4:1 balun, 1000

Volt capacitors, and a beautiful aluminum cabinet. Will sell for
$59.00 plus shipping

Knight TR-106 with V-107 VFO
Excellent looking Knight 6m AM transceiver with the matching VFO. Also
comes with the original, blue 'Knight' labelled Shure hand microphone.
This radio can operate on either 12V DC or 115V AC. Comes with 115V AC
cable. Otherwise complete and has very nice appearance. Sold as-is.
Comes with a copy of the manual.
$125.0 plus shipping

I have for sale a mint Yaesu FT-1000MP Mark V. I am the original owner and I
am a non-smoker. This radio looks and works great. It comes with the
following options installed: Both Yaesu 2.0 SSB Filters(2nd/3rd IF) and the
500HZ Collins CW Filter. It comes with the original boxes, FP-29 PS, Manual,
hand mike, etc. I will deliver this radio to Dayton. I prefer not to ship
it. If you have been looking for a Mark V, this is your chance to get one
that looks and works great.

I am asking $2325, including delivery to the Dayton Hamvention next month.
Check out my profile at eBay, userid: kc2mf. If interested, please send me
an email at: k2wo@arrl.net

Thanks for reading this message!

George

FOR SALE - a few more boatanchors.
Pictures of all available on line (See below)

Clegg 22'er classic 2m AM transceiver with mobile microphone
and manual. Looks very good. sold as-is untested.
Will sell for $55.00 plus shipping

Heathkit HW-17 classic 2m AM transceiver with microphone.
Meter is missing but otherwise very clean.
Will sell for $45.00 plus shipping

Command Sets - ARC5 Receivers

A pair of BC-455 receivers - missing some parts, most tubes are gone.
Tuning dials and i.f.t. cans etc. are present as are most components underneath the chassis.
These would need some major work, or use them as spare parts for your repairs.
Will sell the pair for $10.00 each = $20.00 total plus shipping

CLASSIC 1940s-50s HOMEBREW TUNER
What a beauty! This jewel has all heavy duty components including a dandy of a roller inductor with turns counter, The variable capacitors are pretty
large and looks like it would handle a kilowatt with ease.
The versatile circuit is configurable for either series or parallel 'T' configuration.
Has jumpers in front to change set-up easily.
Has built-in SWR bridge utilizing an E.F. Johnson meter with controls for FWD, REV and gain.
Case is made of hammertone finish steel with a removable
lid. There is a small chip out of one of the knobs.
Will sell this gem for $175.00 firm plus shipping

Rare Heathkit CB-1 Lunchbox rig.
Here is a Heath CB transceiver that could be used on either 10m or 11m AM. Very rare nowadays. Most are hacked to pieces or in the
dump long ago. As you will see from the picture this rig is in very clean condition. Looks like someone added a switch in the front
which could be very easily removed and the hole
filled and painted over to restore to like-new condition.
Will sell for $45.00 plus shipping

Heath Mobile Speaker
These are getting hard to find. Excellent condition. Has not been beaten up and repainted like some you see. The perfect companion to any HW series Heath rig.
Often used mobile with the HW-12, HW-22 and HW-32 radios, but also a fine mate to the HW-17 for sale above.
Offered for only $22.00 plus shipping

Heath HW-202
Classic Heath 2m FM mobile transceiver with plenty of chrome.
Condition unknown, sold as-is. Looks like it's all there. Comes with the microphone. Will clean up nicely.
Comes with the ORIGINAL (thick!) manual, original Heath microphone, cables etc.
Untested and will be sold as-is for $39.00 plus shipping

Also original Heath HA-202 amplifier manual $8.00
Original Heath Micoder HD-1984 Manual for $8.00

Heath HD-15 Phone Patch. Unit is in excellent condition with all original knobs etc.
Will sell for $22.00

Lafayette Capacitance Substitution box
Model 99-50205 in excellent condition with test leads.
Will sell for $20.00 plus shipping

Yaesu SP-901P Phone patch / Speaker Accessory
Perfect to round out your FT-901 line. Unit is in excellent shape but
needs two scratches touched up on the top. Front looks great,
including the original knobs, meter etc.
Will sell for $45.00 plus shipping

MFJ 204B Antenna noise bridge with original manual.
Will sell for $45.00 plus shipping

Palomar Noise Bridge with manual $45.00 plus shipping

I have for sale an Icom IC-756 PRO. I am the original non-smoking owner and
it is like new, both cosmetically and operationally. It comes with the

original box, hand mike, power cable(never used) and manual. I will ship it in the Lower 48 for $1599. Check out my ratings on eBay, userid: kc2mf

If interested, please send me an email at: k2wo@arrl.net . I can also deliver this radio to the Dayton Hamvention.

Thanks for reading this message.

George

6 meter AM transceiver put out by the Iowa QRP club. I have the board, the pots, a used CB modulation transformer, the modulator chip, the crystal filter (the good one), and the coil form. I'm thinking $35 plus shipping or make me an offer, or trade for a good SSB audio filter... I can do PayPal.

For Sale: Yaesu FT-817 QRP HF/VHF multimode transceiver with the following options:
TCXO-9 temperature controlled crystal oscillator.
CT-62 CAT data cable.
W4RT One Board Filter (BOTH SSB and CW Collins mechanical filters installed).
Two E-DC-6 cables.
CSC83 soft case.
EDC-5-B DC adaptor with noise filter.

Over $400 in options...

And of course, the original box, manual, mic. and BNC antenna.

The filters make this radio an outstanding performer and corrects the one obvious deficiency the stock radio has for those who like both SSB and CW operation! The radio was purchased last Christmas and was built in August 2001. $650 shipped/insured CONUS. Terms, USPS MO.

Hi All,

I have three KLM antennas for sale. They are:

KT34XA - 6-element tribander. Most popular contest/DX antenna ever made... $750

KT34A - 4-element tribander. Just like it's big brother, but half-size boom (16')... $500

40M4 - "World Class" 4-element 40-mtr monobander. Open and close the band. Has no peer... $1200

All antennas have 3-inch booms, are in excellent condition, still in the air (expected to be taken down by 5/11/02).

Located in Northport, NY, on the north shore of Long Island, in western Suffolk County.

Pics and more details at http://reallybig.com/tower. Tower is sold, sorry.

Pickup only, as I will not ship.

Thanks for reading,

73 de Jeff K2KV

Please reply to my callsign at reallybig.com

Somebody make me an offer. This is a good homebrew project. I'm just not a good homebrewer and trying to thin out the projects a little. All reasonable offers considered.

Still nothing on Yaesu's website. I get the feeling the radio's a
hoax. A few doctored up pictures.. why wouldn't Yaesu have information
on it on their website? Who's ever heard of a modern HT with 6m AM?
And .3 watts for 220mhz? Has anyone at Yaesu admited that this radio
is in production or will be?

Looking for a used 3 element triband beam for 10/15/20 meters. If you
have one to sell please email me at te@usol.com with what you have and
your asking price. Thanks in advance.

FOR SALE:

LOAD RESISTORS for testing audio amplifiers:

8 ohm 50 watts for $8.00 each plus shipping

8 ohms 100 watts for $15.00 each plus shipping

16 ohms 100 watts for $15.00 each plus shipping

4 ohm 50 watts for $8.00 each plus shipping

2 ohms 100 watts for $15.00 each plus shipping

I can supply you with 200 Watt loads - either 4 ohm, 8 ohm, or
16 ohm resistive loads as follows:

Each set-up would consist of FOUR 50 Watt resistors wired for the
correct load impedence. These are brand new DALE Gold Series
(the best precision load resistors you can get!)
and each set-up rated for 200 Watts sell for $24.00 plus shipping.

I can also supply these as 100 watt loads in either 8 ohms
or 16 ohms, for $15.00 each, plus shipping

E-mail me for details

If the rig was a hoax then I doubt Yaesu would go to all the trouble of
getting FCC acceptance. Look here:

I have a handheld microwave transmitter make by Innotek. This is about the size of a garage door opener and runs on a 9 v battery. The power output is 10 Mw and it has a built-in antenna with a gain of 7db. Center freq is 10.525 ghz . I have the schematic and circuit board diagram of the unit. The unit was purchased assembled from the factory and I used it to test microwave propagation.

$45

I also have a Cobra Trapshooter Radar detector that I used with this transmitter to receive the signal.

$35

Mike WB2GLW

The "hoax" should be in the stores really soon. If it's worth anything,
that will be a different story..

Hi All,

I have an Icom 207H (with detachable face) and the faceplate was stolen. I ended up buying a new 207H and I'm swapping the one faceplate between 2 cars. This is now getting old.

I'm looking to sell the base portion (with mike) or buy a used faceplate. A new faceplate costs almost as much as a new radio.

So, if you are in the same boat or know where I can get my hands on a faceplate, please let me know.

Please be sure to remove the 'DIESPAMMERS' before responding or send mail to me at my call sign at: ARRL.NET.

Thanks.

David

Thanks for reading...

I have FOR SALE, a nice little Alinco DJ-190 HT that's served me well over the past couple of years.(Although I really didn't use it too much since it was used for my packet set-up and packet has all but died around these parts. So its time to part with the HT.)

I've got some special higher gain "duckie" that I bought, and I'll throw that in with the deal. AA Nicads are in the unit. Very nice shape. Manuals included.

$49 takes it...along with $7 for insured U.S. Postal Service shipping and insurance.

First e-mail gets it. If you want to use Visa or Mastercard to get it to you quicker, we can do that through the little ham radio antenna business that I own.

You should go and look the Vertex Standard Japan website. It takes a
while always that the product information is updated to the US / UK
Yaesu website.

http://www.standard-comm.co.jp/Products/amateur/vu_handie.html#

I don't understand japan but there it is. The newest products are

usually published at the Japan website, as they are a japanese
company...

Maxon CP-0520 UHF FM Portable - 6 channel, synthesized - 440-460Mhz operation w/5 Watt output. Radio has a clear plastic outside case - see all the internal parts.

Comes complete with 3 batteries (CA-1450A), whip antenna, black vinyl case, CA-1100A Drop-in Charger (fast and trickle rates), SMP-4000 programmer (with manual), speaker/microphone, & radio service manual. Radio has been retuned for amateur radio frequencies, but can work fine in commercial band by re-tuning. Very loud audio, room in radio for PL encode/decode module (not included), small size (5.5" x 2.375" x 1.785"). Radio collectors? -- add this clear plastic radio one
to your collection!

Jack, WB2SIB

Hi,

I have a Kenwood AT-120 antenna tuner for sale. It is in great shape.
It will handle 150 watts and is small enough to put in a car. This is
not an automatic tuner. You need to tune it for the best match.

I could send a jpeg pic if for those that are seriously interested.

$65.00 plus shipping.

Thanks,

Doug W3IIY

Hi,

I recently bought this filter and it turns out it is not the correct
filter for my rig. So, it is up for sale.
The filter measures about 1/2" x 1 3/4" x 7/8". This is the type that
would get soldered in place.

Asking $50.00 plus shipping.

Thank you,

Doug W3IIY

Spring is here. This means we will be trucking, RVn, or driving to
hamfests, ham conventions and field day. Be ready with a sharp looking Ham
Call Plate on the front or a window sign across the back. Inexpensive and,
as always, satisfaction guaranteed.

Makes a great gift, too. Order on our web site: www.ParisMtnSignCo.com.

Al

Closes in 24 hours.  A great buy if you live in the SoCal area and can
take it down!!!

If you work for a non-profit group that allows tax deductions for
donations and could put together a work party to take these down, talk
to me about these antennae asap.

RESERVE IS ONLY $250 FOR THE ENTIRE PACKAGE (less rotator)!!!!

ONE NEW, ANTENEX brand, Phantom model, 3db gain, 806-866 MHz,
"Transit" style, low visibility, 800 MHz Antenna. Antenex part number
TRA8063. It is NEW in the bag. This antenna mounts to a standard
MOTOROLA style mount (NOT INCLUDED IN THIS AUCTION). I have been using
this style antenna for my personal equipment and I am very happy with
the results. Great for low-profile or unmarked vehicles!

ICOM IC-735 HF TRANSCEIVER

This is one of ICOM's best transceivers of its time, a real workhorse that is capable of 100 watts continues duty. I used one in Africa on RTTY for a number of years. Is small sized and very easy to use.

This radio is stock, no mods and no extras. Cosmetically it rates an 8 and electronically a 9.5. Every function works. The radio is clean and has not been used by a smoker. Comes with SM-6 desk mic, used but working, a new copy of the manual and schematics, and a power cord. Has plastic door.

Will be properly packaged for shipment.   Price is $445 plus shipping costs from 29609.

Thanks for reading.

AL

This is one of ICOM's best transceivers of its time, a real workhorse that is capable of 100 watts continuous duty. I used one in Africa on RTTY for a number of years. Is small sized and very easy to use.

This radio is stock, no mods and no extras. Cosmetically it rates an 8 and electronically a 9.5. Every function works. The radio is clean and has not been used by a smoker. Comes with SM-6 desk mic, used but working, a new copy of the manual and schematics, and a power cord. Has plastic door.

Will be properly packaged for shipment.   Price is $445 plus shipping costs from 29609.

Thanks for reading.

Harris Alpha 2000 UHF or VHF Synth Duplx Transceivers/PARTS/Boards

All board assemblies also available, working or repairable as is.
Working assemblies are $25.00 to $50.00 ea., Shipping included in
price.
Repairable as is boards are $10.00 to $20.00 ea, Shipping included in
price
Schematics/prints/pts list for each board assembly..
Buy individual boards or a complete UNIT of all the boards (11
working) plus chassis. Great Savings over single boards $

Inquiries Welcome

COMPLETE UNITS ARE:
Alpha 2000 (originally IMTS mobile telephones by Harris R.F.Comm)
Needs an addition of a external Controller , Antenna's(2) or duplexer
(1ant) for full repeater operation
UHF freq. Range 405 to 512 mhz
VHF freq. Range 130 to 174 mhz
Separate Rx and Tx ports connectors
Full duplex FM
Separate Rx,Tx phased locked VCO's
Freq. Tol. 5ppm or 2ppm
Receiver sensitivity .25 to .5 uv for 12 db sinad
UHF rf power output 30 to 45 watts (w/o duplexer)(Duplexer not
supplied)
VHF rf power output 50 to 70 watts (w/o duplexer)(Duplexer not
supplied)
Requires 13.8 vDC at 15amps max VHF , 8 amps max UHF
Upgraded with ULIB board (universal logic interface board)
ULIB is capable of 128 chan. binary selection by internal dip switch
or externally with bcd lines or 16 chan selection by 16 lines, plus Rx
Tx audio interfacing, COR line, PTT line and TCS adaptable.

Weight of unit is 24 lbs plus cables and manuals equals total of
approx 32 lbs shipping.

Each radio includes: Shipping included
All schematics/prints of each board assembly and main
interconnections, power cable, connector/pins for control cable, and
10 channels programm'd (your choice)

I have a number of ex-AT&T tower sites available, in Missouri and Arkansas.

If you have ever looked at one of these sites, with the concrete buildings a foot thick, the back up generators, the HVAC, electric toilets, etc, you got to know that these are wonderful facilities for HAM radio, survivalists, or just someone that wants to live through the nearby tornado.

The towers are awesome. Ranging from 75 feet to 300 feet, talk about a platform for just about any antenna you could want, as well as potential revenue from rentals.

They start at 20k, and go up, depending on the building, the tower, how much land, etc.

Contact me via email, bbowers@townsqr.com for more information. I may have some adjoining states available also, as well as some of the underground bunkers.

http://cgi.ebay.com/aw-cgi/eBayISAPI.dll?ViewItem&item=1344747825

There are only 2 days left on this auction, and I must say if I wasn't downsizing antenna and radiowise I would not sell this radio. It is fully unblocked and is in immaculate condition. It has the EX-310 Speech Synthesizer and a copy of the manual complete with fold out schematics. I promise you, that you will not be dissapointed. Thank you for looking
Mike

Poole Radio Club is looking for a TS450 transceiver to increase the
facilities offered on club nights, as you'd expect funds are limited, if you
have one for sale please contact me off-group at paul.()warman@usa.()net
remove the ().
Many thanks for reading this.
Paul

Hi All

I have a 1998 Ford Expedition that I would like to put a 2 meter radio in. Can someone tell me the best position to mount the radio an antenna so that I dont damage the SUV?

Thanks Carl

carl
i dont know the lay out of the SUV but i would suggest mounting it where the
ashtray is unless you smoke then  you can go with one of those radios that has
a removable face plate then mount the radio under the seat and the faceplate on
the dash somewhere
as for an antenna a 5/8 wave on a magmount on the roof would be good

radio:

where it is convenient and out of the way of ashes, spills, and water from open windows

antenna:

dead center on the roof.............if you can't bear to put a 3/4" hole in the roof, you don't really need a radio in the vehicle

One nice idea I saw with the Icom-207H (a dual-band rig) was to mount the head up by the mirror. They have a long cable available and the wire is easily hidden in the molding, plus the 207's head is quite small. There's a picture at http://www.qsl.net/w8kea. The guy who did it made a bracket so the molding screws could hold it in place.

..

I agree....If you want to make the antenna work the best just drill the dang hole like a real man and live with it...Magmounts suck and they damage the paint. And glass mount antennas are even worse...

IMHO YMMV

Dan

Motorola MCS2000 Model 2 - FLASHport - 806-870 MHz - NO RESERVE!

You are bidding on ONE Motorola MCS 2000, Model 2, FLASHport, 800 MHz, 35Watt, Privacy Plus Radio. This radio has the H38/G51 (Smartzone Operation) Flashcode installed. It operates in the 806-870 MHz range on Type I, II, IIi Systems and in conventional modes. It is capable of up to 160 Talkgroups and Conventional Channels combined -- on up to 20 Systems. The model number is M01UJM6PW6AN. Included in this auction is a palm mic, speaker adapter, and speaker (with speaker bracket). No other cables or parts are offered. This unit works great. I currently have it programmed on City Police, but will have to blank it for security reasons. There are NO scratches in the display. This unit is a 9.99 out of 10. It has small scratches near the rear of the unit where the unit was opened and checked out by an authorized MSS. This model is a dash mount, but it is capable of being converted to a remote mount with the purchase of a remote mount kit (about $160 new). Please refer to Motorola's web site for more details and features of this radio. This model lists for $2500 new and possibly more for the H38/G51 Flash options.

I don't deal with the sub-compacts much, I have an Excursion. ;^) Anyway, on the bottom of the dash is a small indentation. Just below the pocket in the dash to the right of the steering wheel. Brake controllers are often mounted there. I mounted my radio there and mounted the brake controller to another bracket connected to the radio bracket. I then use a 2m magmount that looks like a cell phone antenna. I can hit all the repeaters I need in about a 50 mile radius. The newer magmounts have a layer of mylar over the magnet, so it does not damage the vehicle. My has worked quite well, and I enjoy it quite a bit. Good luck.

ONE, NEW, ANTENEX brand, Phantom model, 3db gain, 450-470 MHz,
"Transit" style, UHF Antenna. Antenex part number TRA4503. It is NEW
in the bag. This antenna mounts to a standard MOTOROLA style mount
(NOT INCLUDED IN THIS AUCTION). I have been using this style antenna
for my personal equipment and I am very happy with the results. Great
for low-profile or unmarked vehicles!

I have a couple of old Hallicrafters SW radios that I need to work on. Does anyone have any manuals (user manuals, repair manuals, schematics, ???) for either of the following:

Hallicrafters S-53
Hallicrafters S-40B

I would pay for originals, or pay for copying if someone would copy and send what they have.

Please reply via e-mail

I have a used Vertex VHF VX-210 HT with a new FNB-V57 NiCd battery for sale.
Specs below - Sell for $250 or best offer. Will consider trades
Frequency Range:

```
     VHF: 148-174 MHz

16 Channel Capacity

5 Watt Power Output (selectable to 1 Watt)

MIL-STD 810 C/D/E

12.5/25 kHz Bandwidth Programmable by Channel

PLL steps:
     VHF: 2.5/6.25 kHz

CTCSS/DCS Encode + Decode
Positive Lock Channel Selector
ARTS (Auto Range Transpond System)
BCLO, BTLO, TOT
Tx/Rx Battery Saver Circuit
PC Programmable
Radio-to-Radio Cloning
Voice Inversion Encryption Available
Super Rugged Construction
DTMF 16 keypad (for VX-Trunk II Operation)
Intrinsically Safe Versions Available

For sale or trade:

Collins 30L-1 amplifier, works very well, very goood condition except top cover doesn't fit perfectly (does not affect operation, and only slightly noticeable looking at amp from above). Currently wired for 120VAC operation, easily changed for 240VAC operation. Includes manual copy. $575 plus shipping.

Drake MN-2000 tuner, works well, very good condition. Includes original manual. $175 plus shipping.

Vibroplex Original semiautomatic key, serial number 60767, purchased new in 1987. Very good condition, no dings or discoloration in chrome parts or grey base, nameplate attached and in excellent condition. Works very well. $80 plus shipping.

Electro-Voice 641 dynamic microphone with desk stand. Very good condition, works fine, currently wired for Heathkit HW/SB series rigs. $70 plus shipping.

Kenwood TH-215A 2-meter FM HT. Good condition, works fine. Includes WWW high-capacity battery and desktop charger, hand mic, original battery (dead, cells can be replaced if desired), original manual. $110 plus shipping.

Heil HC5 DX mic element. Very good condition. $15 plus shipping.

I can supply pictures of these items on request.

Anyone have a National HRO-500 they'd like to trade? Or let me know what you have to trade.

73,
Jeff Kilgore, KC1MK

Greetings:

I am still looking for a xtal calibrator plug-in unit for a Drake 2B receiver.
Also need the Speaker/Q Multiplier unit that goes with a Drake 2B. Please email if you have either of these items to sell or trade.

Thanks for reading...

Interesting - on the faceplate, it says "Submersible"!

I once let my young daughter, a semi-experienced sailor, go out in our little sailboat. She carried a VX-1R in case of problems, and I monitored the frequency from shore. Of course, the trouble she encountered was gusty winds that dumped the boat, and the ziplock bag containing the radio had a leak. No problem for her - she swims well, and I saw her problem from shore right away. The radio, however, took me many months to put back in working shape.

I'd love to have a handheld that could stand up to a quick immersion or a heavy spray off the bow. Nice feature!

Bob, KI8AB

Hello all.

I have an absolutely mint condition Uniden scanner for sale. It comes with the stock antenna, manual, service manual, and power plug. Sorry, no original box. Asking $300 shipped CONUS

Also willing to trade for a kick-butt HF (80-6m) mobile antenna, preferably a screwdriver or something similar Please make an offer.

Thanks for your interest.

-Greg

I have for sale a new 10 foot aluminum mast that I bought from Universal
Tower which I never used.  This is 2" O.D. X 1 3/4 I.D.  I am asking $40.00.
This is for local Detroit area pickup only.

Where can I get more information/specifications about the VX-7R? It is
not available on the YAESU homepage.

I am in NC and would prefer not shipping the unit. It has 3 filters
and
the 4:1 reduction knob.  Can send email elaborating on condition, with
pics,  but it works all except 10Meter; no significant
scratches/dings....knob has a repaired crack..bottom plate
missing...s/n2715 in the book...(don't see it on the set?).. . email
me: w4qcf@arrl.netnospam... take off the last part nospam

Hello there,

If you know a source of Kenwood TK-880/780 programming cables, please post the location as a follow up here or Email me direct by removing the NOSPAMPLEASE from my Email address header. I picked up a couple of radios that I'd like to program, stage one is finding the pc to radio programming adapter. Motorola uses a "rib" box and seperate cables for each radio on much of their stuff. I'm told the Kenwood adapters are made per model series of radio.   I'd also like to find the software, but that will come after I find the programmer.

thanks
skipp@pilotNOSPAMPLEASE.ucdavis.edu

This auction is for an Astatic 575 M6 handheld amplified microphone (AKA "Power Mike"). This mike is in great shape and is less than 1 year old. It looks and sounds great. I decided to buy a base microphone for my RCI-5054 6m radio and will not need this anymore. It will not come with a microphone plug, so you will have to supply that or take it to your local "tech" to have it wired up.

Hi All;

I have a 3 month old Icom 746; used about 10 hours total, maybe a bit longer. Original box, manual, mic, etc. Also have an Astron RS35A power supply, also a few months old, a Heil Goldline microphone with the Icom cable, a pair of JRC headphones, a rascal soundcard interface (for PSK31), and two antennas: a cuschcraft MA5V vertical antenna, and an MA5B beam. I spent over $2000 on this, and I will sell the whole package for $1500 plus shipping (although I'd prefer a local sale, as shipping all of this will be expensive). May be willing to split the package.

Contact me at: K6JBT@attbi.com

73,

James
K6JBT, ex-N6TTD

FOR SALE:

Hallicrafters SX-25 Defiant Receiver
Get that awesome push-pull 6V6es sound with this vintage beauty!
General Coverage Communications Receiver Made 1940-1946
Voltages: 100-125 VAC 50-60 Hz
Coverage: 540 - 42000 kHz
Modes: AM/CW Selectivity: 6 positions
Single Conversion Superheterodyne. 12 Tubes.
Size: 19.5x9.5x11.125" = 495x241x283mm
46 lbs. = 21 kg.
Tubes: 6SK7 1st RF Amp, 6SK7 2nd RF Amp, 6K8 1st Detector-Mixer,
6SK7 1st IF ANL, 6SK7 2nd IF Amp, 6SQ7 2nd Detector/AVC/1st Audio
Amp, 6SQ7 Phase Inverter, (2) 6F6 or 6V6 Audio Amp, 6H6 ANL, 6J5GT
BFO and 80 Rectifier.
Features: �" Headphone Jack S-Meter Tone (2 Pos.) Bandspread, RF
Gain, Mute Line, Standby, ANL, AVC, Dial Lamp, Hinged Top Cover,
BFO, Flywheel Tuning etc. Picture available on request.
Will sell for $140.00 plus shipping

Realistic DX-160 Receiver with Realistic speaker
Excellent condition general coverage shortwave receiver set. Excellent
working condition with repro manual. Picture available on request.
Will sell for $79.00 plus shipping.

National NC-190 Receiver
This is a nifty-looking old receiver with that classic space age blue finish.
Front panel looks very nice, but some of the knobs look crusty and need

cleaning. Appears to be all original with no modifications.
Receiver is non working but it is all there, and will clean up nicely.
Picture available on request.
Will sell for $125.00 plus shipping

Knight TR-106 6 meter AM transceiver with V-17 VFO
Excellent looking Allied-Knight 6m AM rig with the matching VFO. Comes with the microphone and has built-in speaker. Hook up 120V AC and an antenna and you are on the air. Needs one cable. Otherwise complete and has very nice appearance. Picture available on request.
Will sell for $125.00 plus shipping

Hammarlund Speaker. I believe this one matches the HQ-110 and other similar radios. Extra nice condition. Picture available on request.
Will sell for $50.00

Atlas 210 HF transceiver. Includes DC power cable. Needs work. Cosmetically very good. A couple of extra side holes where a genius mobile-mounted it. Picture available on request.
Will sell for $115.00 plus shipping

R-268/ARN-5B Command series rare VHF Receiver - Black case, similar to BC- 733F, but marked for 24V DC and no dynamotor. It's all there including the shock mounts and special bayonet connectors. Looks to be in very good condition. Unmodified. Picture available on request.
Will sell for $30.00

Command Set transmitters:

BC-459A complete - have two available. One is black crinkle paint finish. The other is the silver case. Both are made by Western Electric and are complete, unmodified, missing one very small cover on top. Will sell for $40.00 each plus shipping

Boonton Crystal Calibrator Model 111
Excellent condition
Will sell for $25.00

Boonton Crystal Calibrator Model 111-B
Excellent condition
Will sell for $25.00

Shipping is additional on all items.

I've added a few pics of some of my boat anchors to my website. Nothing

anyone hasn't seen before but everyone takes different pictures so there

might be something new to see - who knows ?

    http://www.vaxxine.com/phil/radio/radio.htm

Suggestions & comments always welcome.

Phil

For sale or trade:

Vibroplex Original semiautomatic key, serial number 60767, purchased new in 1987. Very good condition, no dings or discoloration in chrome parts or grey base, nameplate attached and in excellent condition. Works very well. $80 plus shipping.

Electro-Voice 641 dynamic microphone with desk stand. Very good condition, works fine, currently wired for Heathkit HW/SB series rigs. $65 plus shipping.

Kenwood TH-215A 2-meter FM HT. Good condition, works fine. Includes WWW high-capacity battery and desktop charger, hand mic, original battery (dead, cells can be replaced if desired), original manual. $100 plus shipping.

Heil HC5 DX mic element. Very good condition. $10 plus shipping.

I can supply pictures of these items on request.

73,
Jeff Kilgore, KC1MK

That's daft it's been FCC type approved

Under US freedom of information act, new radios submitted for type approval
are public information on the FCC website / database
That's how to keep abreast of new radios,
watch the FCC type approval site

Although of course that doesn't mean Yaesu will put into production
Just they now can, for use in the US

With the Kenwood TH-F6/7 selling like hotcakes,
Yaesu will have to bring out something new to replace the VX5

waters and standon are now selling the TH-F7 for 249quid

Steve Terry

I think Yaesu might be trying to avoid the same situation that Icom went through last year with their T-82A. Remember, it was all hyped up, but was pulled from production at the last minute due to issues with the wideband FM recieve. Just my 2kHz worth.

bill is that the s53  or the s53a   i have the a model and they are direrent
in that the s53a uses 450 kc if and the 53  uses i believe 2.5 mc  if
you can find the  manual for the s53  in the sams photo fact manuals
hope this helps  73  jim va7gpd

I've got an Icom PCR-100 computer-controlled radio scanner (1Khz to
1.3Ghz, minus cellular frequencies), plus an IBM Thinkpad 365XD
(P120, 1.4G, 40M, floppy & cd-rom, 800x600 color screen) laptop setup
to control it.

Would like to trade for a "stand-alone" scanner that covers the same
range.  Would prefer something like a Radio Shack Pro-2005/6, or a newer
trunking-capable scanner.  Will also consider trading for other ham radio
equipment (HF receiver, etc).

Can deliver in Austin, TX and surrounding area, or will ship if the offer
is right.

Info on the PCR-100:
http://www.icomamerica.com/receivers/pc/icpcr100main.html

Bill

Hi Doug and Cindy,
    I know the owner's manual is no longer available from Kenwood. I was
able to get the External Control manual from them. Another source is
www.manualman.com in N.J., I've had good luck with him, and prices are about
the same as W7FG.
        Good luck, Greg K3EWZ

Greetings,
I have for sale a "used once" Radio Shack DX-398 (Sangean ATS-909 clone) portable shortwave receiver. Unit is in mint condition with original box, case, owners manual, and an ATS-909 fact sheet printed from internet information. Sells new for $239.95 and up.

Reason for selling: I purchased it at the end of September, 2001 but have only used it once. Liquidating for other radio purchases.

Price: $175.00 shipped UPS ground USA only upon receipt of US POSTAL MONEY ORDER ONLY! I will provide you with a UPS tracking number when the shipment is enroute.

Please contact me via e-mail if interested. Thanks for reading.

Scott

Greetings,

I have for sale an original Optoelectronics Optolinx interface. This is the interface that will allow computer control of the AOR-8000 portable scanner (with proper cabling - not included) as well as just about every computer controllable Icom receiver. It also has a built-in dataslicing circuit that allows it to decode various HF/VHF/UHF/800/900 digital modes including ACARS, Trunker, etc. Unit is in very good physical and excellent operating condition.

Reason for selling: No longer in use.

Price: $85.00 shipped UPS Ground US only on receipt of US POSTAL MONEY ORDER ONLY! I will provide you with the UPS tracking number when the package is enroute.

More info on the Optolinx and its capabilities can be found by clicking this link:

http://www.optoelectronics.com/optolinx.htm

Please respond to my e-mail address if interested. Thanks for reading.

Scott

http://cgi.ebay.com/ws/eBayISAPI.dll?ViewItem&item=1337162020

This auction is for a Radio Shack Pro-90 300 channel handheld trunking
scanner. It is a 9.5 out of 10 physically due to a few very minor
scratches. It has been used only in my shack, a non-smoking
environment. I am selling it to get money for a dual-trunking base
scanner. It has never been opened and comes with the charger and
orignal antenna. You can view complete details on this scanner at
http://www.radioshack.com/searchplus.asp?type=ALL&find=pro-90#. The

manual is also available there in PDF format.

This item is NOT sold "as-is". It is guarenteed to work when shipped
and will arrive in that condition, unless damaged or abused by the
shipping company. Insurance is REQUIRED to ensure that the buyer does
not lose any money.

Collins KWM-2, winged emblem, works well, very good condition. Includes
Shure 444 mic. Includes manual copy. $600 plus shipping.

Collins 516-F2 120VAC power supply for KWM-2. Very good condition, works
well. Has speaker installed, but easily returned to original condition
if desired (no holes drilled, etc.). $250 plus shipping.

Collins 30L-1 amplifier, works very well, very goood condition except top cover doesn't fit perfectly (does not affect operation, and only slightly noticeable looking at amp from above). Currently wired for 120VAC operation, easily changed for 240VAC operation. Includes manual copy. $600 plus shipping.

Drake MN-2000 tuner, works well, very good condition. Includes original manual. $175 plus shipping.

Vibroplex Original semiautomatic key, serial number 60767, purchased new in 1987. Very good condition, no dings or discoloration in chrome parts or grey base, nameplate attached and in excellent condition. Works very well. $90 plus shipping.

Electro-Voice 641 dynamic microphone with desk stand. Very good condition, works fine, currently wired for Heathkit HW/SB series rigs. $80 plus shipping.

Kenwood TH-215A 2-meter FM HT. Good condition, works fine. Includes WWW high-capacity battery and desktop charger, hand mic, original battery (dead, cells can be replaced if desired), original manual. $120 plus shipping.

I might be interested in a trade--let me know what you have. I can supply pictures of all of these items on request.

73,
Jeff Kilgore, KC1MK

Greetings,

I have for sale a "used once" Radio Shack DX-398 (Sangean ATS-909 clone) portable shortwave receiver. Unit is in mint condition with original box, case, owners manual, and an ATS-909 fact sheet printed from internet information. Sells new for $239.95 and up.

Reason for selling: I purchased it at the end of September, 2001 but have only used it once. Liquidating for other radio purchases.

Price: $150.00 shipped UPS ground USA only upon receipt of US POSTAL MONEY ORDER ONLY! I will provide you with a UPS tracking number when the shipment is enroute.

Please contact me via e-mail if interested. Thanks for reading.

Scott

Hi there,

Thanks for looking... my first real ham radio was an original gold faced Galaxy III "3" and I'd like to buy another one (the first is long gone).

If you have one in most any condition you'd consider selling me, please drop me an Email (remove the NOSPAMPLEASE from my return address).

A few months ago... someone sent me a reply, they had a bare unit (no power supply) and I've lost your Email. Please contact me again if you are said person.

The radio can be non working, in most any condition.

thanks much

Greetings,

I have for sale a Radio Shack HTX-252 2M mobile transceiver. This unit
is in excellent condition and comes with original box and power cable.
Unit has seen very little use in an indoor environment.

Asking $100 shipped. I will ship upon receipt of US POSTAL MONEY ORDER
ONLY and will provide UPS tracking number by e-mail.

A picture of the radio is available at
http://www.scancapecod.net/misc/htx252.jpg

Please contact me by e-mail if interested. Thanks for reading.

Greetings,

I have for sale an Icom IC2-GAT 2 meter HT. Unit is in good operating condition and fair physical condition, mainly with paint blemishes and nicks. LCD display is clean. Includes original battery, high capacity Icom BP-8 battery, Icom AD-12 external power adapter, wall charger, antenna, Radio Shack speaker/mic, and manual. Operates at 7 watts out with original battery or external adapter.

Asking $90.00 shipped. Will ship upon receipt of US POSTAL MONEY ORDER ONLY! I will e-mail you with UPS tracking # when unit is enroute.

A picture of this package is available at
http://www.scancapecod.net/misc/ic2gat.jpg

I also have a Kantronics KPC-3 TNC that was used with this HT for a portable packet setup. If interested I will throw it in as well for an extra $40. If interested, please e-mail me. Thanks for reading.

Scott

Collins KWM-2, winged emblem, works well, very good condition. Includes Shure 444 mic. Includes manual copy. $550 plus shipping.

Collins 516-F2 120VAC power supply for KWM-2. Very good condition, works well. Has speaker installed, but easily returned to original condition if desired (no holes drilled, etc.). $230 plus shipping.

Collins 30L-1 amplifier, works very well, very goood condition except top cover doesn't fit perfectly (does not affect operation, and only slightly noticeable looking at amp from above). Currently wired for 120VAC operation, easily changed for 240VAC operation. Includes manual copy. $575 plus shipping.

Drake MN-2000 tuner, works well, very good condition. Includes original manual. $160 plus shipping.

Vibroplex Original semiautomatic key, serial number 60767, purchased new in 1987. Very good condition, no dings or discoloration in chrome parts or grey base, nameplate attached and in excellent condition. Works very well. $85 plus shipping.

Electro-Voice 641 dynamic microphone with desk stand. Very good condition, works fine, currently wired for Heathkit HW/SB series rigs. $70 plus shipping.

Kenwood TH-215A 2-meter FM HT. Good condition, works fine. Includes WWW high-capacity battery and desktop charger, hand mic, original battery (dead, cells can be replaced if desired), original manual. $110 plus shipping.

Heil HC5 DX mic element. Very good condition. $15 plus shipping.

I open to trade offers--let me know what you have. I can supply pictures of all of these items on request.

73,
Jeff Kilgore, KC1MK

Greetings:

I am looking for a xtal calibrator plug-in unit for a Drake 2B receiver.
Also need the Speaker/Q Multiplier unit that goes with a Drake 2B. Please
email if you have either of these items.

Thanks for reading...

update...
This is getting interesting, but not very...
Received an email from KB9YTV stating his bank
has an copy of an money order cashed by me that
he will soon have in his possession.
Totally false...

Regards,
KA4NNN
Presley Travis

The KWM-2 and 516-F2 have been sold.

> Collins KWM-2, winged emblem, works well, very good condition. Includes Shure 444 mic. Includes manual copy. $600 plus shipping.
>
> Collins 516-F2 120VAC power supply for KWM-2. Very good condition, works well. Has speaker installed, but easily returned to original condition if desired (no holes drilled, etc.). $250 plus shipping.
>
> Collins 30L-1 amplifier, works very well, very goood condition except top cover doesn't fit perfectly (does not affect operation, and only slightly noticeable looking at amp from above). Currently wired for 120VAC operation, easily changed for 240VAC operation. Includes manual copy. $600 plus shipping.
>
> Drake MN-2000 tuner, works well, very good condition. Includes original manual. $175 plus shipping.
>
> Vibroplex Original semiautomatic key, serial number 60767, purchased new in 1987. Very good condition, no dings or discoloration in chrome parts or grey base, nameplate attached and in excellent condition. Works very well. $90 plus shipping.
>
> Electro-Voice 641 dynamic microphone with desk stand. Very good condition, works fine, currently wired for Heathkit HW/SB series rigs. $80 plus shipping.
>
> Kenwood TH-215A 2-meter FM HT. Good condition, works fine. Includes WWW high-capacity battery and desktop charger, hand mic, original battery (dead, cells can be replaced if desired), original manual. $120 plus shipping.
>
> I might be interested in a trade--let me know what you have. I can supply pictures of all of these items on request.
>
> 73,

I need a Motorola MC145162 dual synthesizer chip (preferably two) to complete a prototype. Motorola have discontinued them, and although I can find them (thousands of them) at obsolete component suppliers, the have large minimum orders, and only want to deal with companies. If I could even get them from one of the major suppliers we use at work, but no....

If anyone has an example of this chip I am prepared to pay any reasonable amount to have it shipped to me. I beleive many were used in cordless phones...

Fred

Hi ALL, I have the following that I would like to Swap or sell if price is
right, Would like the equipment to go to the USA as I have heared that its
hard to get over there. I got Following.

Wireless Set No19 MkIII in Full working Order Complete less Headset.
Wireless Set No 62 MkII with Crystal Calibrator No 10 Fully Working with
headset.
HRO + PSU & CoilsWorking, Date inside 1944 very clean set
R 1155 Rx Working but needs PSU
R 1155 Not sure complete buut not tested.
If you go to QRZ. COM type my Call GW4OFQ and a photo will come up.
you will understand why I need to reduce the gear. I do not really want to
Sell them but the right offer will make me change my mind.
Thanks for reading this Roger GW4OFQ
www.rogerradio.co.uk This page is under construction will be completed in
April and will be a great site for Radio.

Gerd try posting an ad on the Crystal Swapping Bulletin Board (free) at:

http://www.senac.com/boards/880/

You find a lot of people there both selling and buying radio crystals of all kinds.

Sure beats $25.00 a piece at some of the manufacturers these days!

Available:The following amateur radio equipment.

Kenwood TS 520
Collins 75S 1
Collins 32S 3
Collins Station Control/Phone Patch
Collins 30L 1
Keyer Paddle
Heathkit Keyer
Hy Gain vertical antenna. HT 18
Info Tech M300 C keyboard

$1,500
The Collins S Line is complete but does need cleaning and some

work as its been idle for some years.

The Hy Gain antenna is dismantled and has not been used
in several years and some parts may be missing or broken, could be
used as a short tower section
for a roof top installation.

It is preferred all the above items are to be sold as a whole
and anyone interested is expected to take all, buyer will be
responsible for taking everything away, no shipping.

Anyone interested in the above radio equipment can contact me
by telephone,or e mail.....508 992 5203 or w1obj@arrl.net

I have for sale a nice condition Yaesu FT-101ZD. This particular
transceiver is the version with AM mode included.
The cooling fan option is also installed in this rig.
Cosmetically it is in nice shape with one small hairline scratch
next to the clarifier control. Electrically it is in fully
functioning condition with full output 80-10.
$350.00 plus shipping and insurance from zip code 76001

Thanks!

I have two ht1000s they are as follows:

1. Model # HO1SDC9AA3CN
2. Model # HO1SDC9AA3DN
16 Channel
470-520mhz
4.0-5.0 watts
Standard Control No Display
Variable/Programmable Channel Spacing
Conventional/Simplex Operation
Conventional System Type
Limited Plus Feature Level
Scale of 1 to 10 I would rate them at 8.
I have 4 batteries and one brand new Charger in the Box.
Also have one used charger.
Don’t know the actual condition of each battery other than they charge
up ok and have worked for several hours on occasion…
Use these radios to communicate at the Drag Races…
I can program them for any frequency you want in the 470-520 range.

I will sell the radios outright for 300.00 each or
I will trade one radio for an Icom pcr1000 unblocked or
I will trade both radios for a Winradio WR-1550e

I have for sale one Optoelectronics Xplorer Nearfield Receiver. Unit is in excellent condition and has seen little use. Will include Opto DB32 "stub" antenna. With original box, manual, telescoping whip antenna, PC download cable, software, and AC adapter. This is the newer Xplorer that also decodes LTR trunking ID's. It is cellular blocked. Battery pack is in excellent condition.

Reason for selling: Seeing virtually no use, liquidating for other radio purchases.

Price: $600.00 shipped UPS ground US only.

Payment Method: Pre-pay with U.S. POSTAL SERVICE MONEY ORDER ONLY!!!
No substitutions, please!

Upon receipt of US Postal Service money order I will ship unit to you and will contact you with UPS tracking number.

For more information about this device, please check this link:

http://www.optoelectronics.com/xplorer.htm

Please contact me via e-mail if interested.

Thanks for reading.

Greetings,

I have a Realistic PRO-2004 scanner for sale. The following info describes it's condition, modifications, accompanying HB232 Interface, included items, and payment method. Photos of the package are available through the link at the bottom of this message. If you are interested after reading this long-winded message, please contact me at kc1ua@scancapecod.net. Thanks.

Condition
----
1. Case is in good condition. Some minor scratches.
2. Display is in good shape. Not as bright as day #1 but doing well.
3. An analog signal meter has been mounted on the lower left front of the radio. This eliminates the earphone jack.
4. A blue keypad overlay has been placed over the original yellow keypad. This overlay shows a 400 channel plan instead of the 300 on the original yellow.
5. Radio does use a 9 volt battery as memory backup. Care must be taken to replace this battery. I would recommend twice a year.

Modifications
----
1. Full coverage restoration.
2. Removal of power transformer to reduce heat issues, facilitate

HB-232 interface components, as well as toggle switches mentioned in #4 mod below.
3. 300 to 400 channel modification.
4. Modification that creates 64 independent "banks" of 400 channels each. Controlled by toggle switches on rear of radio. Diagram for operation is included. It is not possible to scan across these banks, but 64 different configurations are possible.
5. Pushbutton switch on back of radio defeats keypad beep.
6. Discriminator tap (RCA jack).
7. Analog S-Meter mounted on front lower left. Eliminates earphone jack.
8. Radio did have problems with cold solder joints, which is common in this radio. They have been repaired.

HB-232 (a.k.a CE-232) Interface

1. Allows for computer control of PRO-2004 through supplied DOS software. Demo of Windows software is available for download from www.steaksandwich.com.
2. HB-232 Interface is mounted in a project box, 8" wide, 6" deep, and 3" high. Short DB25 connection from box to rear of PRO-2004. DB-9 connection from interface box to computer.
3. Supplied software is able to program radio and will display a "virtual" panel that controls radio's functions. Again, it is DOS based software. I would primarily recommend using it for programming/backup of memory banks. Many scripts that can make the HB-232 perform various functions are included.
4. It IS NOT imperative that you use this interface. The radio operates just fine standalone. However, it is included as part of the package for obvious reasons.

Included Items

1. Original manual.
2. Service manual.
3. Power supply is NOT included. You will need a 12V positive tip wall wort type supply. I would recommend one that handles about 1 AMP just to be on the safe side. I was powering the radio from a 12V power system in my shack. Transformer was removed as outlined above, so this radio DOES NOT have 120 VAC capability. Radio did not come with a wall wort type supply.
4. HB232 software and scripts burned on CD.
5. My support for your first days of operating this radio! I won't disappear on you.

Payment Method

1. $300. Will ship UPS Ground USA only on receipt of US POSTAL MONEY ORDER ONLY!
2. Shipping and insurance included in asking price.
3. I will provide you with a UPS tracking number when the radio is enroute.
4. Reason for selling - I am simply not using this setup any longer.

It is sitting here doing nothing.

This is a unique setup. I would not recommend this setup for anyone looking for their first scanner, but the radio works fine as a standalone unit and/or with the HB-232 interface. Please contact me if you have any questions. Photos of the package are available at this link:

http://www.scancapecod.net/2004sale.html

Both in perfect condition...818 only 2 months old...too big for
travel...dt-110 see
http://www.universal-radio.com/catalog/spcialty/4502.html   Both for $115
plus shipping in USA...would consider a trade for an Icom r2, q7 or maybe a
yaesu vr-120 in excellent condition!

I have 3 radios, 2 must go
one of the dualband icoms and the clegg 220 rockbound

both icoms are:
high power 50/35 (2m/440)rx AM airbands and well into the 170's
rx down to 420's and up into the 470's will do gmrs or frs recieve
(not t-a for xmit here) have manual, power and mic cords with dtmf
mike
the 2710h has dual recieve and crossband, the 207h is single recieve

the clegg is 220 rockbound (crystal) 10 watts with the calling
frequency installed (used for packet) have mic, manual, and power cord
(is attached)
dtmf pad on radio is nonfunctional aftermarket, but no problems with
the rig.

207h $200 shipped
2710h $275 shipped
clegg fm 76 $70 shipped

I can be reaced via email OR by phone ONLY
email is kevtis@hotmail.com
phone is 8176773078 (after 7pm)

thanks for your interest

KM5RT

We have reduced the price to $199 !!! Get one while they last.

We have a supply of Optoelectronics 3000A Plus Counters. A very special
purchase allows us to offer Optoelectronics 3000APlus top of the line

portable frequency counters that are absolutely brand new, complete with accessories, still in the original factory boxes!. See more details at the ebay auction link below. Go to this link for details on purchasing one - http://www.datadeliverydevices.com/opto.htm or you can email me (remove all CAPS from the email address)

The Optoelectronics website has all specs, details
and the pdf manual at http://www.optoelectronics.com/3000a.htm

Kenwood TS-930S(e)/AT: SN 404XXXX, PIEXX digital board installed for
PC rig control, extra memories(99), +additional features. YK88C and
YK88S filters installed. MC-60 and service manual are included.
The rig is in excellent shape, the mic ain't pretty, but it works.
Killer contesting/DX receiver, superb xmit audio. This setup is the
same one used by some of the big M/M DXpeditions.... I'm asking $900
for the package, but I would really like to trade -plus cash- for a
pre-MarkV 1000MP. Drop me a note, or I can meet you on-air for a test.
73, Blake N4GI

I have for sale a nice condition Yaesu FT-101ZD. This particular
transceiver is the version with AM mode included.
The cooling fan option is also installed in this rig.
Cosmetically it is in nice shape with one small hairline scratch
next to the clarifier control. Electrically it is in fully
functioning condition with full output 80-10.
$325.00 plus shipping and insurance from zip code 76001

Thanks!

******* Panel Meters ********

Alps Keiki SU-55 series
  3A DC   3.4" x 2.4" rectangular NIB -- $20
  100uA DC 3.4" x 2.4" rectangular NIB -- $20
  15 V DC 3.4" x 2.4" rectangular NIB -- $20
See these three at:
http://photos.yahoo.com/bc/marv_email/vwp?.dir=/
Jpegs&.dnm=alpsmtrs.jpg&.src=ph&.view=t&.hires=t

Analog Devices AD2004 4� Digit LED 2 (1.9999) volt Panel Meter; NOS
w/ data sheet $40
See on the right side at:
http://photos.yahoo.com/bc/marv_email/vwp?.dir=/
Jpegs&.dnm=digmtr.jpg&.src=ph&.view=t&.hires=t

Calrad 1mA DC 1.7" square new -- $10 See at:
http://photos.yahoo.com/bc/marv_email/vwp?.dir=/
Jpegs&.dnm=smallmtr.jpg&.src=ph&.view=t&.hires=t

Datel DM-3100L-7089 3� Digit LED Panel meter; range & condition
unknown. Used. $10
See at center bottom at:
http://photos.yahoo.com/bc/marv_email/vwp?.dir=/
Jpegs&.dnm=digmtr.jpg&.src=ph&.view=t&.hires=t

FLW Model 204B2, ER2 & model 204B-2D1,ER2,01 digital panel meters
w/internal 120VAC power supply. 4 digit display plus a minus sign; 3�
or full 4 digits ?? Full scale unknown -- used $25 pair These are
center top and on the left in the photo at:
http://photos.yahoo.com/bc/marv_email/vwp?.dir=/
Jpegs&.dnm=digmtr.jpg&.src=ph&.view=t&.hires=t

Pair of GE DO-53 3�" Square meters:
  One is a 2A scale and movement
  The second is a 1 volt meter with a triple scale -- 25 mA, 250 mA,
500 mA for use with external shunts. There is a small crack in the
right side of the bakelite front of this meter which could be filled
in with black filler. The glass is fine. $30 for the pair. See at:
http://photos.yahoo.com/bc/marv_email/vwp?.dir=/
Jpegs&.dnm=gemtr.jpg&.src=ph&.view=t&.hires=t

GE 50-283013MTMT1 3" thin edgewise panel meter 10V scale NOS in old
box -- $15 See at:

http://photos.yahoo.com/bc/marv_email/vwp?.dir=/Jpegs&.dnm=Edgemtr.jpg&.src=ph&.view=t&.hires=t

GE DW-44 2" round 8A RF Ammeters w/ internal thermocouple. Used $15 ea   See at:
http://photos.yahoo.com/bc/marv_email/vwp?.dir=/Jpegs&.dnm=RFamtr.jpg&.src=ph&.view=t&.hires=t

GE 8DW-46 2" round Decibel meter. 0 dB = 1.9 volts. NIOB (New in Old Box) $15
See on the left side at:
http://photos.yahoo.com/bc/marv_email/vwp?.dir=/Jpegs&.dnm=dbdbm.jpg&.src=ph&.view=t&.hires=t

GE 50-240001AAAA1 2" round 100000 Hour Running Time meters 120VAC 60Hz NOS $20 ea
See the large meters at:
http://photos.yahoo.com/bc/marv_email/vwp?.dir=/Jpegs&.dnm=timemtr.jpg&.src=ph&.view=t&.hires=t

Hewlett Packard (made by Simpson) 1120-0037 DBM meter -- -6 to +3 scale NOS $15
See on the right side at:
http://photos.yahoo.com/bc/marv_email/vwp?.dir=/Jpegs&.dnm=dbdbm.jpg&.src=ph&.view=t&.hires=t

A.W. Haydon miniature 10000 Hour running time meter. Case is about 1/2" square (exclsive of mounting flange) by 1" deep. 115VAC 400Hz NOS $15

Hobbs 120 VAC 60Hz 99999.99 (Yes, displays down to 100th's!) Hour running time meter about 1" high by 2" wide rectangular with triangular shaped mounting ears. New $20 ea
The small meters at:
http://photos.yahoo.com/bc/marv_email/vwp?.dir=/Jpegs&.dnm=timemtr.jpg&.src=ph&.view=t&.hires=t

Japanese meters -- unknown mfgrs
  50uA DC 2.3 x 2.6 rectangular NIB -- $15 ea (2 available)
  MRA-38 500uA DC 1.7" square used -- $6 ea (2 available)
  MRA-38 500uA DC 1.7" square new -- $10 ea (2 available)
  407-160 Red/Green half & half scale (100uA movement) less than 1" not square NIB -- $5
See these at:
http://photos.yahoo.com/bc/marv_email/vwp?.dir=/Jpegs&.dnm=smallmtr.jpg&.src=ph&.view=t&.hires=t

KEW Electric dual scale 32V / 1.5A meter (1mA movement) 1.9 x 1.6 rectangular -- Used $5
See at:
http://photos.yahoo.com/bc/marv_email/vwp?.dir=/Jpegs&.dnm=smallmtr.jpg&.src=ph&.view=t&.hires=t

Lambda (made by GE) 40VDC 1.75" square new -- $20
Lambda (made by Honeywell) 10 A scale 1.75" square new -- $20
See these at:
http://photos.yahoo.com/bc/marv_email/vwp?.dir=/Jpegs&.dnm=smallmtr.jpg&.src=ph&.view=t&.hires=t

Motorola 52B892096 3�" Square Meter (movement actually made by Simpson).
This is some kind of tuning (or deviation?) meter with a 12 pin connector
(like a 9 pin miniature tube outline plus 3 extra pins in the center)
wired to the meter. Used $15 See at:
http://photos.yahoo.com/bc/marv_email/vwp?.dir=/Jpegs&.dnm=Meters3.jpg&.src=ph&.view=t&.hires=t

Simpson 1327 100uA 3�" square meter. Used $15 See at:
http://photos.yahoo.com/bc/marv_email/vwp?.dir=/Jpegs&.dnm=Triplett.jpg&.src=ph&.view=t&.hires=t

Simpson 3" sq modern plastic 500-0-500ua movement w/ 50-0-50 scale -- Used $10 See at:
http://photos.yahoo.com/bc/marv_email/vwp?.dir=/Jpegs&.dnm=Meters3.jpg&.src=ph&.view=t&.hires=t

Triplett 220G 50 Volts DC 2-3/4" rectangular -- Used $15
Triplett 327T 50 uA DC 3" Square meter   -- I think these are unused. $15 ea (3 available)
See the two above at:
http://photos.yahoo.com/bc/marv_email/vwp?.dir=/Jpegs&.dnm=Triplett.jpg&.src=ph&.view=t&.hires=t
Triplett 321T 1 Amp DC 3.5" Round meter NIB -- $20
Triplett 327T 10 Volt DC 3" Square meter NIB -- $20

Westinghouse 3�" Square RX-35 series meters, used -- $10 each

30 mA   300 mA   15 VDC   20 VAC 35KV (2mA full scale on this last unit)

See some of these at:
http://photos.yahoo.com/bc/marv_email/vwp?.dir=/Jpegs&.dnm=Westingh.jpg&.src=ph&.view=t&.hires=t

Westinghouse 3�" Square RX-35 series meters, used -- $15 each

50 uA also marked with Motorola pn 52-B-86645   See at:
http://photos.yahoo.com/bc/marv_email/vwp?.dir=/Jpegs&.dnm=Westingh.jpg&.src=ph&.view=t&.hires=t

50 uA movement with Ohm scale -- 500 ohms at left, 30 ohms at center, 0 at right

Westinghouse 2" round 9A RF Ammeters w/ internal thermocouple. Used.

$15 ea See at:
http://photos.yahoo.com/bc/marv_email/vwp?.dir=/
Jpegs&.dnm=RFamtr.jpg&.src=ph&.view=t&.hires=t

Westinghouse 3" round 50mA RF Ammeter w/ internal thermocouple. Used.
$20 See at:
http://photos.yahoo.com/bc/marv_email/vwp?.dir=/
Jpegs&.dnm=Meters3.jpg&.src=ph&.view=t&.hires=t

Weston 301 3" square 3A RF Ammeter (requires external thermocouple
that I don't have) Used. $7 See at:
http://photos.yahoo.com/bc/marv_email/vwp?.dir=/
Jpegs&.dnm=RFamtr.jpg&.src=ph&.view=t&.hires=t

All of the above plus shipping, if necessary, naturally.

Here is a one month old Radio Shack PRO-2067 500 channel MULTI-SYSTEM trnking mobile scanner. I took it out of the box plugged it into power for a few hours and returned it to its box. This is a moble scanner, and comes complete with all the mounting hardware, box manual, mounting bracket. Never been installed. Looks 100% works the same. Sells new at Radio Shack for $249.99. My price is $175.00 shipped. Thanks Patrick K8CMA.   k8cma@arrl.net

This is a very neat looking radio and a bit on the Rare side. I am looking for the best offer over $200.00 It is a STONER PR-10 transceiver that works on 10 meters. I was amazed how sensitive this radio was. The stations just boomed in. It has been checked out on both receive and transmit and is fully operational. AM-USB-LSB multi speed scan, RIT control and a neat looking digital display. I don't have any DC power cord or operating instructions for this radio. The wood case is in good condition. Each side has a small screw hole from a mobile mount. The up-down microphone works great! I would rate this radio an 8 on a scale of 1-10. Please look at the pictures below.

FS: VHF Power amp

Late '70's vintage likely Military, probably airborne, VHF power
amplifier
assembly. It consists of 7 almost identical amplifier assemblies
clustered around a
central housing that has splitter combiner networks which are plugged
onto each end with a bunch of SMB connectors. There are TNC's for the
main in's & outs.   I think it was originally configured as one amp,
driving two, driving four boards. The complete assembly measures 7.5"
x 5"
x 3.5" overall -- the individual RF amp boards are 4.5" by 2". The
outer covers
are mostly missing. Each amplifier is a push pull design -- they

appear to be
50 ohm in & out impedance with either PT6747 or PT6702 TRW
transistors. I would
guess this unit operates on 28VDC. I don't know what frequency range
it
covers nor the power level though, just guessing, it probably puts out
at
least 100W.   And there is no manufacturer name -- probably went with
the outer cover. Six of the stages are marked OK and one, the input
stage I think, is marked NO Good. The individual amps have integral
heat sink plates so, they could be removed from the assembly and used
separately. Think of it as 7 amplifier boards @ $10 ea --
Bare PCB's would cost as much! -- $70   May be seen at:

Knight TR-106 with the matching V-107 VFO unit
and cables. This is a 6m AM rig with built-in speaker. Silver and blue
with a
great styled case.
Front panel looks really good. Has all original knobs. It is NOT in
mint
condition, but shows less than normal wear. No bad dents or dings.

The power cable to the TR-106 is missing but you can easily make one.
I
have not tested it but it is all there. No modifications or damage has
occurred.
Will sell for $135.00 plus shipping

FOR SALE:

Collins 75A-1 Receiver with filer. No case. Needs work but very much restorable. No case. All original knobs.
Picture available on request.
Will sell for $275.00 plus shipping

Hallicrafters S-38D receiver, silver case and front panel.
Has all original knobs. Bandspread dial is slipping. Needs new output transformer, but is otherwis ein good shape. Case has some wear and scratches, but no bad dents etc. A very restorable receiver. Will sell for $45.00 plus shipping

Hallicrafters S-40A communications receiver
Serial number HA-90221
Nice receiver - All original, with a fine looking front panel. Original knobs, dial etc. Covers 540 kc. to 54 MHz in four bands, with sensitivity control, AVC on-off, tone control, noise limiter, BFO and send-receive switch and rear terminals.
Also has front panel headphone jack. Built in speaker. The set lights up and appears to be working but has a loud hum. Likely just needs a capacitor replaced. Will sell for $75.00 plus shipping

Realistic DX-160 Receiver with Realistic speaker
Excellent condition general coverage shortwave receiver set. Will sell for $75.00 plus shipping.
Pictures available on request

Knight TR-106 transceiver with the matching V-107 VFO unit and cables. This is a 6m AM rig with built-in speaker. Silver and blue with a great looking case.
Front panel looks really good. Has all original knobs. It is NOT in mint
condition, but shows less than normal wear. No bad dents or dings.
The power cable to the TR-106 is missing but you can easily make one.
I have not tested it but it is all there. No mods or damage.
Will sell for $135.00 plus shipping

BC-733F Receiver with dynamotor DM-53A for 28 V DC operation.
Black case, complete and in good shape. Has service and inspection tag from 1959.

Comes with the connector and the original
shockmounts.
Looks to be in very good condition. Unmodified. Will sell for $30.00
Picture available on request

R-268/ARN-5B Receiver - Black case, similar to BC-733F, but marked for 24V DC
and no dynamotor. It's all there including the
shock mounts and special
bayonet connectors. Looks to be in very good
condition. Unmodified. Will sell for $30.00
Picture available on request

I am looking for someone who could scan a few pages from a Radio Shack HTX-212 manual. I need the schematics for the radio and microphone and they are no longer available through Radio Shack customer service. I bought a used HTX-242 but it came with the microphone from an HTX-212, and there is a slight difference between the two mics because none of the scan or direct entry functions will work. I did some substitution troubleshooting and have determined that my radio and mic are both ok, they just don�t match each other. Radio Shack was able to provide the pinout identification for the connector and the only obvious difference is that the radios provide different voltages to the mic, so I am hoping to be able to compare schematics and find the internal difference and make my mic work on my radio. I have only been able to find two HTX-212s locally, and neither ham has the manual, so if anyone could help me out I would really appreciate it.

Please contact me directly at sparkyXmantoo@yahoo.com (remove the X)

Thanks, Steve

Just to let you know... The HTX-242 uses COMMANDS that are sent serially from the processor in the mic to the radio to almost all functions other than PTT. I don't know how the 212 works. Or if the commands are the same.

Mike

*********** Air Variable Capacitors ********

Cardwell enclosed 7 section variable capacitor assembly for/from some receiver? -- The sections measure: 210, 210, 105, 105, 105, 100 & 75 pF. The unit is about 12" long and 3" square with a right angle drive mounted in the center and a 30 turn scale. This looks to be NOS (nothing ever soldered to...) but, it is a mite tarnished on the outside from being stored forever. There is also a (Mil?) number on the unit: SC3188A. $30
See at:
http://photos.yahoo.com/bc/marv_email/vwp?.dir=/Jpegs&.dnm=cardwell.jpg&.src=ph&.view=t

Johnson T9-5 miniature vertical PC mount trimmers 1.9-15.7 pF, Silver Plated machined plates -- NOS 2/$1

G.I. Corp 70 pF, .080" air spacing, about 3.5"x3.5"x3" overall, �" shaft $2ea (2 available)

National Type DX 500pF variable capacitors, approx. 3" X 3" x 3" overall fairly good condition. $10 ea. May be seen at:
http://photos.yahoo.com/bc/marv_email/vwp?.dir=/Jpegs&.dnm=National.jpg&.src=ph&.view=t&.hires=t

Remler "scissors" variables. Type 630 350pF $25
Type 631 500pF $25

General Instrument type NNC153 3 Section large receiving style capacitor 13-420 pF per section, $15

4 Section capacitor 20-550 pF section large receiving style capacitor, $25

See the previous two units at:
http://photos.yahoo.com/bc/marv_email/vwp?.dir=/Jpegs&.dnm=loadcaps.jpg&.src=ph&.view=t&.hires=t

See the next four units at:
http://photos.yahoo.com/bc/marv_email/vwp?.dir=/Jpegs&.dnm=aircaps.jpg&.src=ph&.view=t&.hires=t

Johnson 154-1, 12-244pF, .05" air gap, about 3" x 3" x 3" overall. Rear shaft has been cut flush with bushing and the rear mounting tab has been shortened a mite. Otherwise, excellent condition, $25.

Johnson 154-34-3, 20-400pF, looks like .03" air gap, about 3" x 3" x 3" overall not including 1/4" shaft which is about 2-1/2" long. Excellent condition, $25.

Johnson 500E20 (modern equivalent 154-3), 500pF/2KV, looks like .05" air gap, about 3" x 3" x 4.5" overall not including 1/4" shaft which is about 1-1/2" long. Good condition except the rear mounting tab has been removed and it looks like a couple of the plates arced at one time and were subsequently filed down a mite. $25.

Similar to the part above but, NOT a Johnson, another 500pF/2KV, looks like .05" air gap, about 3" x 3" x 4.5" overall not including 1/4" shaft which is about 1-1/2" long. Good condition except the front mounting tab has been removed. $25.

See the previous four units at:
http://photos.yahoo.com/bc/marv_email/vwp?.dir=/Jpegs&.dnm=aircaps.jpg&.src=ph&.view=t&.hires=t

Hammarlund SM-50-X, 7.5-50pF, .064 air gap, Just under 2" x 2" x 2" overall not including 1/4" shaft. Good condition. $10.

National SEU-15, 15pF 270 degree rotation, straight line frequency, variable cap. Shiny and new in beaten-up old box (SNIBOB) $25.

All of the above plus shipping, if necessary, naturally.

******** Microphones ***********

ICOM IC-HM12 Handheld Mike. I don't know what rig(s) this fits but, it has a Japanese "standard" round 8 pin connector. The mike also has Up & Down buttons on top. Looks unused. $30

Astatic Dynamic Mike -- This is either a Cardioid or noise cancelling as it has some small holes in one side. It is black about 5-1/2" long with a Cannon connector (M) in the bottom end. The model number is either invisible or rubbed off. The finish is well worn but, I plugged it into a Shure mixer and it seems to work fine. $20

University Model 70 Omnidirectional Dyamic mikes. They are black & light gray finish, have seen a lot of use and there are a pair of these. One has a Cannon connector (F) on the end of a cable and the other is missing its cable so I couldn't easily test either one. Asking $20 for the pair.

******* Mike connectors & cables ************

Motorola 4-pin Microphone connectors 28-16730 (similar to Amphenol MC4M) -- NIB $5ea

Motorola 0180700T14, 4-wire coily cord mike cable assembly with a mike connector as above on one end and a spring strain relief on the other. There are some flat pins on the free wire ends -- NIB $15

NOS coily cable for a Yaesu MH-27 mike (may fit others). Later version with the RJ connector at the radio end. $10.

All of the above plus shipping, if necessary, naturally.

go to http://icomamerica.com

there are PDF files there you will find the manual, just print it out (about
80 pages)

Both are in great shape, VFO is mint. I also have 2(ea) IC-2AT's to sell.
How
about $300 for all of them? E-mail me if you're interested.

Rick

So what IS the reserve?
If it is low enough I would bid ...

This Icom 756 (Non pro) is in very nice shape, But does have a problem
with the screen, There is a pair of horizontal(ghost) lines on the
display. They have been there for the 2 years I have owned the radio,
and even though they sometimes disappear They do always seem to come
back.I can send pictures of screen upon request They do not effect the
use In any way I can tell, but are there.
The radio will come with, hand mic, manual, power cord and box.I am
looking for best offer for the radio.
Thanks for reading

We have reduced the price to $199 !!! Get one while they last.

We have a supply of Optoelectronics 3000A Plus Counters. A very special purchase allows us to offer Optoelectronics 3000APlus top of the line portable frequency counters that are absolutely brand new, complete with accessories, still in the original factory boxes!. See more details at the ebay auction link below. Go to this link for details on purchasing one - http://www.datadeliverydevices.com/opto.htm or you can email me (remove all CAPS from the email address)

The Optoelectronics website has all specs, details
and the pdf manual at http://www.optoelectronics.com/3000a.htm

Hello all,

I'm looking for a complete control head assembly for an Alinco DR-599
or DR-590 transceiver.   I have acquired the body of the transceiver,
but am after the control head.

Does anyone out there have one or know of where/how to get one??

My email is: vk2gjt@winnet.com.au

Thanks for any assistance,

Greg Towells

I've heard there were some slight differences in units and not all bodies
are
compatible with all heads.  I think by the time the 599 came out the
firmware
was pretty 'locked down' and they were swappable though.

Mike
